**NEW PUMP AND LIGHT PLANT.**—A PLAINDEALER representative recently visited the pumping station of the Roseburg Water Co. (old company) at the New Era Flour Mill, and found the large new pump in position and nearly ready to connect with the mains. It is about double the capacity of the old pump and with the available water power will furnish a water supply adequate to all the demands of the city. Another valuable improvement noted was the large filter well under construction. A large basin probably 3000 feet had been excavated in the bedrock on the bank of the river, to a depth of about 12 feet. About two feet from the bottom of the excavation is placed a floor of heavy timbers, separated so water can pass through. On the floor is spread a thick coating of gravel and the basin then filled to the top with sand. The river or race below on a level with the top of the filter, is allowed to overflow and the water after filtering through the sand and gravel is pumped from the cistern into the floor to the company's reservoir, and is free of sediment or impurities.

The company has also secured its electrical plant and has a force of men at work putting on the cross-arm preparatory to erecting the poles about the city for their new light system, their new dynamo for which is forthcoming. It is therefore apparent that two long Roseburg will be supplied with the first class water and light plants operated by a rival company.

**PRUNES AND HOES.**—Cecil Weaver and wife, of near Myrtle Creek, were transacting business in this city and visiting with relatives Tuesday and Wednesday. Mr. Weaver is one of the prosperous and successful farmers of the "Missouri Bottom," who makes somewhat of a specialty of diversified farming—prune, grain, corn and hog raising, and this season has already turned off a fine crop of dried prunes, aggregating 67,500 pounds, for which he received four cents per pound with a half cent drop for smaller grades. Mr. Weaver built a new dryer this season which enabled him to handle his crop without any loss whatever as a result of the early rains. He is now fattening 125 head of fine hogs for the market, feeding them principally on corn, of

which he secured 1000 bushels, in the ear, from a comparatively small tract of land. Wheat, barley and oats, as well as potatoes and all kinds of garden truck is raised by Mr. Weaver for the market though not in large quantities. As a result of this kind of farming, Mr. Weaver paid his subscriptions in advance to the PLAINDEALER with a check on the local bank, a method of transacting business other farmers could adopt if they would follow this example of diversified farming.

**PROSPERITY THROUGHOUT THE COUNTRY.**—F. A. Aderton, who returned home from quite an extended visit with relatives and friends to Maine last Monday morning, made the PLAINDEALER a pleasant call Tuesday. About twenty-eight years had elapsed since he left his old home in Maine, hence many changes were noted, although the harness shop in which Mr. Aderton learned his trade is still occupied as of yore, and even the old foreman was found busy at the bench. Mr. Aderton says never in the history of the state, was Maine more prosperous than now and the republicans to whom this satisfactory state of affairs is accredited, are getting recruits by the hundreds on their invitation to the farmers, mechanics, laborers, manufacturers and business men of the state to join them in their efforts to maintain the present satisfactory business conditions. Existing conditions are due to the republican party and the way to continue them is to keep the republican party in power.

**EXHIBIT AT COTTAGE GROVE.**—It is seldom that one has the privilege of seeing such a fine exhibition as a Portland man witnessed upon the streets of Cottage Grove a few days ago. The combatants were girls about 15 years of age. One was riding her wheel when the other stepped in front of her and compelled her to do battle.

The mill opened with a war of words. Scratching was the feature of the third round, and the set-to concluded with the most approved stic pummeling of the regulation prize ring. The whole battle did not last over five minutes, but it was fast and furious while it was in progress. Long range parting shots in language more forcible than chastise drew a curtain over the disgraceful scene.—Telegram.

ROSEBURG, Ore., Oct. 24.—Tonight and Friday generally fair.  
—THOS. GIBSON, Observer.

**MARRIED.**—At the home of Frank Clemens, in West Roseburg, last Sunday, October 20, 1901, occurred a quiet wedding, the principals being Mr. Lewis Chamberlin, of Happy Valley and Miss Ruth M. of this city. Rev. A. S. Mulligan, pastor of the M. E. church, officiating. Only a few relatives and intimate acquaintances witnessed the pretty ceremony and joined in the wedding feast which followed. The bride is a very estimable young lady, the daughter of J. W. Mote, and has a wide circle of admiring friends. The groom is a very genial and highly esteemed young man who owns a cozy farm home in Happy Valley where the young couple will reside and where they will not be without their happy friends. Many friends join us in extending congratulations and wishes for a prosperous and pleasant journey through life.

It will be of interest to the farmers of this county to learn that the New Era Flour Mills, of Roseburg, have just installed a fine new Barley Rolling machine of large capacity and that the mill is now prepared to manufacture a fine dust less feed from your barley while you wait and are even better equipped for turning out a superior quality of flour and feed than ever before. Bring in your grain and they will do the rest.

**MARRIAGE LICENSES** have been issued by County Clerk Shambrook to Albert S. Wilson and Elizabeth S. Garner, of East Umpqua; Hugh N. Shield and Clemie E. Huhehl, Ten Mile; J. W. Bass and Mrs. Martha Evans, Oakland; L. B. Woodruff and Cora A. Pierce, Roseburg.

It is an old axiom that "bread is the staff of life" but this depends somewhat on its quality. The fine cream and home made bread made at J. Siever's bakery on Jackson street near Cans never fails to please. A nice variety of pastries also kept constantly on hand.

**CONJUNCTION.**—A prosperous farmer of Canyonville is a Roseburg visitor today. He says the prune crop of that vicinity has been sold at remunerative prices, but has not all been shipped yet. Little loss was occasioned by the rains in that locality.

