LATE NEWS SUMMARY

Important Events of the Past Few Days.

STATE, GENERAL, FOREIGN.

Cream of the Dispatches Dished Up in Condensed Form for the Busy Reader.

Gov. Taft says our hope in the Philippines is in the educated classes; and our system of schools over there is increasing their number all the time.

The authorities of Ulzen, Prussia, have passed an ordinance requiring all husbands to be home by 11 o'clock at night, or pay a fine of \$2.50.

A new law in Iceland authorizes any adult to administer a sound spanking to any boy or girl found smoking a cigarette, and to destroy any cigarettes found on them.

Gov. Dockery of Missouri last week pardoned a penitentiary convict named Craig, but only in order that he might be hanged for having killed one of the prison guards, in an attempt at escape.

Mr. Myron T. Herrick, of Cleveland, Ohio, has declined to accept the position of U. S. Ambassador to Italy, which was tendered him by President Roosevelt. Such places are very seldom declined.

Spain is said to hold forty Porto Rican political prisoners, and the Porto Ricans want to know why they are not liberated. The question is pertinent, and President Roosevelt will doubtless see that Spain so regards it.

Miss Josephine Holman, the Indiana girl who was engaged to be married to William Marconi the wireless-telegraph inventor, has broken off the engagement, Marconi being too much wedded to science to devote himself to matrimony.

The Southern Pacific Company recently inaugurated new through car service between San Francisco and New Orleans on their trains No. 9 and 10, running chair car, coach, standard and tourist sleepers through from San Francisco to New Orleans without change at El Paso.

A law will go into effect in South Carolina Jan. 1 prohibiting the sale of pistols or revolvers under 22 inches in length. The object is to stop the carrying of concealed weapons; a gun above that size not lending itself easily to pocket storage.

Gov. Taft reports that there are now 843 American teachers in the Philippines, stationed at 450 different places. In nearly half of the places there is no American teacher, but the Filipinos are friendly to the teachers, and even the insurgents have no grudge against them.

Emperor William has decided to graciously augment his proposed gift of casts to Harvard university museum. It will cost him \$125,000. out of his private pocket, and will include several thousand reproductions of the best specimens of German plastic art, from early times down.

It is now claimed that the bodies of Dalton and Wade were not buried at all but were sold to the dental students of Portland and dissected. This is not surprising, such things are done right along. Thousands of bodies are dissected in the United States every year, and they have to come from some where.

Interesting Industrial Items.

Fancy Oregon apples are quoted at \$1.75 and \$2.00 per box at San Francisco.

The indications now are that wheat on the Pacific Coast will start next fall at a much better price than it opened at last year.

H. S. Gile & Co., of Salem, Oregon, have shipped two carloads of prunes to London this season, where the fruit has given good satisfaction.

A carload of fresh eggs was shipped East from San Francisco a few days ago. Dairy and Produce Review says this is not an uncommon thing at this time of the year.

Portland wool buyers are feeling much more cheerful now than they were at this time a year ago. The tendency to improvement in prices is as encouraging to the buyer as to the grower.

At Medford, Oregon, the required acreage of sweet corn and tomatoes to secure a cannery has been pledged, or 100 acres of corn and 50 acres of tomatoes. The price to be paid are \$8 per ton for corn, and \$10 per ton for tomatoes. If good crops are secured these prices will prove satisfactory to the growers.

La Grand orchardists continue to favor the Gano apple. The Observer of that place reports that L. Oldenberg is about to set out 20 acres of Gano; J. L. Caviness will plant 2000 apple trees this spring, mostly Gano, and M. R. Carroll will plant 200 Gano trees in the spring.

We have often heard that editor remark that he (or she) couldn't bear to think of changing the old name for a new one as the old name was such an "uncommon one." However, we presume the editor has experienced a "change of heart" in regard to name. Here's our best wishes for the future happiness of yourself and the lucky winner.

ANOTHER FRISCO MURDER CASE

Rages of Fire and Storms. The Detroit Bank Wreckers.

GROTON, MASS., Feb. 11.—Young Theodore Roosevelt, the President's son who is ill with pneumonia, passed a restful night last night.

