LATE NEWS SUMMARY

Important Events of the Past Few Days.

STATE, GENERAL AND FOREIGN.

Cream of the Dispatches Dished Up in Condensed Form for the Busy Reader.

There are 235 convicts in the penitentiary at Salem.

Louisiana has found oil at a depth of 120 feet, and will probably be one of the great oil-producing states.

The site of Nebuchadnezzar's palace has been discovered. The lawn must be badly in need of cutting by this time.

The Wisconsin farmer who bought the Chicago Masonic temple for \$400 probably needed it to pile his gold bricks in.

If W. K. Vanderbilt had to work on his automobile first he would break enough rock to build a bridge across the Atlantic.

Saturday night marked the close of the Portland Carnival. The attendance was very good and the attractions have been the best in years.

Gov. and Mrs. T. T. Geer left on the evening train Wednesday for Ohio, where the governor will stamp the state for the republican ticket.

When M. Santos-Dumont was a little boy he must have had a thorough schooling in that bit of literature which says: "If at first you don't succeed, try, try again."

Oregon saw mill last year cut 985,100,000 feet of lumber, valued at \$8,592,500. This year's record is much greater. About a third of the whole is cut in Portland.

A box of apples was sent from Walla Walla to the Buffalo Exposition last week in which 20 apples weighed 50 pounds. It will cause the easterners to open their eyes.

Ex-Sheriff Scott, of Albany, has sued the S. P. R. R. for injuries received October 10 while riding in a caboose. A. S. Bennett appears for the plaintiff. This means a warm fight.

The Allen Canning Co., of Eugene, intend to ship an entire train load of prunes direct to New York city. Label the train in big letters "OREGON PRUNES" and send them forth.

Nearly all our exchanges are telling of the residence in their respective cities being occupied and a demand for more. This is a good sign where it is so general and indicates that the whole state is going ahead together.

Secretary Wilson estimates this year's best sugar production of the U. S. at 198,000 tons; the cane sugar production of the Southern States at 300,000; of Porto Rico 100,000 tons, and of Hawaii 300,000. And we still have to buy foreign sugar.

Springfield, Oregon, is apparently on the verge of the boom of booms. Logging for oil has already commenced, and food hopes of gushers galore are entertained. The Southern Pacific has sent to California for a bridge to span the Willamett at Springfield, after the erection of which it is said the through trains will come on this line rather than through Albany.

An exchange says: There is certain to be an advance at no distant day, in the price of land in Oregon. In Illinois farming land sells at \$100 per acre; in Eastern Nebraska at \$40 to \$60 per acre. Not long ago a section of fine land within three miles of Corvallis went for \$8,125 or a little over \$12 per acre. The Johnson Malkey tract of 320 acres within two and a half miles of Corvallis sold at something less than \$18 per acre.

Tarweed as a Crop.
Tarweed has come to the front as one of California's diversified and valuable products, and under the scientific name of *Grindelia robusta* is being shipped to an eastern patent medicine firm and manufactured into cough medicine. Briggs Argus says: J. W. Thompson, of Colgate City, cut and baled 75 bales of 250 pounds each last year and will prepare about the same quantity this year. And thus a market has been established for what has hitherto been considered worthless and a nuisance.

Plain Facts.
When you have the right goods, and the right prices, the public can easily see it, and that is why we are continually making sales and getting in new goods. At present we have some exceptionally good bargains in second hand pianos and organs. One good upright piano, nearly new, \$187 and organs as low as \$30. In order to be in line with the Portland dealers, we are prepared to offer just as good piano, as good terms, even better, for we allow two years' trial, without extra charge to the customer, or any of our pianos. Call early and get choice of stock.
T. K. RICHARDSON.

Estray Notice.
There came to my place one and one-half miles north of Canyonville, one gray mare, weight about eleven hundred, height about fourteen hands. Sphere brand on hip. Owner can recover same by paying charges and proving property.

Special prices on lime and cement at Marsters.

MAY WED GERMAN CROWN PRINCE.

Here is the latest photograph of Princess Margaret of Connaught, the eldest daughter of the Duke of Connaught. Rumor whispers that the Crown Prince of Germany is in London for the express purpose of seeking her hand in marriage. She is nineteen years of age and beautiful. The match is deemed a very desirable one in all quarters.

LATEST NEWS.

Outlook Unfavorable for Miss Stone's Release. Survey of Bohemia Railroad.

NEW YORK, Oct. 13.—According to the Tribune, a contract has been awarded in this city for an automobile, conditional upon the machine being able to make 70 miles an hour on a level road. If this speed can be attained the price for the auto is estimated to be \$30,000. Among those who are said to be interested in the experiment are Lewis Nixon, G. H. Kendall, G. W. C. Drexel and Frederick Landon.

Senator Mitchell Home.
Senator John H. Mitchell arrived in Portland last Wednesday from his recent trip abroad, which was taken for the improvement of his health.

