Quite a number of our people went to the city to hear Mr. Bryan's speech, and of course the democrats think it was alright, but the republicans talk different. They say that he gave the "faults" but no cure. A democrat was asked "Why did he not tell how they would do or did do, instead of making McKinley his subject?" "Why," said a republican, "he didn't do anything that's why."

Mr. A. A. Mathews died at his home, in Flournoy Valley, after a lingering illness, Sunday, at 5 a. m. Grandpa Mathews was 77 years old. He came to this country from the state of Vermont, many years ago. His death marks the close of another pioneer life. He united with the Baptist church when 17 years old, and has ever been active and conscientious, liberal in Christian character, faithful and benevolent in the cause of humanity. Attended by a large concourse of sorrowing relatives and friends he was laid to rest in the Looking Glass cemetery, Monday at 1 p. m. The services were conducted by Rev. Miller, of Dillard.

Good News From Scottsburg.

Mr. Editor: I am requested to inform our republican friends that they have all reason to be hopeful for success in this part of the county, as many of the pops have refused to register and the republicans are coming in to a man.

There are also several pops leaving the place and republicans coming in and good healthy ones at that. A new one came to gladden the hearts of Mr. and Mrs. Fred Weatherly on the 3rd of April, weighing 10 pounds. Good for you, Fred. That is what we need.

Democratic Monopoly.

The following is an expression of a prominent citizen of South Douglas, relative to a Democratic trust recently inaugurated in that section of the county.

GLENDALÉ, Or., April 10, 1900.

The Democratic primaries held at Glendale precinct proved to be decidedly "Oriental" in many respects. The first tendency being such a preference for their "cousins," in distributing the offices to be filled in this locality, and it seems really unfortunate that there was not offices to go around the whole set of relatives. One of the family for justice of the peace, another for road supervisor, and all of the delegates instructed to nominate another member of the same clan of relatives for sheriff. The voters of this precinct who object to Eastern monopolies should consider well this tendency to "monopolize" that the foregoing incidents indicate. X. X.

THE REAL IMPERIALISTS.

In an article written since returning from the Philippines Gen. Wheeler remarks that Aguinaldo was fighting for a great prize and "had he won he would have been a powerful emperor, a mighty dictator." The true imperialistic movement is located by this statement. Its head was Aguinaldo. The government he intended to form would have been a despotism and forced upon fifty unwilling tribes. His only schooling was in Spanish forms of government. He would have had a state church. His edicts would have been supreme. Large accumulations of products had been gathered by his agents at various ports to fill his treasury.

Spanish prisoners were held for ransom. Rates of taxation would have depended on a stroke of his pen, and his method of collection is with a file of soldiers. Gen. Wheeler has seen the islands and studied the situation for himself. He believes that Aguinaldo would have been an Oriental dictator, an emperor.

Instead of pursuing a course of imperialism the United States has struck down a Malay imperialistic conspiracy. Yet a large portion of the democratic party favors the withdrawal of this country from the Philippines and the transfer of the reins of government to Aguinaldo and the Tagals.

There is not the slightest evidence that the Tagals would or could form a free government, or that they would consent to be instructed or "protected" the moment the American flag was pulled down and the last of our troops sailed away. Not one of the Tazal leaders ever lived in a republic or was trained in republican ideas. They have played
