JANUARY 9, 1902.

The New Year opens with a bright business outlook for the West and - particularly in Oregon.

The Louisiana Democrats are only Democrats on the "nigger" question. On sugar they are the rankest kind of Republicans.

Roseburg can start the new year right by organizing a commercial club of at least 100 members. Such an organization is a necessary requisite to the best success of the city.

Let us hold to the good old principle which has brought us prosperity as well as bonor, that the first consideration is the dignity, the well being and the Protection of Ameri can labor.

The paper proper is printed in red. green and black ink and is handsomely illustrated. The edition reflects much credit on the enterprising publishers, Chas. H. Fisher and burgers, who are meeting with success in the publication of the Capital News.

Our esteemed contemporary, the Review, contained a splendid Repub lican prosperity article in its last is see, setting forth the growth and de velopment of Roseburg and the Are county and the commercial and business activity of the past year incident thereto. The Review is certainly frank in admitting that the condition of the country now is just contrary to its predictions of a few years ago, if Mr. Bryan were not elected-The old political story of Republicanism and prosperity always marching hand in hand sounds familiar, but the monotony is of the kind that every body can cheerfully endure.

Political Cossip.

The eastern Oregon politicans feel they can Furnish a governor.

The Portland Chronicle continues to beem Mr. Corbett for governor. It is an old established principle at Roseburg, Ore. among politicians that if you can't get the office you want you can fight the party.

Eastern Oregon would like to name the pext governor but it will never be able to do so with three avowed candidates in the field.

It took the Oregonian four days to discover that Joe Simon had returned home, all of which would indicate that the Oregonian is not so enthusi-
