Truly a Disagreeable Job.  
 (Goodland, Kan., News)

**DEWEY'S HOME-COMING.**  
 Persecuted by Representatives of the Yellow Journals.  
 New York, Aug. 25.—A dispatch to the Tribune from Ville, France, announces the arrival of Admiral Dewey at that place, and says that he has almost entirely recovered from his recent attack of fever. The dispatch states that one of the most unpleasant features of the admiral's visits to the way ports along his homeward route is the persistent efforts of newspaper correspondents to secure interviews with him. The representatives of the press are received with due courtesy, but the admiral modestly declines to discuss the Philippine question and only refers to the incidents of his homeward journey and in a general way occasionally, to the great naval battle of Manila Bay. He is indignant and bitter in his denunciation of the originators of the many alleged interviews published throughout the country wherein he is quoted as defining his position on the Philippine question and criticizing the administration's policy in the Orient. The admiral has announced his intention to sail into New York harbor on September 28.

The above dispatch again knocks the wind out of the arguments of the expatriate press in regard to Admiral Dewey's position on the Philippine question, wherein it is alleged that he is a pronounced anti-expansionist, bitterly opposes the administration's Philippine policy and believes the Philippines fully capable of self-government. It has only been a few days since our contemporary came out with a typical yellow journal interview with Admiral Dewey, quoting him as above mentioned, and which like all former sensational interviews with the great Dewey, has proven a rank fake.

Regardless of the repeated denials of the correctness of these interviews by Admiral Dewey, no one at all familiar with the course of events in the Philippines during the past year and a half have ever given any credence whatever to these alleged interviews, for no one has been more conspicuous in bringing about the present hostilities and conditions in the Philippines than Admiral Dewey himself. It was through his advice and urgent demands upon after the great naval battle in Manila bay, that volunteers were hastened to Cavite and later to Manila, where after the Spanish foe had been vanquished, war with the natives became inevitable, and was finally precipitated. On this occasion it will be remembered, Admiral Dewey immediately turned the big guns of his fleet on the Filipino fortifications and trenches, and rendered the American troops most effective services in routing the rebels, and driving them from Manila and the adjacent coast country. Does this indicate that Admiral Dewey was never in favor of turning American guns on the inoffensive Filipinos, or taking vigorous steps to put down the insurrection in the islands? When the above facts are considered, the following from the Review, plainly portrays the ignorance of its editors, or else shows with what small regard truth and veracity is held by that paper and what great deception is practiced upon its readers, in order that it may to some extent justify its unfavorable position on the Philippine question.

"THE PLAINDALEER should add the name of one more copperhead to the list, who is as pronounced in his opposition to imperialism, as is Hon. Wm. J. Bryan. That name is one that will be luminous in history, when Wm. McKinley and Mark Hanna shall have been long buried in oblivion—it is Admiral George Dewey."

Admiral Dewey has nothing to fear from the fair of the American press. They do not make or unmake real men.—Chicago Inter Ocean.

When you read about what Dewey said with reference to the war, consider it one of the things politicians like to "nail."—Telegram.

Dewey still declines to talk. What an admirable admiral he is, anyhow!—Sun.

These are remarkable days. Peffer was recently transformed, Coxe, it is said is about to become a plutocrat, and Dennis Kearney of San Francisco, who a few years ago led the sandlottery, in all manner of schemes against the rich, is now a plutocrat himself, having been very fortunate in speculations. He is said to be worth several hundred thousand dollars, at one time making \$40,000 in a deal. He declares now of course, that he made now a fool of himself when on the sand lots. There is also a very large number of common people who were led away by the free silver craze and visionary populist doctrines who are now making the same declaration and returning to the republican fold and they are not exactly plutocrats either. Douglas county can boast of several hundred just such penitent prodigals, and we welcome them back to the fold.

Democratic papers make much of the amazing rumor that there is to be a new republican party. They are tired of the old one, for a fact.

The anti-imperialistic war cry of the democratic party sounds like a Jew's harp in a brass band.

**OUR PUBLIC SCHOOLS**  
 Term Opens Next Monday, Sept. the 4th.  
 SEVERAL PLEASANT SURPRISES  
 For the Pupils. Four Years High School Course. Diploma Admits Holder to Freshman Class of State University.

The Roseburg public schools will open Monday, September 4th. The directors have prepared several pleasant surprises for the pupils. The unlighty wooden seats in the fourth and fifth grades have been replaced with patent desks, the floors have received a treatment which renders them dustless, and walls and woodwork have been newly kalsomined and painted.

The course of study has been given several alterations which will make it more efficient. The high school course will contain four years work, one year more having been added. This means an opportunity for pupils to do four years advanced work beyond the eighth grade. Credit will be given by the higher schools of the state for all work completed in the high school, and upon completion of the four years course a diploma will be furnished which admits the holder to the freshman class of the state university.

The fact that this course contains all the branches required for state teacher's papers will make the course of great service to teachers. An assistant has been secured for the high school and the ninth and tenth grade will be well attended this year.

Pupils should prepare to attend school from the first day as it will be difficult to regain lost time.

The principal will be at the building on the afternoon of the first day to receive pupils who are entering school for the first time. Pupils for the high school should also be present the first day. Non-resident pupils will be received in any of the grades upon payment of the required tuition.

