An Expensive Salute.

FOREST GROVE, Or., April 13.—Deputy Postmaster C. B. Stokes, lost 103 chickens in his incubator here recently, valued at \$20, and has just discovered that their death resulted from the jar occasioned by the firing of three dynamite salutes near his residence.

[Stokes was a gold democrat, and as these salutes were fired in honor of Bryan's visit they will probably land him clear over in the republican fold.]

Lincoln's Car.

In an old scrap pile of the Union Pacific Railroad yards in Omaha, is the iron-clad car which Abraham Lincoln designed and used as his traveling car during the civil war. In this coach amid sable decorations and trappings of grief, the body of the martyred President was brought to Springfield, Ill., for burial. It is one of the most notable historic relics, and yet for years has lain battered and disused in a mass of rubbish.

Not long ago, when Booker T. Washington was in Omaha, he heard of the old car and went down to the yards to look it over. His visit resulted in a movement to resurrect the old Lincoln car and preserve it as a relic of the closing chapter of the career of the great emancipator.—Gervais Star.