**STEARNS & CHENOWETH** have Iron Dicks, the best and cheapest. They offer all Hacks and Buggies at reduced prices, new, all steel boys' wagons, Steel Barges and Stoves of all sorts, Pioneer White Lead, Lined Oil, Doors and Windows.

A traveling minstrel comprising four darkies and two boys, came on the morning train. They are playing at the smaller towns along the road and are said to give a very good entertainment—Rag Time songs, jokes, dancing and instrumental music.

Some unscrupulous dealers sell common cast iron Shares to their customers for the genuine Oliver. Look for the name cast in every one—don't buy the bogus.

L. S. Coon, the strawberry grower and propagator of Dillard, who always puts the first berries on the Portland market each season, was transacting business in Roseburg Wednesday. See his announcement in another column.

"Pride of Douglas" is the brand you will always find on the sacks containing the best flour obtainable in Southern Oregon. Try it and be convinced. —T. F.

Ladies, you should see that elegant new line of automobile and jackets at H. Marks & Co. The swellest thing in town.

**MARRIED.**—At the home of the bride's mother, Mrs. C. F. Inman, Oct. 24, 1901, Miss Eva Inman, and F. B. Miller, Rev. A. S. Mulligan, officiating. We join in extending congratulations.

Notions, the old things so many unusual things here. Those you don't know where to get, but don't want to pay much for, Hildebrand's.

## High School Notes

The social of last Friday was a grand success both socially and financially and we wish to thank Messrs. Crosby and Lawson and the Misses Gordon, Jacobs, Perry, Van Buren and Benedict for their assistance on the program.

The Latin classes are making good headway under the able instruction of Miss Binhard, and the Galleo wars are being thoroughly studied.

The History class is working to beat the band. The course in History covering five books in the four year course.

At the social last Friday evening several of the most promising young ladies having eaten cake for half an hour or so thought they would hide the remainder and have a grand festival on Monday, but three of our football team whose appetites were pretty good got there ahead and when the girls arrived they found only a crumb or two to greet them. Moral: You will have to hurry to beat the Roseburg football team.

The football team was out on Pine street for practice Saturday and by the way our Right Guard makes an opening through the line, it would seem that Roseburg would get there or die in the attempt.

The order at the High School is excellent. The writer can testify to the truth of this as he was elevated to the front seat the other day.

People are still coming in and interest is increasing. —E. Ditor.

**ROLL OF HONOR.**

**B. of L. F. Grand Masquerade.**  
The members of Roseburg Lodge No. 342, B. of L. F. announced a grand and unique ball for Thanksgiving eve, to be given under the auspices of this lodge and order. That it will be a rousing success goes without saying, and it will be remembered that one of the largest and most successful occasions of this kind ever given in this city was under the direct supervision of the railroad boys a few years ago. The event advertised for Thanksgiving evening will be no less brilliant, entertaining and successful. New and novel dance features will be introduced partaking of a carnival nature and including the celebrated "moonlight waltz." The railroad boys do nothing by halves. Remember the date and put this occasion down right now on the list of events you cannot afford to miss. Large posters will be out announcing the occasion in a few days.

**Piano Contest Vote.**  
The 8th canvass of the votes cast in the grand Kimball piano contest was made Wednesday by the committee, D. S. West and S. C. Flint, and resulted as follows, being the total to date:

- Looking Glass L. A. S. . . . . 167
- Degree of Honor . . . . . 100

The vote will be canvassed and the result announced on Wednesday every two weeks hereafter until the contest closes.

**Foresters Masque Ball.**  
Elaborate arrangements are being made by the Roseburg lodge, Foresters of America, for a grand masquerade ball to be given in the opera house Christmas eve. The Foresters' well known reputation as royal entertainers will be fully sustained on this occasion, the success of which is already assured. Don't forget the date.

**WOOD WANTED.**

**Petroleum the Thing.** (Ashland Tidings) After a couple of day's delay in drilling work awaiting the arrival of material and casing of the well, the big plant of the Southern Oregon Oil Co., again began pounding yesterday morning and is now drilling through shale at a rapid rate. The well is now cased for a depth of 900 feet with 1 1/2 inch steel pipe and the new pipe which arrived Friday is 7 1/2 inches in diameter. The bit has been also reduced to 7 1/2 inches to accommodate the new pipe. Over 600 feet of water that had filled the well was easily pumped out and its flow stopped by the casing. When the water was taken out, evidences of gas were plentiful and yesterday the flow of gas from the well was easily noted. This is the first evidence of gas encountered in the drilling operations and only adds one more to the already abundant evidences of the rich petroleum character of the location. At noon today the bit had gone to a depth of 925 feet and was drilling through a layer of blue shale. The evidences of the presence of gas have been increasing today as the drill drives deeper into the shale.

A new California company is getting ready to drill for oil in the neighborhood of Phoenix. They have secured some lands which they propose to exploit and are searching for more. It is reported to be a reliable concern with abundant capital in its command for the work in hand. This new syndicate has been attracted to the locality by the effective work and excellent results obtained in the Ashland fields by the Southern Oregon Oil Co. If the oil flow is once successfully tapped there will be scores of companies like it ready to go at drilling.  
The Southern Pacific and Santa Fe companies have decided to go into the courts and contest the action of the State Railroad Commissioners in reducing the oil rate from Bakerfield to San Francisco from 42 to 37.05 cents.
