SEPTEMBER 21, 1899.

Almost every mail this week has brought us new cash subscribers to the PLAINDALEER. Mr. E. C. Creek and Gardner being among the principal contributors. In the meantime, J. L. Stratford, our bustling business manager, has been kept busy recording the names of new subscribers in the hope of down the Umpqua river. The PLAINDALEER is enjoying a veritable subscription and advertising boom and ere the close of the year it will have the largest circulation of any newspaper published in Southern Oregon.

Patrons: home institutions, and help build up your own city and country.

The fruit season is here and the market is flooded with choice fruit. Watermelons in abundance.

Massachusetts leads all the states in furnishing soldiers for the Philippines. Edward Atkinson's ability as a recruiting officer deserves a testimonial.

The Washington volunteers evidently do not consider the war a failure nor an unjust cause, eighty members of the gallant First Washington having reenlisted.

It is planned in Washington to land an army on the north coast of Luzon, after the navy has prepared the way, thus attacking Aguinaldo's army in the rear.

Secretary Root is a man who does business and keeps things moving. All the new regulations will be landed at Manila this fall, in time for a hot winter campaign.

There are whisperings in political circles that Elinor Root, secretary of war, is likely to be the administration candidate for the republican nomination for vice president.

Nebraska papers report a large demand for lands in that state. It is quite extraordinary to note how many kinds of property have been visited upon Nebraska by the defeat of Bryan.

Portland wins her fight to have the Thirty-fifth regiment to go aboard transport at that port. The steamer will be fitted out with supplies at San Francisco and come to Portland for the regiment.

Prophets who insisted that the annexation of Hawaii would cause the United States an enormous amount of trouble and expense have to be reminded now that the peaceful and flourishing little islands are still on the map.

Col. Bryan declared in a speech at San Francisco that he did not favor the withdrawal of our troops from the Philippines until a stable government is established. What has our popocratic neighbor to say about this?

The Mite, published at Corvallis, Clatsop, Riddle, editor and manager, came to our table again this morning after a suspension of about one year. It is a four column folio, appears brighter and more new than ever and its liberal advertising patronage insures its success. Long live the Mite and may its editor prosper exceedingly.

The trust discussion promises to revive the tariff question, the democratic alleging that the tariff is the father or mother of trusts. It has cut no figure with the trusts, but the present tariff has brought order out of chaos, prosperity out of disaster, and strength out of weakness. It is to be hoped that there will be no more bootless discussion of this question which has already been settled, but if it must come, let the democracy of the country endure the consequences.

Had Prof. Traver been vested with the authority to employ the subordinate teachers in our public school and exercised this authority to the extent of favorably considering the application of a near relative of the Review's editor for a position in the schools, regardless of the wishes of the school board, this professor might have been spared the dirty thrusts directed at him by the ignoramus. However this childish prattle of the Review really does no harm and it pleases Charlie, who can't help making a donkey of himself.

The Pioneer's Way.
 "The 'anties' have probably forgotten that the American pioneer carried his bible in one hand and his rifle in the other, and that our magnificent domain is the fruit of his expansionist ideas.—Nashville American (dem.)"

THE PUBLIC SCHOOLS VS. THE ROSEBURG REVIEW.

Again last Thursday the Roseburg Review took occasion to make itself ridiculous and the laughing stock of the entire community, by making another contemptible and malicious attack on the principal and directors of our public schools, without provocation, but simply to gratify a personal spite of the editor engendered by the failure of the school board to favorably consider an application of a very near relative of the Review's editor, for a position in the school. He says "Hereafter Roseburg has not considered it necessary to import brains from Myrtle Point, and the necessity for it now exists in the minds of a very small clique, who secured the power they possess by false pretences." Prof. Traver was unanimously elected by the school board to serve a second year as principal of the public schools, so satisfactorily was his first year's services. Hence, it will be seen that the "small clique" referred to, is no less than the school board, which is composed of three of this city's most prominent, highly respected and successful business men, namely: J. F. Barker, Attorney; O. P. Coakley and F. W. Woolley, who were elected to the position they hold practically without opposition, these gentlemen having always been among Mr. Fisher's staunch friends, socially.

These are the gentlemen to whom Mr. Fisher now contemptuously refers as "a very small clique" and who he accuses of a breach of trust and "securing the power they possess by false pretences." What do our thoughtful, intelligent citizens think of this accusation? Is there the remotest belief entertained by any one in this community, that the above mentioned gentlemen ever entered into any agreement with Mr. Fisher prior to their election, or made any pledges or promises they have not fulfilled—that this relative of Mr. Fisher should be given a position in the school, or any similar promise? No, most emphatically, no! However, such an inference might easily be drawn from the insinuations of this freak of humanity, whom a long suffering community has permitted to flourish in its midst.

