All hail to "Columbia the Gem of the Ocean."

Sir Thomas Lipton should have chosen the four-leaved clover as a talisman instead of the three-leaved shamrock.

It is strange how severely the yellow interviewer avoids Dewey and Funtun when they reached home and can nail a falsehood on the spot.

The Boers have shed English blood before, but never around the British Empire as thoroughly as on this occasion. There will be a fight to a finish beyond a doubt.

New York evidently exhausted herself in making arrangements for the Dewey reception. Having raised all the wind in sight, the yacht has been compelled to put up with a dead calm.

Dewey's diagnosis of Aguinaldo's case is that he needs a larger dose of war ships. None of the interviewers extracted this idea from Dewey on his way home. But then they never saw him.

The ants are far becoming the ants. Ancient history is made very fast these pushing days, and moes on the back crews quickly when one gets behind the procession.—Salem Statesman.

A Spaniard was arrested in Manila recently for printing and publishing seditious documents. Carl Shurz, Edwin Burrill Smith, and Edward Atkinson, engaged in the same business in Chicago, go spot-free.

The much talked of meeting of the Multnomah county Democrats in Portland, last Friday for the purpose of "promoting harmony" was not called off as per schedule, there not being a quorum in attendance.

Sir Thomas Lipton and his yacht, the Shamrock will have to return to England without the coveted American cup. It was an ill wind for Sir Thomas that came Friday and enabled the Columbia to prove her prowess.

General Lawton is getting to work again on the right flank of the Tagals north of Manila; two captains were killed last week, one from Oregon, the other from Alabama. The North and South stand shoulder to shoulder as the flag is carried forward.—Globe Democrat.

It is not strange that Grover Cleveland is opposed to expansion. He was very much opposed to the annexation of Hawaii, and would much prefer to go fishing than trouble himself with the duties incident to the development of any new territory.—Albany Herald.

Referring to Jerry Simpson's Wichita speech, J. M. Dinmore, who was speaker of the populist house in 1893, wrote to the old soldiers at Topeka a long letter in which he says: "When any man publicly applauds the insurgent forces who have been shooting our Kansas boys, I say boot him on the spot."

Gen. Funston remarks that "the seat of all the trouble at this time is the Filipino junta at Hong Kong." The General will notice after he has been home a few days that the junta has close relations with certain newspapers in this country. Roseburg is accredited with one and it isn't the PLAIND DEALER either.

The going of W. J. Bryan to Kentucky to speak for Goebel has aroused the ire of the anti-Goebel Democrats, and they swear they will not support him for President. They have believed all along that at the last moment Bryan would reconsider his promise to come to Kentucky and interfere in the state campaign.

Another great victory is announced in the Philippines. Gen. O'Byrne has captured a prize at a progressive campaign party at the Palace in Manila—Cottage Grove Leader.

General Otis is carrying on an intelligent and courageous campaign against the Filipino insurgents, and the copperhead press is carrying on an ignorant and cowardly campaign against General Otis. Both campaigns are watched with interest by the American people.

Under the new road law the county courts will at their January terms rearrange the road districts with the county clerk, and every two years thereafter make such changes as shall be deemed necessary. In June there shall be elected supervisors for each district, who shall hold their office for two years. If he refuse to accept the office after being elected he shall be fined \$25. The county court shall fill all vacancies.

THE BOERS ROUTED, ROBBED AND SHOT.

More Particulars About the Battle of Glencoe.

BRITISH SUFFERED HEAVY LOSS.

Boers Also Had Many Killed and Wounded and are Considerably Demoralized.

LONDON, Oct. 21.—The early dispatches regarding yesterday's battle conveyed the impression that the whole affair was over in a couple of hours, the British artillery silencing the Boers guns and infantry, and then simply charging right over the hill. According to latest advice, however, the battle lasted eight hours and nearly seven hours elapsed before the last Boer gun was put out of action.

The Irish loaders and King's rifle men, had advanced to the assault and were shooting their way up the hill, driving the Boers back from shelter, until the final rush of the British carried them to the summit.

A curious fact was that, several times a lull occurred in the firing on both sides, the British infantry apparently taking a breathing space in the stiff climb and the Boers also holding back their fire.

The magnificent practice of the British guns was an immense help, and the success of the assault was greatly due thereto. Once the British bayonets showed on top of Kopp, the Boers retreated, and when, on descending on the other side, they found a British battery and British cavalry outflanking them, the retreat became a rout.

The British guns followed, and, unloading from time to time threw shells into the flying for. Heavy rain began falling during the afternoon, which naturally impeded artillery operations.

It was a queer coincidence that yesterday was the anniversary of a similar feat of British arms in India when the Gordon Highlanders stormed the heights.

The Outlook published a dispatch from Cape Town dated yesterday, alleging the Boers are not likely to make any further considerable offensive movement. The correspondent says: "They are utterly demoralized and the men refuse to take risks."

LONDON, Oct. 21.—In the battle which took place between Glencoe and Dundee yesterday, one colonel, three captains and five British lieutenants were killed, one general, three majors, six captains and nine lieutenants were wounded. General Symons' wounds are considered mortal.

