ROSEBURG, OREGON, MONDAY, FEBRUARY 26, 1900.

No. 16

EXPANSION STRONG.

Congressman Barnham States California's Position.

NATIONAL GROWTH IS POPULAR

Contractors are Enemies of American Commercial Progress and World's Civilization.

WASHINGTON, Feb. 16.—In California, which I have the honor in part to represent in the lower house of congress, there is no longer any question about expansion. We recognize the fact that we have already expanded. For temporary party success there may be some who would advocate contraction of territory and the hauling down of the flag from the Philippine islands. But I think if the question were now submitted to a vote in California, whether we should give up the islands or keep them, 40,000 majority would support the proposition that the flag shall float over those islands forever.

The Philippines were acquired in precisely the same manner as the Louisiana territory was acquired—by treaty. Monroe and Livingston were our commissioners to Paris, and agreed to pay \$15,000,000 for Louisiana. Thomas Jefferson was president, and sent the treaty to the senate. The senate ratified it, and the congress of the United States, the house and the senate, approved the treaty by appropriating the \$15,000,000 to pay for territory, and the president approved the act.

In precisely the same manner we acquired the territory out of a part of which the state of California was carved—as a result of the war with the Spaniards (Mexico), a treaty was made and \$15,000,000 paid. The treaty was ratified by the senate, approved by congress in appropriating the money, and the act was signed by President Polk. In neither of these cases did the government ask or obtain the consent of the people of Louisiana or California to the cession of the territory. If we have violated the Declaration of Independence in acquiring the Philippine islands, it was violated in acquiring Louisiana and California. But did Jefferson, who wrote the Declaration violate it in acquiring Louisiana? Are we now violating it? What does "consent of the governed" mean? It does not mean the consent of all the people. No body ever thought so.

The unnaturalized foreign-born citizens of the United States give no consent, they have no vote, they are not consulted about the form of government which we give them, regardless of the amount of property they may have, or the amount of brains they may possess. So with every young man in the United States under the age of 21 years, perfectly regardless of his brains or property, we tax him and compel obedience to such laws as we see fit to give him. So also practically in the case with every woman in the United States—she has no vote. Her consent is not asked about the form of government under which she is compelled to live; and that, too, regardless of the brains she may have or the property she may possess.

We tax her as we please and give her no representation nor consult her as to the form of government under which she would like to live. In other words, out of the 75,000,000 of people in the United States, only 14,000,000 vote. Over 60,000,000 of the people of the United States give no consent, are not asked for their consent, do not vote, and take no part in the affairs of this government.

And yet our democratic friends say that because the administration is trying to preserve order and suppress insurrection in the Philippines, we are violating the Declaration of Independence. Was Jefferson violating the declaration when he was suppressing the outbreaks of the Indians in Louisiana?

Now, what is the condition in the Philippines? There are 60 different tribes speaking 60 different dialects, and only a part of one of these tribes is in rebellion against this country. The other tribes are in a condition of submission and peace and only too anxious to have the protection of this government.

But our friends on the other side are agitating themselves into a state of confusion over the question of what kind of government it is intended to give the people of the Philippine islands. What kind of government? The flag which floats over them guarantees the kind of government which shall be given them.

A government of civil and religious liberty—the right to life, liberty and the pursuit of happiness. They are, as is every citizen of this Union, equal before the law—from the lowest to the highest. Each is secure in his personal liberty. He can acquire, possess and enjoy property. He can worship God according to the dictates of his own conscience.

As to what form of government shall be given those people, I only have to say that that question will be met by the wisdom of the present or future congresses. I know the present and past of the country is grand and glorious. I have perfect faith in the fact that the future will be grander and more glorious.

Whether the form of government to be given to the Philippine people shall be like that of the people of the Indian territory, or of Alaska, Hawaii, Arizona or the District of Columbia, or like that of our states, the wisdom of future congresses will determine. We have now within the territory of this country every form of government known to human laws.

The Indian territory practically has none. Alaska is but one step, if any, better. Neither has representation. The people there are compelled without their consent to live under such laws as

NICARAGUA ANNEXATION

People of the Little Republic Said to Favor It.

WOULD ACCEPT AN OFFER

But it Must Come Directly From Our Government—Easy Way Out of Confusion.