**Ticket and Platform for 1900.**  
 The New York Mail and Express advocate the following ticket and platform for 1900 and declare it a corker:  
 For president—W. J. Bryan of Nebraska.  
 For vice-president—Edward Atkinson of Massachusetts, if he can get the permission of Emilio Aguinaldo.  
 PLATFORM.  
 Resolved, That the American eagle is a bozzard.  
 Resolved, That we hereby denounce the Parties for not obtaining the consent of the governed.  
 Resolved, That Admiral George Dewey shall be tried by court martial for his discourteous treatment of the Spanish fleet in Manila bay.  
 Resolved, That the American soldiers now operating in the Philippines shall be brought home and slapped into jail for the reckless use of firearms.  
 Resolved, That the man who says Aguinaldo is a treacherous wretch in no gentleman.  
 Resolved, That the present administration has fractured the southeast corner of the declaration of independence and forced the American constitution into innocuous desuetude.  
 Resolved, That we do now take up a collection.  
 This is merely an outline platform, but it fairly represents the principles to which the "anti-imperialists" are committed. As for the ticket suggested above, it is running over with voice and sympathy, and would sweep Dedham, Mass., and the Third ward of Lincoln, Neb., like a prairie fire in August. The new party can't get into the field too soon. The bars are down, the clover is knee high, and the "antis" can cavort and be glad.

Secretary Wilson said on his return to Washington that he did not find an anti-expansionist west of Chicago. He evidently neglected to make our esteemed contemporary a "pleasant call" during his visit to this city. The West especially the Pacific coast, has the strongest motives for favoring expansion. It means a mighty expansion of our commerce; it means great cities, thronging population, fleets of merchant vessels plowing the Pacific ocean, and great increase in the volume of our products and in the demand for them.

Iowa democrats in their state convention reaffirmed the Chicago platform and applauded the Filipino insurgents. The party is hopelessly beaten in that state and its rule is to be as mean as possible.

Democratic papers make much of the amazing rumor that there is to be a new republican party. They are tired of the old one, for a fact.

The anti-imperialistic war cry of the democratic party sounds like a Jew's harp in a brass band.

**Conrad Gejex Shoots Himself.**  
 Conrad Gejex, formerly a resident of Ashland and widely and favorably known here, shot himself in the head Monday afternoon at Dunsuir, the bullet entering the right temple and lodging in the brain.

From all the details known of the sad affair the rash act was undoubtedly caused by temporary insanity. Mr. Gejex was about to embark in business at Dunsuir and had just completed fitting up a store. The first invoice of his new goods had arrived a few days ago. He went to the depot on that afternoon and paid a freight bill of about \$80. While transacting this business he suddenly pressed his temple with his hands as if in distress and said that his "head was all in a whirl." From the office he walked up the railroad track to a shed several yards away, which he entered and fired the probably fatal shot. He was found later with his head resting on his hands in a semi-conscious condition.

Mr. Gejex had no trouble of a financial nature and was in comfortable circumstances; his domestic and social relations were pleasant, and his integrity as a citizen and neighbor was well established.

The unfortunate man has lived in Ashland three years, during which time he had a run as brakeman out of this city. Later he became a conductor on the McCloud River railway, and only resigned that position a few months ago.

Last evening physicians of Red Bluff and Dunsuir made a further examination of the wound and announced that in all probability it would prove fatal in ten hours.

Mr. Gejex who was at McCloud when the shooting occurred, went at once to Dunsuir and has since been at the husband's bedside.—Ashland Tidings.

Mr. Gejex is about 41 years of age, and was well known and highly esteemed in this country, being a son-in-law of Mr. and Mrs. Noah Cornitt, of Riddle. Many regrets are expressed of the sad and unfortunate affair.

**Kellogg Items.**

 The Freyer-Maupin threshing crew - - - over through Dodge Canyon to Kellogg last Friday and stopped at Mr. Norberg's to do some threshing. Their whole outfit is excellent and parties for whom they have threshed say they do first-class work. They certainly made a remarkable trip with their engine and separator over the mountains where one would think it impossible for a traction engine.

The Roseburg district fair which opens tomorrow and continues five days, is one of the annual events that the farmers and every one should take an interest in. It represents largely the very interests which the farmers care most for, in fact there is nothing outside of the amusement features that he is not familiar with, and as for the amusements he should take his boys and girls to enjoy them with him. He can be assured that they will be both entertaining and exciting, providing we are favored with fair weather. There will probably not be a single department at the fair but what will repay you for a day's visit at least and will be worthy the occasion.

The Washington Post gets in real earnest on the question of holding our new possessions, and says: "When did the policy of expansion become un-American? When, where, how have the people condemned it? If we may judge by the press of the country, the verdict in favor of expansion is simply overwhelming, including almost all of the influential papers of both parties, as well as all but two or three of the independent journals. Even the St. Louis Republic, in spite of all its grimaces and gyrations, virtually indorses expansion. It has too much self-respect to fall in with the Atkinsons, Garrisons, Goldins and Boutwells.

Of course, somebody will be magnanimous enough to cut the cable to Spain on Sept. 28th when Admiral Dewey steams into the harbor at New York.

The secret of courage and dash in war or peace—is good blood; pure rich blood full of oxygen and vitality. Dr. Pierce's Golden Medical Discovery insures perfect digestion and an active liver, and thereby
