SHOULD DOWN ANARCHY.

Governors Discuss the Question. Too Much Freedom in America.

SALEM, Sept. 10.—The New York World sent the following telegram to Governor Geer yesterday:

"Governor Voorhees, of New Jersey, declares the time has come to call a halt to Anarchy in this country, and says the next Legislature will enact a law by which participants in any conspiracy in New Jersey that results directly or indirectly in assassination of any ruler of the world over, or murder any person in or out of New Jersey, will be treated as accessories before the fact on the charge of murder. Will you kindly wire the World your views on the subject?"

Governor Geer's answer was as follows: "If the next Legislature of New Jersey will fulfill the promise of Governor Voorhees, it will cause rejoicing in the heart of every loyal American. The permission of such meetings as that held in Paterson, that state, which celebrated the anniversary of the day of King Hamber's murder, which it was boastfully said, included a plot to assassinate President McKinley, was a disgrace, not only to that state, but to the entire country. Vigorous legislation, both state and national, should be enacted prohibiting the assembling of public or private meetings of men who declare that their object is the commission of murder in high places. There is too much freedom in this country in certain directions. When the most degraded wretch that ever crawled the earth has the privilege of meeting the Chief Magistrate of the country in person on perfect equality with every other citizen, and is in turn treated as well as the highest dignitary, and will show his utter contempt for the freedom he has by committing murder with a concealed weapon, the class to which he belongs and whose agent he is should be suppressed by the enactment and enforcement of a law that will be effective and final. Since the Anarchist has no respect for the Government and proves it, the Government should have no respect for him, and should prove it. As much as anything else, we need a Congress that is not afraid to modify our constitutional laws in the interests of American citizenship. It is all right to talk about 'an asylum for the oppressed,' but what we need more are penitentiaries and gallows for Anarchist murderers and their abettors."

GIL NOTES.

(Ashland Tidings.)

That the wide publicity given the asphalt and petroleum indications and resources of the Ashland district is attracting attention to the locality is emphasized by the fact that one of the largest asphalt companies in the country began to investigate the field during the past few days—"kickers" to the contrary notwithstanding.

The drilling plant of the Southern Oregon Oil Co., on the Allford place, east of town, has been making most satisfactory progress during the past few days. It has perforated the strata of thick blue clay it had been working in and is now going through blue shale. Operations were suspended for a few hours yesterday in order to take time to lower the size of the driving wheel so as to get a greater purchase. The machine is very favorably impressed with what he has seen. He has had much experience in the oil region of Pennsylvania and is well posted on the subject of petroleum. He believes that the indications for striking oil on the Allford place appear most favorable for he finds there very many of the characteristics that are present in the California fields. The bitumen mixed with adobe, the lava overflow of sandstones are there plentifully. He finds the company's plant a thoroughly up-to-date one and is altogether most favorably impressed with the progress they have made in the work of drilling.

ANARCHIST EMMA GOLDMAN ARRESTED.

CHICAGO, Sept. 10.—Emma Goldman was arrested here today for conspiring to assassinate the President. The high priestess of anarchism was taken in custody by detectives whom she tried to throw off the scent by denying her identity. She said her name was Lena Larson, and imitated Swedish dialect, but when an officer spoke to her in Swedish she did not know the tongue and was forced to admit her identity. She denied complicity in plot when questioned by chief of police, and said she only had a slight acquaintance with Leon Czolgyz, the assassin.

Miss Goldman will be turned over to the Buffalo authorities, together with several other noted anarchists.

ASSAULT ON MCKINLEY AIDS MONARCHY.

LONDON, Sept. 10.—Buffalo remains the supreme center of interest for England and Europe as the scene of a crime directed against all principles of government and the enlightened progress of humanity. Anarchy demonstrates its own utter helplessness when the only effect of its irresponsible vagaries is to draw the governments of Christendom together for their own protection and to convert the victim of its murderous impulses into a world's hero and martyr. America, envied for its unparalleled prosperity and menaced with anti-tariff leagues on the Continent, is suddenly overwhelmed with a spontaneous outburst of European sympathy and good feeling, because a President identified with protection and the Monroe doctrine is shot down at a democratic function.

Ironical as this result may appear to ill-balanced anarchists it is matched by a strange sequence of the Buffalo outrage. Monarchy, instead of being weakened by the attack on the head of the great republic, is strengthened. The number of assassinations of monarchs and presidents is reckoned and compared and Kings are congratulated by European journals upon being exposed to fewer risks than democratic rulers. The Czar may safely meet the German Emperor and Edward VII, but extraordinary precautions must be taken to protect him in France. This is the reasoning employed by the leading writers, and the conclusion may be inferred that monarchy is a safer form of government than a democratic republic, since Kings and Emperors are protected by etiquette and are not easily approached, whereas Presidents must remain in daily touch with the people and be liable to greater danger of assassination. The results hardly come within range of the socialist propaganda.

LATEST NEWS.

President Out of Danger. The Notorious Anarchist Emma Goldman Arrested.

MILBURN HOUSE, BUFFALO, Sept. 10.—The President will live, but will probably carry the bullet of the would-be assassin with him to the grave. This is the expressed opinion of Dr. McBurney, of New York, in a statement to a representative of the Associated Press after the consultation of the physicians this morning. He announced that the President has passed the danger point, and now only the possibility of complications remains. He also announced that unless the bullet embedded in the muscles of the back causes trouble, there will be no necessity to extract it. In his opinion it will not even be located with the X-ray. The only use of the X-ray would be to satisfy curiosity.

PLANNING DAY OF NATIONAL THANKSGIVING.

The exposition managers are planning a day of thanksgiving, not alone for the exposition, but one in which the whole country could join. It is to be given the aspect of a national day of rejoicing. They are arranging that on a certain day the bells of all the cities in the United States be set ringing, and that the rejoicing be heralded with the tooting of whistles and the booming of cannon.

The members of the Cabinet, Senator Hanna, General Grosvenor (who only arrived from Ohio this morning), and all the distinguished friends of the President who have arrived here to await the issue of the attempt upon his life, hurried to the Milburn residence to learn the particulars and join in general jubilation. For hours carriages and automobiles streamed up Delaware avenue and down town the people gathered in crowds at the bulletin boards and gave vent to their feelings in rejoicing, and at the exposition thousands of visitors who read the bulletins, burst into cheers.

ANOTHER HOLD-UP.

ASHLAND, Sept. 10.—Word reaches here from Klamath Falls that the east-bound stage between that point and Lakeview, containing considerable treasure in the express box and mails and three lady passengers was unsuccessfully held up Saturday night. The masked highwayman commanded the driver to halt at the same time leveling his gun; but the driver instead, whipped his horses and made