Relative to the importation of Myrtle Point brains to this city, we think there are several persons who will agree with us, when we say that any kind of brains, not excepting cat brains, would be an improvement to the quality of gray matter now employed on the editorial staff of the Review, and from which emanates the foul effusions contained in its columns from time to time.

CONTRACT LET.
John E. Bays to Grade the Mohawk Railroad.

In a telephone message to the Guard R. A. South, vice-president of the Booth-Kelly Lumber Co., gives the information that Tuesday at San Francisco, Chief Engineer Hood, of the Southern Pacific, let the contract for grading 14 miles of the branch road to the Mohawk to John E. Bays, of Portland, formerly of the firm of Jeffrey & Bays. This contract covers that part of the road from the point where it leaves the S. P. R. to the Mohawk mill site, four miles above Cole's station. The mill site has been named Wendling, after one of the promoters, and application has already been made for a postoffice.

The engineers will commence at once setting the grade stakes, and it is understood Contractor Bays will begin grading on Monday next. Mr. Bays will employ all the men and teams he can secure in this section, bringing the rest of his help and apparatus from Portland.—Eugene Guard

MINES INCORPORATED.
The Helena and Winchester Made Stock Companies.

Articles of incorporation of the Helena Mining Co. No. 2, P. J. Jennings, R. J. Jennings and Charles Brunson, have been filed in the county clerk's office. Capital stock, \$1,000,000; value of each share, \$1; the object and business of the corporation is to own, purchase and sell mining claims in Lane and Douglas counties; principal office, Cottage Grove, Or.

Trustees J. I. Jones, G. U. Snapp and C. H. Jones have filed articles incorporating the Winchester Mining Co., of Douglas county; principal office, Cottage Grove; capital stock, \$50,000 divided into 1,000,000 shares at 5 cents each.—Eugene Guard.

A Trail to Bohemia.

The board of trade met in special session Monday evening for the purpose of discussing the proposition of building a wagon road from this city to the Bohemia mines, and to arrange for an early start of the route.

The meeting which was fairly well attended was called to order by President Sheridan and remarks were made on the subject by Hon. D. S. K. Boice, S. C. Flint, I. F. Rice, J. H. Shupe, G. G. Warner, T. K. Richardson, C. S. Jackson, E. Cheyney and others.

The opinion generally expressed was that a trail should first be constructed and if the route proved a practical one a wagon road would follow in due course of time.

On motion the following committee was appointed to solicit funds for the purpose of opening the trail: D. S. K. Boice, S. C. Flint, I. F. Rice, B. W. Brunk and T. K. Richardson.

The board adjourned subject to the call of the president.

Filipino's Prisoners

WASHINGTON, Sept. 19.—Secretary Root today received a cablegram from General Otis that seemed to indicate a weakening on the part of the insurgents in Luzon. It contained a proffer to deliver the American prisoners who have been here for so many months in the hands of the insurgents, and also sought permission to parley with General Otis. The cablegram was at once taken by Secretary Root over to the cabinet meeting, and formed the main topic for discussion at the beginning of the cabinet session.

Following is the text of the dispatch: "Manila, Sept. 19.—Adjutant-General Washington: General MacArthur reports from Angeles a visit of two insurgent officers with a request for permission to send into our lines the American prisoners and to send to Manila a prominent insurgent general officer for conference. The requested interview was granted, and insurgent officers at Angeles will return north this morning with the information. Otis."

Races at Salem.

Wednesday, as on Saturday, the pace was the attraction of the day. The entries were: Jess Brown's Fatmark, Kirkland's Primrose, Pratt's Spacopps, McDonough's Belle Air, Wentworth's Almora, Rose's Barnacle, Simpson's Alta Norte, and Starkweather's Starkay.

Starkay was a strong favorite. He was seventh in the line, while Spacopps had the pole but he took second at the quarter, which was made in 0:34, Belle Air, a green horse, leading. Starkay made several trials for the lead, but Belle Air only increased her speed, and passed under the wire in 2:14. Starkay was second and Barnacle a poor third.

Victory may be delayed a few days by the ravings of such men as Congressman Lentz, but it is sure to come. In the meantime, let the work of spotting the traitors go bravely on.

To all sick and discouraged People in mind, body or estate. No matter what your ailment or how long you have been ailing. Greeting, Health and Peace.

There are thousands of people all over the world who are sick and utterly discouraged because medicine has failed to cure them. They are craving out lives of torture, having come to the conclusion that there is no hope for them.

But there is hope. There is a positive cure for every form of disease, even those commonly called incurable, as Diabetes, Brights disease, Consumption and Cancer.