Mr. Mitchell has been abroad four months. On his trip from New York to the Pacific Coast he stopped 10 days in Washington, D. C., and devoted himself to looking after department affairs in general. His family remains abroad. His physicians advise that he has added to his avoirdupois and his cheeks are ruddy. When the senator left his health was anything but good.

While manifesting a lively interest in public affairs and matters of particular interest to the Pacific coast people, it is not the senator's time for long, formal interviews.

"One of the things I would like to see in an away office. The mining interests of Oregon are large and extensive and the time has come when their needs must be answered. The best thing that could be done, I believe is to establish an assay office in Portland."

Speaking incidentally of the United States abroad the senator said that there was a sort of deferential attitude toward American, and he believed that France is a good friend of this country. Whatever national feeling there might have been at one time, he thought it had passed away. While in Paris he met with many people who talked about the great western country this side of the Rockies, and there were many inquiries about Oregon mines, etc.

Senator Mitchell will start East to take up his Congressional duties about November 20.

MISS STONE'S CAPTORS LOCATED.

NEW YORK, Oct. 18.—Rev. Wardlow Thompson, director of the Collegians Theological Institute at Sofia, cables the following from Samanov, Bulgaria, to the Journal and Advertiser, the details concerning Miss Stone, the kidnapped missionary:

"The headquarters of Miss Stone's captors is a thickly wooded mountain top near the boundary line of Turkey and Bulgaria. Miss Stone has only light summer clothing and a cotton dress. The brigands refused to allow her to keep her baggage, but let her have a Bible. The leader of the band is the notorious Bocho, from the Bulgarian town of Dubnitza.

"We sent word to Constantinople pointing out that being private individuals we can not prevent the Government from pressing brigands; also that the ransom is too princely. No such sum was ever heretofore demanded. No rejoinder has yet been received. Usually brigands ask £1000 and then agree for half.

"Twenty-five thousand Turkish pounds means two horse loads of gold and that is more gold than there is now in Bulgaria. Besides the brigands demand payment in Turkish gold for which it would be necessary to send to Constantinople. I should not give the brigands the ransom until Miss Stone is safely delivered to us, as they might murder her after receiving the money. The more desperate brigands murder after ransom in order to seal the lips forever. We have three theological institute students who were captured in the Stone party. One tells

A PHILIPPINE REVERSE

Ten Men of the Ninth Infantry Killed.

CHAFFEE'S OFFICIAL REPORT
Auto to Run 70 Miles an Hour.— Senator John H. Mitchell Home.

MARINA, Oct. 18.—Five hundred Bolomen attacked a detachment of 46 men of the Ninth Infantry at Bangjon, on the Gumbira River, Linao, Samar, today, killing 10 and wounding six. The remainder of the company arrived on the scene in time to prevent further slaughter, and routed the enemy, killing over 100 of them. It is believed that the enemy only retired for reinforcements. As soon as the news was received at Cuthberton, two gunboats were dispatched, General Smith going in person to the scene.

General Chaffee's Official Report.
WASHERS, Oct. 15.—The following brief campaign from General Chaffee, reporting the fight of the Ninth Infantry in Samar, Wednesday, was received at the War Department this afternoon:
"MARINA, Oct. 18.—Orbis, Adjutant-General, Washington: Forty-six men, Company E, Ninth United States Infantry, under First Lieutenant George W. Wallace, in field, Lower Samar, Samar, were attacked by 500 Bolomen, Oct. 16. Our loss 10 killed, and six wounded; names not received. Eighty-one of the enemy left dead on the field. Enemy broken off.

Auto to Run 70 Miles an Hour.
New York, Oct. 13.—According to the Tribune, a contract has been awarded in this city for an automobile, conditional upon the machine being able to make 70 miles an hour on a level road. If this speed can be attained the price for the auto is estimated to be \$30,000. Among those who are said to be interested in the experiment are Lewis Nixon, G. H. Kendall, G. W. C. Drexel and Frederick Landon.

THANKGIVING FOOTBALL.

Eugene and Roseburg High Schools Will Play Here.

Manager Crow of the Eugene High School football team has received an answer to a proposition sent by him to the Roseburg high school football team for a game here on Thanksgiving day. The Roseburg boys write that they will accept the proposition, and an interesting game is looked for. It is stated that the Roseburg team is composed of good heavy players and our boys will have to hurry to win from them.

The game arranged between the High School and Portland academy has been called off, presumably from outside interferences.

Coach Ford is now pushing his men through active training and they all seem to take a great interest in the work. Last evening there were 22 men out and from them a splendid team ought to be picked.—Eugene Guard.

Drying Preparations Simply Developed.

They dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial will be mailed for 10 cents. All druggists sell the 50c size. Ely Brothers, 50 Warren St., N. Y.

The Balm cures without pain. Does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieves immediately the painful inflammation. With Ely's Cream Balm you are assured relief.
