ROSEBURG, Ore., Sept. 30.—Tonight and Tuesday fair; light frost tonight. THOS. GIBSON, Observer.

Quite a large and very appreciative audience greeted Dr. Thos. A. Boyer at the opera house Thursday evening and listened attentively to his lecture on the subject, "What time is it and where are we." The lecture proved a genuine oratorical treat, fairly sparkling with wit and humor and with highly instructive and logical. Dr. Boyer is one of the most finished orators on the coast and for two hours held the closest attention of his audience. This was the first of a series of five lectures to be delivered by the California lecture bureau in this city by the very ablest and best material on America's lecture platform today. The next lecture will be delivered about Oct. 9, 1901, by Prof. J. Hudson, whose subject is, "The Golden Age of Oregon." Never has the city been visited by such rare talent before and everyone should avail themselves of the opportunity to hear this splendid course of lectures, any one of which is worth the price charged for the full series. Get your ticket of J. A. Beckman.

It will be of interest to the farmers of this county to learn that the New Era Flour Mills, of Roseburg have just installed a fine new Barley Rolls machine of large capacity and that the mills are now prepared to manufacture a fine dust less feed from your barley while you wait and are even better equipped for turning out a superior quality of flour and feed than ever before. Bring in your grain and they will do the rest. If Miss Della Moore, a former compositor in the Plaindealer office very kindly remembered the office force with a fine treat last Friday in the shape of two very large and luscious watermelons grown in the garden at her home in the eastern suburbs of the city. Miss Moore will please accept the thanks of the entire force for her kind remembrance.

Mrs. J. C. Hutchinson has just received an elegant and up-to-date line of millinery, consisting of hats and trimmings, ribbons, etc., and would be pleased to show these goods to ladies for the latest in stylish headwear. Corner Main and Washington streets. Hats for sale at Krue & Newland's.

Carl Jens, a butcher boy in the employ of Wm. Messel, at Redding, Cal., invested \$17.50 in Texas oil stock at 10 cents a share. The company has struck a gusher in the Beaumont district and the price of shares advanced to \$30. Young Jens can now realize \$5250.00 on his small investment. He has planned a trip to his home in Europe as a consequence of this fortunate strike. Nick G. Jewell, a young marble man, also of Redding, has struck it rich. When oil was found in Western Utah last fall Jewell remembered a tract of land in that vicinity to which he was attracted years ago by curious surface formations. He immediately went to Utah and located 200 claims. Some months ago oil was struck on adjacent land. Then Jewell let in a few friends and formed a company and sold stock enough to purchase and operate a drilling outfit. He has just received word that oil has been struck. The well flows 200 barrels per day. Jewell owns a large percentage of all the stock, and will realize a large fortune.

It is an old axiom that "bread is the staff of life" but this depends somewhat on its quality. The fine cream and home made bread made at J. Sliever's bakery on Jackson street near Cass never fails to please. A nice variety of pastries also kept constantly on hand.

The Ashland Tidings save: To vilify a man during his life time and wear mourning ostentatiously for him after his death is both cowardly and hypocritical. Yet that is what the three malicious Hearst organs have been doing. Day after day and month after month the columns of San Francisco "Examiner" have reeked with the grossest abuse of President McKinley, and its last page has been the place for most brutal cartoons reviling President McKinley under the head of "Willie and his Papa." They were continued almost up to the very day of the assassination. Since then the same space has been filled several times with full page black-faced type lamenting the loss of the President in crocodile tears. The "Examiner" has well earned the name fastened on it by one of its contemporaries, the "Anarch of the Ladies."

Try Mrs. Comstock's bread. Seven large loaves for \$2.00. Delivered to any place in the city if desired.

The dining car Yoncalla, brought in on the north bound overland last night and sidetracked to wait for the south bound overland this morning, to which it was attached and taken south again, was robbed during the time it stood on the sidetrack here. The conductor and porter were sleeping in the car, entrance to which was gained through the rear door. The robbers then pried from the side of the car the iron cash box, containing about \$400 cash and the conductor's watch and chain, took it outside and removed the contents, and then threw it away. No clue was obtainable, although Sheriff Parrott and Marshal Dillard worked the remainder of the night and all day today upon the case.

In addition there will be more than 40 scenes from 'In His Steps,' thrown on the screen, besides many other interesting events." To be given at the opera house, Roseburg, Oct. 7th.

A new law makes the next November term of county court the time for fixing the boundary lines of election precincts. The January term before an election was the time by the old law. The limits must be fixed by the court so as to conform to ward and road district boundaries. It is said also provided that no election precinct will have more than 300 voters. Petitions to the court for desired changes must be brought in at the coming November term or precinct limits will stand for two years as at present arranged.

On Wednesday morning, Clyde Lee, son of T. P. Lee, who resides a few miles west of town was found lying by the road near home in an unconscious state, while the horse he had been riding came racing to the barn. In the fall he had struck on a jagged rock, making a frightful wound on the side and fracturing the skull. His condition is almost hopeless.—Observer.