That there is an immense power in the mind for the cure of the sick is a truth, which is daily growing stronger to the consciousness of all thinking people. Take for instance "Christian Science." It is more than a fad, it is a rediscovery in part of an old—thousands of years old—ever active and wonderful, but still imperfectly understood Force in Nature.

Still Christian Science as no claim to be called a science (and it may be questioned whether it has any) has a considerable consistent following of the lowly Nazarine) yet it cannot be denied, that Mary Eddy is an Idealist and has found that mind controls matter, and cures are being made, which to all but the initiated, seem almost miraculous.

These cures, perhaps all cures, are effected by changing the vibrations in a patient's mind. The presence of a doctor, who has been accustomed to trust will often change these vibrations and supplant fear with hope. Hope is allied to the will. The will takes its rise out of hope. As soon as the vibrations are changed from doubt and fear to hope, the will begins to gather force and assert itself. When our treatment, mental and Bio-chemical, strikes squarely into the centres of diseased vibration and the patient begins at once to recover.

I claim to have found the means by which Mental (not Christian) Science comes into the aid of a mild and rational therapeutics (largely Bio-Chemical or life chemical) can cure the most serious forms of disease either of mind or body. Even those troubles of Organic character, affecting Brain, lungs, heart, stomach, liver, kidneys, or sex organs, and I propose to prove this to the satisfaction of the afflicted who may call upon me. I will give references and examination. To those who cannot come but who wish me, enclosing stamp I'll send free advice. My permanent P. O. address is Box 825, Portland, Oregon. I shall remain for a week, possibly ten days at the McCallum House, but come at once if you want to know what ails you, and what you must do to get well.

John B. Pilkington, M. D.

DOUGLAS COUNTY PRUNES
Quit Picking Green Prunes, But Have Started up The Evaporators.

"A few days of warm weather have ripened the prunes so rapidly that the pickers were forced to quit picking, says the Riddle correspondent of the Roseburg PLAINDALEER. The above item is going the rounds of the state press, and while a true statement, conveys an erroneous impression. By way of explanation we will say that most of the Italian prune growers in and about Riddle sold their prunes green this season at one cent per pound delivered at the depot, where they were nicely packed for shipment. However, to handle the fruit in this manner and to insure its reaching its destination in good condition, it is necessary that the fruit be picked before it becomes fully ripe. The recent warm weather having hastened the ripening of the prunes, green shipments ceased, but picking continued just the same, the remainder of the fruit being hauled to the various evaporators where it is being converted into a first-class dried product. The prune crop of South Douglas is turning out better than was anticipated though not as heavy a yield as last year, but the quality is equally as good if not better.

Pointed Paragraphs.

The poetically inclined young man of the city who penned the following is entitled to the blue ribbon:
 I met a girl of the
 And gently took her
 I thought I'd pop her
 But didn't; have the SK

Probably the man never lived who wasn't sorry that he wrote a certain letter.

As impragable as is Gibraltar, D. wey captured it with no resistance.

Great hardships prevail in the West. The farmers cannot secure enough hands to gather their big crops.—Baltimore Herald.

The first year of a man's married life he speaks of his wife's darling as an embroidery. What he calls it after that wouldn't look well in this column.

The Dewey day committee on plan and scope is earnestly requested to reserve a good seat for Senator Hoar, where he can command a full view of the ball wagon.

Many of the new autumn hats for the of-door girl, though not designed for evening, call forth the irrelevant and complimentary remark from the small boy: "Shoot the hat."

Last Sunday a brown bear approached within a mile of Eugene, evidently looking for those eastern editors who have had so much to say about Skinner's butte and the game breakfast.

For a few days longer state affairs will have to rest quiet, while the people look with pride upon the prize pumpkin and the curly headed steer and lose their money on the horse that was sure to win at Salem.

The pavilions are not very well filled, not even as well filled as in former years, at the state fair, but the horse races are all right, and there are plenty of show, balloon ascensions, etc. In fact it isn't any more of a state fair than in past years, if as much of a one, but it is a pretty good place to be entertained.—Albany Democrat.

Yellow-Jack.
 WASHINGTON, Sept. 19.—The yellow fever situation at Key West is regarded as very grave. Since the first case was reported three weeks ago, the epidemic has been steadily growing until today there are over 400 cases.

A Tour of Coos County.

EDITOR PLAINDALEER: I have just finished a tour of Coos county, and thought perhaps my friends would be pleased to hear from the coast country.

Dairying, the chief industry, is making rapid progress, and ranches, which a few years ago were barely paying expenses are now under the management of the dairymen yielding a handsome income.

Many separators are in use, thus leaving the milk to be used on the ranch. Again, they realize that a good cow is cheaper than a poor one, and some of the finest herds I have seen in the West are right here in Coos county.