LONDON, Oct. 21.—The war office has announced that in the fighting yesterday between Glencoe and Dundee 21 non-commissioned officers and men were killed and 157 wounded.

The list of officers killed and wounded shows that while the British victory was complete, it was bought at a heavy price. This heavy loss among officers was due to valiant conduct in sticking to the traditions of the British army and refusing to use the cover of which the men availed themselves during the storming of the Boer position.

Among the rank and file, the losses had seven wounded, the artillery one killed and three wounded, the Leicester regiment one wounded, King's rifles 11 killed and 68 wounded, Irish Fusiliers 11 killed and 30 wounded.

The Boers are also said to have suffered a severe loss, not less than 50 being killed and wounded, including several officers.

The "Antis."

In Chicago last week the anti-imperialists, alias the anti-Americans, formally effected their organization, and opened their campaign against the expansion policy of the administration. Of course Carl Schurz was there, and "spoke at great length."

This chronic "anti" would talk for days in two or more languages in opposition to anything that the majority of Americans are for. J. Sterling Morton, who has been trying for months to get a few men to join his party, which has hitherto consisted of himself, was prominent. There were other celebrities, mostly good men, but altogether a lot of men who are in such matters as is now engaging public attention are as impracticable and incapable of wisely advising a great, growing nation like this as our most eminent doctor of divinity would be to handle the flagship of a fleet of war vessels in time of action.

Copper Showing.

Last Saturday Messrs. J. M. Sherwood and Albert Zineker accompanied by G. H. Park of the Vesuvius group went to Yoncalita to inspect a showing of copper formation which has been known for some time on the Applegate property about five miles from that place. Upon their arrival they found an exceedingly good showing of copper, but hardly in sufficient quantity to justify taking hold of it at the present times.—Nugget.

DECISION BY HERMANN.

Regarding Homestead Contests Before the General Land Office.

WASHINGTON, Oct. 21.—Commissioner Binger Hermann, of the general land office, has decided that jurisdiction by the land office is not acquired in homestead contests unless the contest affidavit specifically alleges that the abandonment is not due to military or naval service during the late war with Spain. Those instituting contests in the United States land office will be saved much expense by availing themselves of this decision, as many already before the department have been compelled to recommence their cases.

Pointed Paragraphs.

The most popular piece of music just now is "Columbia, the Gem of the Ocean." The price of mutton is so high that all the recreating societies in the land have been obliged to place extra guards over their goats.

"Have you any Dewey colors?" she asked of the dry goods clerk. The clerk stammered, "I don't know what you mean." "Why, colors that won't run."

Some watermelons are causing a great deal of trouble in the country village of Woodburn down the road. Several boys were caught stealing Mr. Miller's melons when he demanded seven dollars for dropping the matter. It was paid and they had him arrested for concealing a crime. He was acquitted. Then he began having them arrested one at a time for larceny, and the end is not in sight.

Miss Flora Andrus has returned home from Oregon where she has been for several weeks.

Mr. Wiley Miller, David Morgan, and Mr. Edward Morgan's son Eddie arrived here Tuesday from Eastern Oregon.

Miss Ethel Duncan of Boston was the guest of Mrs. H. Seigie the first part of this week.

Mr. Fred Beard has returned home from Marshfield where he has been working for several months.

Mrs. S. Madison and son George of Kellogg returned home a few days since after spending several days visiting friends.

Mr. Harry Seigie is employed by the railroad company. Harry was out to a railroad man now.

President Miller's Report.

President Miller has filed the following report with the state board of horticulture.

"In the country between Cottage Grove and Drain I found severe injury to the February freeze. Many trees are dead and others were dying.

"The southern limit of the freeze was the Calapooa mountains, the worst effects being felt in the northern part of Lane county. Across the mountains trees were not injured, and groves have a fair crop.

Peach and young plum trees were severely injured in the southern part of Lane county, while in the northern part of Douglas county peach trees were found laden with fruit, and prunes and other trees were not damaged.

"Between Drain and Gardiner I found a fair crop of peaches, pears, apples and prunes. The country along the Unquiqua from Elkton to Scottsburg, is especially well adapted to the growing of fruits.

The apple canker and scab were the worst diseases found in that section. The codlin moth has been gaining a foothold since 1896.

What Scrofula is.

Scrofula is a disease as old as antiquity. It has been handed down for generations and is the same today as in early times. It is emphatically a disease of the blood, and the only way to cure it is by purifying the blood. That is just what Hood's Sarsaparilla does in every case where it is given a faithful trial. It eradicates all impurities from the blood, and cures the sores, boils, pimples and all forms of skin disease due to scrofula taints in the blood. Hood's Sarsaparilla has won the grateful praise of vast numbers of people by its grand and complete cures. Don't allow scrofula to develop in your blood. Cure it at once by taking Hood's Sarsaparilla.

It makes no difference how bad the w. and if you use DeWitt's Witch Hazel Salve; it will quickly heal and leave no scar. A. C. MARSTERS & CO.
