 LAW RELATING TO MANUFACTURE OF NEWS.  
 According to some of the latest laws newspapers publishers may cause individuals who take a paper and refuse to pay for it to be arrested for fraud. Under this ruling, also, anyone who allows his subscription to run along for a time unattended and then orders it discontinued, or orders the publisher to mark it returned, or sends a postal card to the publisher is liable to arrest and fine the same as for theft.

**Clubbing Rate**

We have arranged with a large number of papers and magazines for rates which will give to our subscribers two publications for a slight advance over the cost of the Plaindealer alone. Following is a partial list:

TWICE-A-WEEK PLAINDEALER AND THE	
Toledo Blade	\$1.75
New York Tribune	1.75
Oregonian	2.25
E. F. Bulletin	2.50
E. F. Call	2.50

**PUBLISHING THE TAX LIST.**

The Review of last Monday greatly belabored itself and in its desperation produced an array of figures to try to show wherein the PLAINDEALER should publish the delinquent tax list at less than one-half the price formerly received by the Review. We do not object to publishing the list at one-half the former price, but must draw the line at following the suggestion of the Review to accept the job at one-fourth the original price. True, the Review was only allowed 30 cents per line during Sheriff Stephens administration from the fact that the Republican county commissioners, in the interest of the tax payers, very properly brought the price down to a reasonable figure, it having originally been 50 cents per line, while the PLAINDEALER this year is allowed but 25 cents per line. The Review further makes a great spiel about the type used then and now. The PLAINDEALER is using for this work a legal style of type, the same as is used for this purpose by every paper in the state both democratic and republican, and which the Review would now be using were it receiving this patronage. The Review had just as well advocate going back to the days of the stage coach and canal boat as to advocate discarding the product of the type setting machine for the old style hand composition.

When the County court feels in need of any newspaper advice regarding the conduct of the county's affairs it will probably give our esteemed contemporary due notice. Mr. Wimberly by his mirth provoking articles is furnishing the community with a great deal of amusement and gaining somewhat of a reputation as a humorist, but to the more conservative he appears as our poet has eloquently portrayed him in the following pathetic lines:

I saw something on the street  
 As I chance to pass,  
 At first I thought it was a man  
 But ah! it was an ass.  
 The hat, the collar and the tie,  
 The clothes in full array,  
 But oh! those ears stuck up so high  
 They gave him dead away.

The campaign will open in Douglas county next month and there will be less scramble for preference than last year as the Republican ranks. We see no valid reason why candidates cannot be selected for the ticket by the party that will make a clean sweep for all the officers from legislative down. The party can elect every man on the ticket provided factional strife is frowned down, and the republicans loyally support their ticket at the polls. The official record of the present republican incumbents in the County offices will bear the closest scrutiny and every official has proved himself faithful to duty and true to the trust reposed in him. Every courtesy and favor within their power to grant has been extended those who have visited the court house for the purpose of transacting business, and each official has particularly distinguished himself by the non-partisan manner in which he has conducted his respective office. Of course the forced improvement of the county's roads in bridges has incurred considerable extra expense to the county but since the taxpayers of the county are directly benefited by this outlay of county funds they are not likely to other than commend the court for its good work in this direction.

Tomorrow, if the penalty under which the two heartless Portland murderers have been resting, is executed according to law the last scene in the Dalton and Wade murder case will end of which the Oregonian says: "The cant of Dalton is scarcely less wearisome than the bravado of Wade. Towards both, the one seeks to veil his true feelings under bawlingly assumed piety, the other under greasiness gaiety. Equally guilty in intellect when they set out to gather in quest of unearned money, equally guilty now as they face the gallows, they are one in cowardice, which is rendered by the one as repentance, by the other as mock courage. The public, in facing this double execution, is under a grievous strain. It will be well when the drop falls and the painful scene ends.

Later day politics has lost much of its former significance. In days gone by men were called from the plow, the professions and every walk of life to fill positions of honor and trust not because they sought the honor thus bestowed, but because of their worth and ability as loyal, honest American citizens. Now political aspirants who cannot hope to win except by sharp practice in manipulating primaries and conventions are early in the field confident of success. The elimination of the former feature of politics forms the basis of degeneracy in American politics and throws the control of legislation into the hands of schemers and manipulators whose motives are never the best.

A fool's argument—"it is a lie" is the only argument the Review editor offers to the PLAINDEALER's plain statement of facts. Being unable to meet local or current issues with this paper fairly and squarely the Review editor, with the low insinuation of his base nature, grants out "its a lie" in reply to our statements, but fails to offer proof or argument to back up his negative position. Any stupid unskilled could do as much.