The creameries are a decided success, being fully equipped and well managed by competent men.

Their butter commands the highest market price in San Francisco, and is all that a first class butter can be.

Some of the creameries run the whole year round, while others close down in the fall and do not start up until spring as some of the ranchers are not prepared to feed during the winter months. Though winter milking is coming more and more into vogue.

The lumber interest is also picking up and logging camps are numerous, while very many mill excepting ones in full blast. There are schooners are under course of construction on the bay. One at North Bend, another at Marshfield and a third at Reesek ship yard.

These all speak of the return of prosperity, and a bright future for Coos county.

Such industries give rise to a demand in the vegetable line, and the rancher calmly smiles as his loaded cart floats gently with the tide to a ready market place.

For the hearty welcome and hospitality received in our sister county, I extend to its citizens my most sincere thanks.

MARK C. MCNEELY,
 Missionary S. S. organizer.

Mrs. Alfred Clark, of Cedar Rapids, Iowa, has been the mother of four children. Now she says: "I am about to become a mother again, and I have been troubled with morning sickness and I could not get any relief. I began taking your 'Favorite Prescription' twice a day, a teaspoonful at a time, and I was able to say that I have not had a vomit spell for two mornings. The 'Favorite Prescription' relieves morning sickness and the other discomforts of the period preceding motherhood by purifying the whole system and by strengthening and invigorating the special organs involved. Morning sickness is due to the efforts of nature to remove from the body every bit of impurity which might affect the health of the little one to come. The direct cause of the nausea is an irritation of the nerves of the feminine organism, which have a sympathetic connection with the stomach. The 'Favorite Prescription' goes directly to the seat of the trouble, soothes the irritated nerves and restores the system to normal. It is a safe medicine to take. It contains no alcohol, opium or other dangerous drug. It contains no sugar or syrup. It aids the digestion and is a general system tonic, while it acts directly and strongly on the one special set of organs.

THE HELENA AND WINCHESTER MADE STOCK COMPANIES.

Articles of incorporation of the Helena Mining Co. No. 2, P. J. Jennings, R. J. Jennings and Charles Brunson, have been filed in the county clerk's office. Capital stock, \$1,000,000; value of each share, \$1; the object and business of the corporation is to own, purchase and sell mining claims in Lane and Douglas counties; principal office, Cottage Grove, Or.

Trustees J. I. Jones, G. U. Snapp and C. H. Jones have filed articles incorporating the Winchester Mining Co., of Douglas county; principal office, Cottage Grove; capital stock, \$50,000 divided into 1,000,000 shares at 5 cents each.—Eugene Guard.

A Trail to Bohemia.

The board of trade met in special session Monday evening for the purpose of discussing the proposition of building a wagon road from this city to the Bohemia mines, and to arrange for an early start of the route.

The meeting which was fairly well attended was called to order by President Sheridan and remarks were made on the subject by Hon. D. S. K. Boice, S. C. Flint, I. F. Rice, J. H. Shupe, G. G. Warner, T. K. Richardson, C. S. Jackson, E. Cheyney and others.

Summons.

IN THE CIRCUIT COURT OF THE STATE of Oregon, for the County of Douglas.
 Emma M. Carlisle, Defendant.
 Doree B. Carlisle, Plaintiff.

To Doree B. Carlisle, above named defendant: In the name of the State of Oregon, you are hereby summoned and required to appear and answer the complaint filed against you in the above-entitled court, and cause written answers to the same to be filed in said court, within the time therein specified, and to appear and answer as herein required for said relief demanded in her complaint.

The relief demanded is a decree dissolving the marriage contract existing between plaintiff and defendant, that plaintiff may resume her former name, Emma M. Carlisle, and for full relief.

This summons is published once a week for six consecutive weeks by order of Honorable J. W. Hamilton, judge of the above-entitled court, made August 17, 1899.

Dated August 17, 1899.

J. A. BUCHANAN, attorney for Plaintiff.

Notice.

UNITED STATES LAND OFFICE, Roseburg, Oregon, August 16, 1899.

To whom it may concern:
 Notice is hereby given that the Oregon & California Land Company has filed in this office its statement No. 101, for the purchase of the 26 1/2 of section No. 10, in township No. 35, range No. 3 W. and will offer proof to show that the land sought to be purchased is timber or stone land for agricultural purposes, and to establish his claim to said land before the Register and Receiver of this office at Roseburg, Oregon, on Friday, the 20th day of October, 1899.

He names as witnesses: John H. Hale, Richard Miller, William Hammond, L. C. Brown, all of Grants Pass, Oregon. Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 20th day of October, 1899.