CHICAGO, Feb. 23.—Discussing the pending Nicaragua Canal treaty, L. C. Cooley, the well-known engineer said today that perhaps the easiest way out of the confusion would be for the United States to annex Nicaragua. Not long ago Mr. Cooley visited Nicaragua as a member of a contracting syndicate, to investigate the feasibility of the Nicaragua Canal route. During his stay he talked with all the high officials of the Nicaraguan Government. Alluding to his observations in Nicaragua, he said:

"The impression I acquired while in Nicaragua was that the people of all classes, including the highest officials, were ready and anxious for annexation to the United States. It might be asked if such is the condition of public sentiment in Nicaragua why it is that the country does not propose annexation to the United States. I asked this question of a high official of the Nicaraguan Government, and was answered that there were so many rivalries and conflicting interests that if the adherent of any one faction proposed annexation, all the other elements would immediately pounce upon him and try to make it appear that he was trying to sell the country out. Any proposal by an official of the Nicaraguan Government looking toward annexation to the United States would probably be utilized to begin a revolution."

"A high official of the Nicaraguan Government asked me what the Government of the United States would expect in the way of a right of way. I told him that we would expect to have a right of way under United States control. He remarked that he believed a proposition to annex the entire country of Nicaragua would not be unpopular, and that it would be accepted as readily as the proposition to Americanize a small portion of the country through which the canal might pass."

"The same high official whom I have quoted above asked me what kind of labor would be brought into Nicaragua to construct the canal. I told him that undoubtedly any treaty that would be made with the United States in regard to the matter would be observed, and that I had no reason to believe that the government of the United States would be in any way dissatisfied by the introduction of any particular kind of labor, especially if it was against the accepted policy of the Nicaraguan Government. I said in addition that the chances were that 10,000 white laborers would come into the country to build the canal, and if they remained they would bring others, and that together they would Americanize the country if the Nicaraguans were not careful."

To this, the rejoinder was that such a tendency would be welcomed by all the people, as it was recognized that such an infusion of Americans into Nicaragua would insure immunity from revolution.

"I took measures to confirm the statement made by the official with whom I conversed, and found that he had in no degree over-estimated the sentiment among the people. I was also convinced that to be popular the proposition of annexation should emanate from the United States government, and not from any Nicaraguan official."

Four boys, ranging in age from 15 to 17 years, are working out a five days' sentence for vagrancy in Eugene. They claimed to hail from San Francisco, but letters discovered while searching them proved beyond a doubt that Albany was their home. They are cleaning crosswalks.

A HELPLESS CHILD. A weak and puffy child is almost as much abandoned to its fate as if it were left alone on a chimney-top. It is isolated from the healthy enjoyments of its little life-longings. It cannot partake either of their play or their sturdy work and progress in the world; its whole life is embittered by incapacity and weakness.

Any woman who expects to become a mother ought to know what Dr. Pierce's Favorite Prescription will do both for her own health and safety during her time of trial and also to insure her in bequeathing a fair measure of health and strength to the prospective little one.

Some months before my baby came I found myself in rapidly falling health," writes Mrs. W. J. Clark of Hill Dale Farm, Ohio. "I was growing perceptibly weaker every day and suffered much sharp pain at times. I felt that something must be done. I sought your advice and received a prompt reply. I followed your directions and took twelve bottles of Dr. Pierce's Favorite Prescription, and also followed your instructions. I began to improve slowly, but my health became excellent, and I could do all my own work. I have a good sized family and am well and happy."

There never has been a remedy in the history of medicine that has done what this marvelous "Favorite Prescription" has accomplished for weak, ailing women.

It is an insult to your intelligence for a dealer to attempt to palm off upon you a substitute for this world-famous medicine. You know what you want. It is his business to send *that* kind of medicine. When he thinks he is thinking of the larger profit he'll make—not of your welfare.

DRAIN ITEMS.

(Continued.)

STEWART BEAN, AN OLD PIONEER OF 1844, WAS IN TOWN YESTERDAY.

Wm. Wis, one of our substantial citizens, was doing business in Drain today. Mrs. C. B. Eri and children of Halsey, are visiting with relatives and friends in this city.

John Ostertag is much improved in health, but still confined to his room with rheumatism.

W. H. Gray, of Coonstock, was in the city Monday. Mr. Gray has our thanks for cash for subscription renewal.

Mrs. J. Wells and Miss Minnie Bell came up from Elkton Tuesday and went to Portland on the overland last night.

James D. McGill was in Drain Feb. 20, in the interest of the Rio Grande Company purchasing anything in the way of timber.

P. L. Benjamin, an S. P. employee, of Yoncalla, was doing business in this city Saturday. This office acknowledged a pleasant call.

