### Eggers' Good Luck.

Dr. Darrin's visit in Roseburg has been marked with good results. Not only has he been crowded with patients, but the marvelous results achieved in his treatment by electricity is almost beyond belief. One cure in particular is that of Mr. Eggers' well and favorably known, whose card we publish below.

The art of curing disease by electricity can be classed with the other discoveries of the day, and who knows but what all diseases and ills of the flesh will be conquered by this subtle force. It is a theme for study and reflection.

DILLARD, Or., Jan., 24, 1900.

EDITOR PLAINEALER: After reading the notice of the arrival in Roseburg, of the famous Dr. Darrin, I wish to make the following statement.

I suffered for over fifteen years with catarrh and for over five years my right ear had discharged more or less every day, and I had got so deaf that I could not hear one word in ten of ordinary conversation. The discharge from my ear and my almost constant hacking and spitting had become very annoying to my family, and so much annoyance to myself that I many times wished myself dead. I tried many catarrh remedies, but I constantly got worse. I visited Dr. Darrin at Grants Pass, Or., during the summer of 1896, and his first application stopped the discharge from my ear, and his electric treatment restored my hearing. I would not be in the condition that I was in before visiting Dr. Darrin for one thousand dollars, and would advise those suffering as I was, to visit the doctor at once and be cured. I reside with my brother-in-law, F. M. Beard, when in Roseburg.

J. H. EGGER.

Dr. Darrin will remain until February 13, and can be consulted at his office at the McClallen House, Roseburg, from 10 a. m. to 8 p. m. daily; Sundays 11 a. m. to 3 p. m. Charge low and reasonable according to circumstances and ability to pay. He gives free and confidential examinations to all at the office of eye, ear, nose, throat, catarrh and deafness, as well as acute, chronic, private and nervous diseases of whatever nature, if curable; no cases taken if not. Out of town patients are treated with unfailing success through correspondence; see visit desirable, but not necessary. Write for symptom blank and circular. Letters of inquiry promptly answered.
