President Orcutt, of the Central Oregon State Normal School at Drain, spent Saturday in Roseburg looking after business matters and making the acquaintance of our citizens. The Central Oregon State Normal is gaining prestige every day and is taking rank among the very best educational institutions of the state.

It is an old axiom that "bread is the staff of life," but this depends somewhat on its quality. The fine cream and home made bread made at J. Siever's bakery on Jackson street near Cass never fails to please. A nice variety of pastries also kept constantly on hand.

Bayless & Starnes, proprietors of the Roseburg Cafe and Restaurant on Cass street near the depot, have just fitted up new tables for the accommodation of dining parties, in their establishment and are prepared to serve their patrons promptly and with the very best in the market. A crowd of young and old people while charivariing A. A. Fuller, a life insurance agent, and his bride Mrs. Norton, at Empire City last Monday night, were made a target by the ill-natured groom and one of the party, Andrew Peterson received a full charge of No. 6 shot—101 in all in his thighs. He is not fatally injured. Mr. Fuller's version of the affair is that he supposed his cartridges to be blank.

No actor who comes to Portland is more welcome than Mr. Fred Warde, not because of any transcendent genius he possesses as actor or producer, but because of his conscientious methods, his admirable character and his lovable personality. It is to be hoped he brings us that beautiful play "The Mountebank" this time around, says Sunday's Oregonian. Mr. Warde will appear at the Roseburg theater next Saturday.

When you are in want of a Cook stove, Steel range, Heating stove, or any thing in the line of Hardware, Tinware etc., go to S. K. Sykes and get the prices and you will go no further.

A student who has paid some attention to the matter says that the amount of money that each student spends during the year ranges from \$150 to as high as \$600. A very low estimated average, he thinks is \$200 each. At the rate the 450 students at the college must spend something like \$90,000 a year in Corvallis. A good school is a valuable acquisition to any town.—Corvallis Times.

The recent action of the city council in increasing the business license does not tend to promote the growth and business expansion of our city, but retard it. The license in many respects is discriminatory and in others equal but should have been equalized rather than increased.

The Fatal Revolver.

It is suggested with some degree, at least, at reasonableness, that the manufacturers and sale of revolvers should be, if not prohibited, at least placed under severe restrictions. The reason for this argument is not far to seek. The revolver is the weapon of murder, designed for the purpose. Though sometimes useful for purposes of self defense, it is the weapon of brawls and bloodshed and has little respectable use. If a man goes hunting, he takes a rifle. For protection against burglars or house breakers, a shot-gun is worth a dozen revolvers. Its prime use is to shoot human beings and no other game.

In the best of a quarrel, an ill balanced individual finds a pistol in his pocket, shoots his adversary and becomes a slayer of his fellowman. The revolver makes tragic an occasion which without it would have been only ridiculous.—F.Z.