Mrs. S. B. Strawn and baby arrived on Sunday evening's express from Eugene, and are visiting Mrs. Strawn's parents, Mr. and Mrs. L. J. Hyton.

There was a movement on foot this morning to connect the town by telephone—a good idea. Why should Drain be behind any other town in Oregon?

W. D. Williams, who has been attending the C. O. S. N. S., at this place the past few months left for his home Monday. Mr. Williams made many friends while here, who regret his leaving.

A. L. Moony, merchant of Drain, is moving his stock of merchandise into the building formerly occupied by J. A. Black.

B. B. Chandler, of Gardiner, came up yesterday and met his wife, who has been at Eugene under the doctor's care. She is much improved in health.

Mrs. J. L. Cowan went out to Scotts Valley, where her daughter, May is teaching, today. Miss Cowan will give an entertainment tomorrow, in honor of Washington's birthday.

Marion Allen, and family of Yoncalla have recently moved to Hayhurst, for the benefit of Mr. Allen's health. He has been suffering with rheumatism for the past year. We wish him a speedy recovery.

Arthur Austin, Frank Study, Charles Peters, John Scallin, Walt Austin and John Smith registered at the Commercial hotel last night. They are from Portland, on their way to Marshfield and Smith River, looking after timber. A great many have been in these parts lately.

Thos. Bledsoe, of the firm of Perkins & Bledsoe, one day last week went to Oakland and purchased of Jas. Cronch one of the best draught teams in this county. This team is to be used, in connection with other teams, to supply the mill with logs for their rapidly increasing business.

A reception was given Monday evening, at the residence of Mr. and Mrs. C. D. Drain, in honor of Mr. and Mrs. J. T. Redding and family of Nebraska. Mr. Redding and children departed for Washington where they will visit relatives before returning East. Mrs. Redding is a niece of Levi Kent. Those present were: Mr. and Mrs. J. T. Redding and children; Mr. and Mrs. C. D. Drain, Rollo, Mada and Alta Drain; Levi Kent, Mr. and Mrs. Frank Kent and two children, Mr. and Mrs. Walter Kent and baby of Cottage Grove, Mrs. S. R. Lane, Mrs. Dr. Kaykendall, Mr. and Mrs. Ira Winiberly and family, Albert Kent.

County Treasurer Buchanan last week notified \$2500 to the State treasurer, on account of State taxes for Benton county. This was the first payment of State tax received by the Treasurer for the current year.

Two steel bridges will be constructed along the route of the Springfield & McHawk railroad branch, one across the McKenzie, the other spanning the McHawk near Matt Spore's farm.

County Clerk Wherity, of Clatsop county, received notification that the survey of Township 6 south range 7 east, has been accepted and the land will be open for entry after April 1.

It will be some weeks yet before the actual work of putting in Walla Walla's new sewer system will begin, and the Union advises laborers not to go there until the work is ready for them.

The outlook for the woolscouring proposition is rather discouraging at present, but it is to be hoped the committee will not become discouraged, says The Dalles Times-Mountaineer. It is the one thing that will start business booming in The Dalles. When it has been so nearly secured it would be folly to allow it to drop.

The young men of Jefferson have organized a brass band of 16 pieces, and are all provided with uniforms.

Jackson Street, **ZIGLER'S GROCERY.** Phone 253.

THE ORDINARY SLEEPER.

A New Feature in Western Travel.

The Pullman Company now operates two grades of sleeping cars via the Rio Grande Western Railway. The ordinary sleepers are entirely new, and the berths both upper and lower, are fitted up complete with mattresses, blankets, sheets, pillows, curtains, etc., with stoves arranged for making tea, coffee, etc., requiring nothing to be furnished by passengers. Uniformed Pullman porters are in charge of the cars, who are required to keep them in good order and attend to the wants and comforts of passengers. The cars are very handsome and comfortable, and while not so elegant, are just as comfortable as standard or palace sleepers. Both first and second-class passengers are permitted to occupy these cars on payment of the Pullman berth rates, which are less than half of the rates charged in the regular Pullman palace sleeping cars.

The ordinary sleepers are carried daily on trains via Rio Grande Western Railway between Denver and San Francisco and Portland. On five days in each week the sleepers are run through between Los Angeles and San Francisco, or Portland and Denver, Omaha, Chicago and Boston.

For additional details write for copy of folder to J. D. Mansfield, General Agent, 253 Washington St., Portland, or Geo. W. Heinz, General Passenger Agent, Salt Lake City.