We have been considering the advisability of publishing a list of the citizens of this county who have met with financial reverses during the past twelve months. By referring to our books we can furnish the public with a very complete Directory of those persons, who appear to be in an insolvent condition.

**The Stone Case. A Mine of Pure Silver. Saloon Raid.**  
**SOUTHERN OREGON NATIONAL PARK.**  
**PORTLAND, Jan. 28.**—Will G. Steel, of Portland, is heading a movement to secure the setting aside of Crater Lake as a National Park. Hon. Theo. H. Tongue has already introduced a bill providing for it. This is one of the finest natural bodies of water in the world. The surface of the lake is 6,239 feet above the sea. It is about six miles in diameter, surrounded by perpendicular walls of 1000 to 2000 feet. It contains a circular island 855 feet high, in the top of which is an extinct crater 90 feet deep. The crystal water is 2000 feet deep, a rich blue. The surroundings are grand.  
**THE PACIFIC CABLE.**  
**WASHINGTON, Jan. 28.**—By a vote of 3 to 2 the House committee on commerce today decided in favor of Government construction operation and maintenance of a Pacific cable, and ordered a favorable report of the bill of Representative Coit, of Michigan, providing the details of such a Government undertaking.  
**MISS STONE.**  
**DEMARIA, Roumania, Jan. 27.**—The release of Miss Stone and Mrs. Talika is now expected hourly. At the request of the American negotiators, the government has granted the former entire freedom to cross and recross the frontier, so as to facilitate the liberation of the captives.  
**THE AIR-SHIP SUCCESS.**  
**NICE, France, Jan. 28.**—The experimental ascension of Santos Dumont in his air ship was a success in every particular, not a single hitch occurring. Dumont directed the airship at will, causing it to rise and fall, to go ahead or backward. He seemed to have complete control of the flyer.  
**THE NATIONAL UNIVERSITY.**  
**WASHINGTON, Jan. 28.**—The board of trustees of the National University, which has been endowed by Carnegie, will meet and organize tomorrow.  
**Only the interest on the \$10,000,000 will be paid, the principal remaining in perpetuity.**  
**A MINE OF PURE SILVER.**  
**NIGHT, Mo., Jan. 28.**—Two prospectors, Dave Lowley and W. H. Harmon, who are leasing the O'Brien mine have struck what is believed to be a mine of pure silver. They have secured 13 tons of ore which is almost malleable. An average assay is 18,000 ounces, which gives a value to the ton of nearly \$5,000, in the white metal.

**CIRCUIT COURT NOTES.**  
 The following cases have been disposed of since our last issue:  
**Edwin A. Mack vs G. W. Peters,** action to recover money; continued for the term.  
**W. O. Wilson, et al, vs Geo. W. Wilson, et al,** suit in equity; motion to set aside service denied.  
**J. O. Booth vs L. D. Love,** action to recover money; judgment for plaintiff for \$67.10 and costs.  
**J. A. Palmer vs Lola May Darrow,** action to recover money; demurrer to equity plaintiff sustained.  
**H. C. Slocum vs Nettie L. Slocum,** suit for divorce; plaintiff ordered to pay \$100 into court to assist defendant in making her defense.  
**Alice J. Mathews, et al, vs B. F. Mathews, et al,** partition suit; partition to decree order.  
**J. B. Bann vs Rainbow Mining Co,** action to recover possession of a claim. After hearing considerable evidence before a jury the case was dismissed by Judge Hamilton.  
 At juryman were excused Monday evening for the term. Court adjourned Wednesday night Friday when the business of the term will be finished up.

**Saloons Raided at Albany.**  
 A committee from the Anti-Saloon League have called considerable commotion in this city by a wholesale raid upon the saloons. Sun eve evening the committee, divided into groups, visited all the saloons for the purpose of securing evidence for conviction on a charge of violating the ordinance prohibiting the sale of liquor on Sunday. The committee made purchases of liquor, it is alleged, in all the saloons in town, except two and secured witnesses of violation of the law in all except one, and there were only ten saloons in town, which will make nine cases.  
**HEWITT & S. X** have been retained to assist in the prosecution, and it is expected that warrants will probably be issued today. The trial of the cases will no doubt develop a warm contest.—Tuesday's Herald.

