T. Scott and wife, of Melrose, were in Roseburg Saturday on their return home from a visit to Dr. Dr. Dr. Mr. Scott favored this office with a pleasant business call and reported T. R. Williams, who was so terribly injured at the Leona mills last week as apparently rapidly recovering from his severe injury. At the time of the accident the doctor remarked that there was only one chance in a thousand for his recovery but he is a plucky fellow and evidently does not believe in giving up for such a little thing as having a stick an inch square to pierce his chest and penetrate both lungs. His recovery would be nothing less than a miracle.

The Queen of Hayti, the big musical comedy which opens at the Opera House Wednesday Jan. 15, is vastly different from any similar style of attraction that will be seen here this season. It numbers 50 of the best colored entertainers in America, each one of them popular in their respective lines. Unlike most farce comedies, the Queen of Hayti has a plot sufficiently intricate to admit of many surprises. A number of high class vaudeville specialties are introduced and worked in so nicely that you think they are a part of the real plot. The action of the comedy takes place on the Isle of Hayti, during the war with the French in 1854, and the eccentric types of characters found there are pictured. The action is quick, the dialogue and situation amusing throughout and the construction is excellent. The company presenting the play is one of the strongest colored organizations traveling.

The Queen of Hayti, the attraction at the opera house Wednesday Jan. 15 this week is said to be one of the largest and best colored organizations traveling. It is a musical comedy, and vastly different from any other colored aggregation. The piece really contains a well defined plot and tells an interesting story while of course songs, dances, and the customary diversions characteristic of the so-called musicals are freely interspersed.

There are 30 people employed in its interpretation including such well known and pleasantly remembered artists as "The Gypsies," "Sherrah Quartette," Frank Kirk "The Musical Troup," the Juggler and hoop whirler, whose hoop rolling is a splendid exhibition of skill, and the control he has over hoops is wonderful, "The Gills," and a score of others second only to those of the accomplished. These merry people of the South offer an entertainment that is unique in this city.

G. G. Warner, of Cottage Grove, was in this city the latter part of the week. Mr. Warner has been interested in the Bohemia mines for several years and has great faith in the future development of that section. FREDERICK WARDE COMPANY.—It isn't often a town of Roseburg's dimensions is afforded an opportunity of seeing such an excellent and high class theatrical company and one with such a wide reputation as the Frederick Warde Company, which appeared at the Roseburg theater Saturday evening in "The Mountebank." The company's stars, Frederick Warde and Miss Trecoff, have a national reputation while all other members of the large company are artists in their respective roles. A well filled and enthusiastic house greeted the company, which before the play had fairly begun, by repeated scenes brought Mr. Warde before the footlights in response and in a neat speech he expressed his hearty appreciation of the cordial reception. The play is all that is claimed for it, permitting a display of the ability and talent of the able cast of characters. SMALLPOX IN COOS.—Dr. E. Mings, health officer of Marshfield, reports that there has been 250 cases of smallpox at that place, with one death out of that number. It has been noticeable that the disease has attacked those more readily who were not or did not show signs of recent successful vaccination. It attacks all ages, but the majority of cases have occurred in children, this being due to the fact that no quarantine measures have been instituted by the city authorities to control the disease, and some of them having the eruption on their bodies while upon the street. The services of a physician were not required in a large number of cases on account of the mildness of the attacks. The schools and churches of the county towns have all been closed until the abatement of the disease.—Myrtle Point Enterprise.

AT THE OIL WELLS.

Good Progress Being Made in Drilling Operations.

In an interview with President M. McCoy of the Umququa Valley Oil Company who has just returned from Myrtle Creek, where the company's drilling plant is doing splendid work, Mr. McCoy expressed himself as being highly pleased with the progress made thus far although the drill is at present in very hard rock. Everything is up-to-date about the plant and is working very satisfactorily. A report was circulated about town that the drill had already tapped a seepage of petroleum, and when Mr. McCoy was asked about it he would neither deny or confirm the report, but said they were not done enough yet to talk about such things, but he was a pleased smile which showed he was well satisfied. Mr. McCoy speaks in terms of high praise of Mr. Henry the company's driller, and of the encouragement given the enterprise by the good people of Myrtle Creek.

An Interesting Case.

