REGULAR PEOPLE'S PARTY

COLUMN.

Edited by D. P. Fistien.

This column has been scened and is paid, for by the Secular People's Party and the manage-ment of this paper is in newless responsible for the matter appearing under this head.

The matter that will appear in this co'umn from time to time will be devoted to the populat cause, and I shall endeayor to do the best I can to promulgate that doctrine and inculcate the principles of the people's party to the end that we may cast of the incubus that is now weighing us down and tramping us into the earth, and spring again to Roseburg, the front, our banner flying in the breeze, our motto "Justice to All, Special Privileges to None." I wish to say here that I am not a republican no matter what is said, and I am not a democrat no matter what may be said. I am of the people and for the people and hops to accomplish my ends through the people's party. I am not a candidate for any office. I have never asked to be a candidate and never will. I realize that a set of variets have now got control of the populist organization in this county. state and nation. I realize that unless we show these fellow a thing or two, that we must less our party organization and again be absorbed by the old parties, thus wasting our work and losing our identity. Knowing this, it is but natural that I attack and expose the men, means and measures that have been omployed to murder the people's party. There is but one way to do this, and that is the way I now employ and hope to receive the assistance of all well meaning people's party men (no fusionists need upply) to the end that we may keep our organization, the principles adopted at the Omaha convention and that have been reaffirmed at every people's party convention since (not fusion) shall not be sacrificed on account of a few pairry old sore had not the "Fisher" willfully office seekers who would to obtain office and maticiously tried to bring contempt sacrifice their chances of Heaven.

to any other party. We are no doubt some of them are perfectly honest in their views and therefore entitled to respect. But the two or three men who are very active in Roseburg are simply chronic office-seekers and office-holders who were piqued because of the refusal of the refusal of the union party to recogniza their alleged claims to office holding. Now they are running over the county on reputatioan money, and at the bequest of republican managers, seeking to defeat the union cominees and principles from purely personal and mercenary motives. Such men have very little influence."-Rosenerg Review.

I suppose the "Fisher" refers to, and makes a villianous attempt to cast a stigma upon Mr. H. J. Wilson, who was unjustly and harshly turned down by the democrats for county commissioner after the resignation of Mr. Byron (populist.) Since the "Fisher" has purposely attacked earnest and conscientions populist citizens, I will ask their indulgence for a few minutes that this matter may February, 1900, for such attorney's fees be properly and truthfully explained and as the court shall adjudge reasonable the fact ascertained as to who was the 'union' party that turned Mr. Wilson following described attached real propdown. As the most of you know Mr. Wilson is an earnest, hard working populist and a man well fitted and qualified to fill the position to which he aspired and of which he was well deserving. Mr. Wilson, favored his appointment. But Judge Lyone, a democrat, who owes his election to the populists and, presumably with the consent and direction of the "Fieber" and other leading democrats, arbitrarily ignored Mr. Wilson's petition and the wishes of the people whose names appeared thereon, and ignoring the two parties, coliberately turned down a good substantial citizen and an earnes!, sincere populist who is well fitted for the place, This explains why a successor has not been app inted to Mr. Byron.
