## Brooklyn

Figures in the Schley Trial.  
Charges against the Rear-Admiral hinge on the movements of the big flagship.

## Flagship

The Cruiser "Brooklyn," Admiral Schley's flagship at the battle of Santiago Bay, figures prominently in the big naval trial. Upon the movements of this ship the charges against Schley are based. Here is the latest snapshot of the cruiser.

## NEWS SUMMARIZED.

State and General News Condensed for Busy Readers.

E. L. Thompson's new woolen mill, at Portland, will be ready for operation in about three months.

E. W. Bingham, the well known Portland attorney, Monday fell from a window of his office the sidewalk below, about 20 feet. He is probably fatally injured.

The Marion county officials refuse to turn over the county books to experts employed by the county court, claiming lack of authority of that body in the matter.

Brigade last Sunday night tunneled under the Chicago postoffice and obtained \$75,000 worth of stamps. The postoffice officials are greatly excited. The secret service men are working on the case, but as yet have no clue.

Last Saturday was the hottest day of the year, the thermometer registered about 94 in the shade shortly after noon. Sunday was also a hot day but not quite so hot as Saturday. This is unusual weather for this part of Oregon.—Myrtle Point Enterprise.

The man who assaulted a woman on the streets of Salem has written a letter to the Journal claiming that it was a mistake, that he thought the woman was a young lady whom he met at the easel and who had jilted him. He is very sorry that it was the wrong woman.

The machinery of the Yaquina Bay Coal & Oil company arrived at Toledo Saturday from Pennsylvania. It consists of a steam drill, traction engine and portable derrick. Its depth is 1500 feet. Boring will commence as soon as the machinery can be moved to Frank Stanton's place, near Toledo.

C. A. Lucas, the first Afro-American to apply for admittance to the bar in this state, has been approved by the Supreme Court. Mr. Lucas is a young man who has lived in Portland several years, and at times has been interested in newspaper work and politics. The strange feature of the incident is that no colored man has ever before applied to the Supreme Court of Oregon for admittance.

Mrs. Gibbs, an old lady who lives near Eola, had an experience this week which no doubt she will not soon forget. She started from her home Monday on horseback over a trail to what is known as the Jack Sear's ranch. She had got some distance along the trail when she became lost, wandering aimlessly about until night. Not finding her way out at nightfall she dismounted from her horse and put in the night alone in the mountains without even a fire to protect her from the cold. When morning arrived she was unable to find her horse and started out a foot still not knowing in which direction she was going. L. W. Dwyer and Seldon Warner who were out hunting, met her on the trail and to them she told her story and informed them where she thought her horse could be found. They returned to the place and found the horse a short distance from where Mrs. Gibbs had spent night. Mrs. Gibbs is about 74 years of age and was nearly exhausted when found.—Myrtle Point Enterprise.

## Curry County Industry.

We are informed by W. F. Riley that R. D. Hume the salmon and pea cannery man of Curry county expects to build a large number of cottages this winter at Wedderburn, also a fine home for fish nets. The salmon run has been very good so far and the past week some very heavy hauls have been made, as high as 1200 being caught at one haul of the seine. Mr. Hume has sent the steamer Del Norte to Coquille for lumber for his prospective improvements, and as soon as the reason for fishing is over building will begin. A larger acreage of peas will be put in next season, and the pea cannery industry will be carried on a larger scale than ever. Several thousand acres will be planted to peas for the cannery.—Coast Mail.

## LATEST NEWS.

**Bohemia Railroad Survey Begun.**  
No Trace of Miss Stone. Terrible Flood at Skagway.

COTTAGE GROVE, Oct. 22.—The arrival of the engineers and surveyors who are to map out the route for the projected railroad into the Bohemia mining district, has created quite a stir in this community. That the projected road will now be built and open up one of the richest mining districts in the Northwest there is no longer any question.

The survey has begun from this city, and one of two routes will be followed. The surveying party has pitched a small village of tents at the edge of town, and the instruments were started out this morning. In selecting a route the large body of timber at the head of Mosby Creek will be taken into consideration by the promoters of the railroad. Much of this timber is owned by the Booth-Kelly Lumber Company, which proposes in the near future to install a large mill on Mosby creek, about 10 miles from this city. The grade to this point is easy, while the pass over the Bohemia ridge into the mining district beyond is comparatively easy also. This route is longer than the other under consideration, which is up the Row river. To offset this additional cost of construction, however, the heavy prospective lumber traffic cannot be lightly considered. The Booth-Kelly Lumber Company must have rail connections with the Southern Pacific, and if the promoters of the Bohemia road overlook this important fact, the lumber company will in all probability build a line of its own, and in time become also a formidable competitor for the traffic of the Bohemia mining district beyond. The timber land about to be invaded by the ax and saw mill will give a railroad heavy traffic for years to come. It is this fact, that inclines many to believe that the Mosby Creek route, although longer, will be selected for the road to the Bohemia mines.