Justice Robinette's court is occupied with a case this afternoon which is creating more than ordinary interest about town. The case is entitled, The State of Oregon vs. Dr. E. V. Hoover, mayor of the city; F. W. Dillard, city marshal; B. E. Pace, street commissioner and Chas. Neal, defendant. Complaint was filed by Jan. Fletcher, grocer, who says others allege that defendants are guilty of the crime of injuring a highway in the city of Roseburg. The case is the outgrowth of the order of the council last week for the removal of a crosswalk leading from Jasper Wilkins' restaurant to the railroad platform. Mr. Wilkins asked permission of the council to place the crosswalk there and taking it as asserted that his request would be granted, built the walk before the council met to consider the matter, with the result before stated. Wilkins, Fletcher and others, after this walk was torn up, improved another old crosswalk nearby, with the consent of the chairman of the street improvement committee as they claim, whereupon Mayor Dr. Hoover, ordered this and still another crossing torn up by the marshal and street commissioner who obeyed his order, resulting in the above action at law. O. P. Coehow and Chas. Hamilton, appearing for defendants and Hon. Dexter Rice for the state. Many witnesses are being examined and the case is a pretty hotly contested one and is still in progress as we go to press.

The Allegany Elkton Wagon Road.

The County Court has appropriated \$1000 to be expended on the Allegany-Elkton wagon road, and this makes the building of the road an assured fact. With the \$800 now raised by subscription, \$1800 is now available and with this quite a start can be made.

The Douglas county court has now accepted the survey of that part of the road which lies in Douglas county, and has declared it a county road. Of course that doesn't open it for wagon travel, but no doubt the money necessary will be forthcoming in due time.

If this new route is as much of an improvement over the three others as it is represented to be, we may yet see the day when one can get in and out of Coos in the winter with some degree of comfort.—Marshfield Mail.

NORTH DOUGLAS ENTERPRISE.—At the last meeting of the city fathers of Drain, Messrs. Perkins & Blodgett secured the right to erect poles and string electric lighting wires throughout the city, and to supply all who may desire the same with electric lights. The firm named proposes to put in their own poles and to furnish the city with electricity for lighting and power purposes, and is intended to commence the work to the end outlined, at an early date. The matter has been carefully considered, and it has been found that the proposition is not only feasible, but will also prove a source of annual profit to the business men of the city, as well as to the firm who will supply our citizens with cheap and first-class services in the lighting line. Drain is making another important step toward the accomplishment of her future greatness.—Drain Nonpartisan.

NOT VERY FAVORABLE COMMENT.—This is the kind of advertising Roseburg is getting since the recent action of the city council in raising the city license. It is not a kind that will tend to induce new enterprises or investors to locate here, but the town may already be big enough to suit the council, even if it is as large and important as some of the rest of us would like to see it. The Myrtle Point Enterprise says: "The city council of Roseburg has again increased the city license of business houses, and the taxes are 50% per cent higher than last year. An exorbitant license does not tend to promote or advance a city but will retard its growth to a considerable extent."

LARGE SALE OF FRUIT TREES.—J. L. Cassebeer, of South Deer Creek, placed an order with W. E. Hoover Saturday for 1000 fruit trees—apples and pears, and they will be set out on his farm and will prove a very profitable source of revenue in a few years. No better selection of fruit trees could have been made and we are pleased to see this kind of enterprise engaging an extensively in this profitable industry. Mr. H. Wollebush of Roseburg, also placed a large order for fruit trees with Mr. Hoover last week which will be set out on his fine farm at Riddle, known as the Cornish place.

DID NOT FEEL ON VENISON.—In Justice Robinette's court Saturday afternoon was heard the case of the State vs. Peter Hansen, who was arrested by Deputy Game and Forestry Warden E. G. Hodges on a charge of unlawfully having deer in his possession. The state was represented by Attorney John Long and Louis Barzes and the defendant by Geo. Byron. A jury composed of B. S. Nichols, A. W. Martin, W. J. Lander, S. W. VanZile, J. C. Comstock and Allie Howard brought in a verdict not guilty and the defendant was accordingly discharged.

NO SALOONS FOR ASHLAND.—At the first meeting of the new city council for the new year at Ashland Thursday evening the question of licensing saloons for the coming year in that city was lost by a vote of four to two and in consequence Ashland remains a "dry" town. A franchise for a street car system for Ashland is being considered and the salary of the marshal was raised from \$400 to \$500 per month, and a water commissioner from \$90 to \$75 a month, the city owning its own water system. A sewerage system is to be provided for the town.