**EDITOR PLAINDEALER:**—I received a few days ago two copies of the Twice-a-Week PLAINDEALER as per my request and have duly digested their contents. As the samples were fair I would like a larger slice, so please find herein a money order for a six months meal. By that time, perhaps, I shall have decided to cast my lot with you. If you can guarantee all the good things in questions answered in issue of Dec. 10th. Would like to see some more weather reports.  
 Yours respectfully,  
**H. S. WHITNEY.**

**Political Gossip.**  
 The Populist County Central Committee has met and from the talk of the members present it is evident that an effort will be made to keep the party intact in this county. The state committee "gave up the ghost" several months ago, but Linn county, the old populist stronghold, will refuse to follow suit. At a fair estimate today there are perhaps 1200 populists in Linn county who do not owe allegiance to any other party. The democrats can scarcely count on more than 1100 members of the straight out dyed in the wool Jacksonian stripe, while the republicans have in round numbers 2100.—Herald

**High School Notes**  
 The Athletic Club has elected officers for the ensuing year as follows: President, E. R. Traver; vice-president, Theo. R. Townsend; secretary, Walter J. Lechner; treasurer, Theo. R. Townsend; sergeant-at-arms, Floyd C. Rimp.  
 Basketball team, captain, Floyd C. Rimp; manager, Theo. R. Townsend.  
 Base ball and track team, captain, Floyd C. Rimp; manager, L. R. Traver.  
 1902 Foot ball team, captain, Floyd C. Rimp; manager, Theo. R. Townsend.  
 The Athletic Club, is to use the slang phrase, "in the hole" for quite a period, on Friday, Jan. 31; they will give a social at the Native Sons' hall for the purpose of clearing themselves from debt. Come everybody; everybody sell and help along a good cause. Admission, 25 cents to all.  
 Most of the six pupils have returned to school.  
 New classes have been formed this week in German, geometry, higher arithmetic and Roman history.

**Smelter Would Pay.**  
 A conservative estimate indicates that a smelter in Portland, in its running condition at this time, would receive the following: Eastern Oregon, 22 to 27 cars of ore per day; Southern Oregon, 21 cars per day; Idaho, with its prospective mines, would ship not less than six cars per day, and the St. Helens and Washington districts will ship twice as much, with their railroad completed. By the way, the Vancouver road will soon have 32 miles of track, which, by its short route, will take it very close to these districts. These estimates would, of course be doubled in no time after the smelter commenced operations, for development is now more than equal to such increase. Idaho people say they will give 8 or 10 cars of ore per day if we had a good smelter at Portland.—Pacific Miner.

**Coming Thousands Strong.**  
 The wonderful prosperity and the brilliant future springing from the vast undeveloped resources of field, orchard and forest and mine is certain to attract this year to the Pacific slope and especially to the rich spots of Oregon an immigration far larger in volume and well to do in character than even that of 1901. From their information gathered, railway managers are preparing for the transportation of many thousands from the inhospitable east to the hospitable western slope. The great majority of those who visit the west this season are bona fide seekers for homes and generally possessed of the means with which to procure that of their liking. They will scatter over its broad and resourceful west and enter its every avenue of trade and industry.

**The Roberts Destroyed by Fire.**  
 The little tug Roberts, that frequently called at this port from the steamer, has in all probability made her last visit to Coos bay. She has been having a series of mishaps, and the chapter of accidents was closed last week, at Florence, when a fire broke up a match to her, and destroyed that which the damage is irreparable, and that a new hull will be constructed for the machinery. The Roberts had been having some trouble to have her boiler, which was damaged by bumping on the spit, repaired, and while she was in this position the fire occurred. Our information comes from a reliable source but the details of the affair are meagre.—Marfield Sun.

**STRAW BERRY PLANTS FOR SALE.**  
 I have the Excelsior which is a large, red berry and very early. I have shipped the first crate of Oregon berries to the Portland market for the last two years. My first crate last spring sold for \$12.00. They are what would be called everbearing, and I pick berries off of them almost every month in the year. I shipped a crate to Portland the first of October and there is at least ten gallons of my vines now—just think of the ripe strawberries almost every day in the year, and then say you want put out a patch of your own. I also have the Hood River which is a large, red, sweet berry and a good shipper. Prices on cars a barrel: \$50, \$1.30; 500, \$2.00; 1,000 \$3.00.

**GENTLEMEN:**—Your letter concerning sulfur and the sample of sulfur, have been received.  
 I have examined this sample and find that it is almost entirely pure sulfur. I think that it would answer the purposes very satisfactorily for spraying compounds or insecticides. I think that if you have plenty of this quality, or can get it, that it will be as good as any sulfur that we can obtain for spraying materials.  
 Very truly yours,