P. J. Jennings, president of the Helena and Musick Consolidated Mining Companies, and I. W. Bingham, one of the promoters of the new road, are in the city to see after all necessary preliminaries to the survey.

## STILL NO TRACE OF MISS STONE.

NEW YORK, Oct. 22.—From Samakov correspondents of the Journal and Advertiser has obtained the following details concerning the pursuit of the kidnapers of Miss Stone: the American missionary:

"Your correspondent has just returned to Samakov after a fortnight's vain endeavoring to get into communication with the brigands. At Diumeyer the Kaiman, or local Governor, refused to give a written statement, but told your correspondent of the track taken by the brigands into Bulgarian territory.

"The brigands are still wandering around the region near Gutepe, and two governments, with gendarmerie, soldiers and secret agents are trying to find them. The four brigands who have been arrested stoutly maintain that they are not connected with the band that captured Miss Stone. They have been summoned to appear at Dubuiter, and be examined by a Turkish special commission. This may be a Turkish effort to make Protestants appear as accomplices in the Stone capture.

"Owing to the severe frost prevailing in the mount-

## Job Printing

Is a very important factor in business. Poor printing reflects no credit on a good business house. Let us do your Job Printing—we guarantee it to be in every way satisfactory.

## SUES ROAD FOR DAMAGES.

Fireman Bernal Wollard Asks \$40,000 of the Southern Pacific.

PORTLAND, Oct. 22.—Bernal Wollard, formerly fireman on the Southern Pacific Railroad, has brought suit for \$40,000 damages for injuries said to have been received while in the employ of the company and owing to the negligence of the defendant.

Wollard sets forth in his complaint that he was employed as fireman on a helper engine, which ran between Ashland and Dunsmuir, and that February 8, 1901, his engine was detailed to assist in pulling a freight train over the mountain grade. The helper engine was ahead, and when the summit was reached, the helper cut loose and ran on to a switch, in order to be out of the way of the train. Wollard says that his duty was to fix the switch, so that his engine could pass on the side track, and then allow the freight to continue on. He did this, and was walking down the side track while the train was passing along. The 14th car jumped the track and attempted to follow the side track. He was caught, thrown down and mangled, so that it was necessary to amputate his leg.

It is alleged that the company was negligent in having a defective switch, and that the flanges of the car which jumped the track were old and defective. He was 22 years of age at the time of the accident, and taking into consideration the amount he might expect to earn during his life, estimates that he has been damaged to the extent of \$40,000.

## AT COTTAGE GROVE.

Surveyors Have Commenced Work on Bohemia Railroad.

COTTAGE GROVE, Oct. 21.—Lots of railroad talk in this town since the surveying party arrived last week. This morning they drove the first stake between the Southern Pacific depot and Long's store, and started northeast through the Joe Perkins place. People generally think the road will go through, as the immense timber interests of the Booth-Kelly Co. and others on Row River and Mosby creek are sufficient to make business for a road from 15 to 20 miles in the direction of Bohemia and those who are in a position to know, disclose that there is paying ore enough in Bohemia to justify a road being built there to carry in supplies and bring out concentrates. Even the electric kicker is set today.

## NEW WATER WORKS.

Water has been turned into the pipe line from the new reservoir west of town and the head is so much higher that water overflows from the old reservoir east of here. We now have an abundance of pure water from a never-failing source. It puts the town \$10,000 in debt, but at the present consumption will pay for itself principal and interest in a few years. It is no graft.

## Estray Notice.

There came to my place one and one-half miles north of Canyonville, one gray mare, weight about eleven hundred, height about fourteen hands. Sphery brand on hip. Owner can recover same by paying charges and proving property. O. L. M. DUBRELL.

Lime and cement at very low prices at Marsters Drug Store.

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and breaks the whole surface over which it diffuses itself. Druggists sell the 50c. size; Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

Announcement.  
To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for croup, bronchitis, etc., the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the atomizing tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.