There is some improvement in the condition of the boy. The crisis in the inflammation of the left lung is past, while that of the right is expected today.

President Roosevelt and his wife are almost constantly about the bedside. They are bearing up well.

USUAL BANK ROBBERY.

STONE MOUNT, Illinois, Feb. 11.—The National Bank of the city was broken into by burglars early this morning. The robbers escaped with ten thousand dollars.

THE CHINESE TOWN.

HONG KONG, Feb. 11.—A big fire is raging in the Canton suburb. There are practically no facilities for fighting fire and it must burn itself out.

Already four hundred houses have been destroyed.

WOMAN SUFFRAGE CONVENTION.

WASHINGTON, Feb. 11.—The Woman's International Suffrage Convention will meet in this city tomorrow. Many of the prominent advocates of the movement have already arrived.

A MARINE DISASTER.

CAPE MAY, N. J., Feb. 11.—An unknown schooner was burned off-shore last night.

The hull is now drifting with the ice. The life saving crew is unable to reach the vessel.

BANK WRECKERS IN COLLAPSE.

DETROIT, Feb. 11.—Frank C. Andrews, vice-president of the City Saving Bank, also Commissioner of Police, who together with his brother is responsible for the wreck of the bank, is in almost complete collapse.

Latest developments tend to confirm the general opinion that the other bank officials were partners in the conspiracy to appropriate the funds of depositors.

PACIFIC OCEAN GALE.

SAN FRANCISCO, Feb. 11.—Heavy gales are reported all along the coast line from this city to Vancouver's Island. It is feared that but a few marine disasters will result.

THE CONNECTICUT FIRE.

WATERBURY, Feb. 11.—Gauges of laborers are employed in relays clearing the burned district of the city debris.

MYSTERIOUS MURDER CASE.

SAN FRANCISCO, Feb. 11.—The coroner's jury is investigating the murder of Miss Nora Fuller whose body, with marks of strangulation, was found in a vacant house yesterday.

The girl had been missing four weeks but the autopsy surgeon is confident that death occurred not longer than ten days ago. A man giving the name John Bennett is wanted by the police on suspicion of being the guilty party.

Oldest Inhabitant Dead.

SHERWOOD, Feb. 10.—Mrs. Nancy Jane Roberts, who was undoubtedly the oldest woman in Oregon, died recently at the home of Matt Baker, near Hood View, three miles from Sherwood, at the advanced age of 109 years. She was born in what is now the state of Missouri in 1793.

Mrs. Roberts was born in the year of the great revolution in France, and while Washington was serving the first year of his second term as President of the United States, and six years prior to his death.

She emigrated to Oregon, with her family in the year 1852, and settled in the Willamette Valley, where she has resided ever since.

Her husband died about 30 years ago at a very old age, since which time she has made her home with her married sons and daughters, residing in this vicinity. She was a great-grandmother and at her death, her eldest son now living (an older son having died a number of years ago), was a hale, hearty old gentleman with a large family, and 71 years of age.

Her death terminates the career of probably the last contemporaries of Washington and the founders of the Republic. The body was buried at the beautiful Pleasant Hill Cemetery in Clackamas county.

Class Convention.

The Socialists of Douglas county, Oregon will meet in Mass convention at the court house in Roseburg at 1 o'clock, p. m. on Wednesday March 5, 1902, for purpose of electing delegates to the state and district conventions—placing in nomination a full county ticket, and such other business as may be desired. Notice to the Public.

Largest Oak Tree in the World.

GRANTS PASS, Feb. 10.—What is undoubtedly the largest oak tree in the world is discovered in Western Josephine county in the lower end of the Illinois Valley. This big tree is at least much bigger than the much-talked-of "giant oak of Germany," which is described as an old oak stump, ten feet in height and 50 feet in circumference at largest part of the trunk. This tree is old, very old, so old, in fact, that only the decaying stump remains of what was once a giant tree.

The giant Southern Oregon oak can be seen by every passenger making the stage trip between Grants Pass and Kerby. The tree stands in an open field, and measures 30 feet about its massive trunk at the ground, and is 27 feet around at the highest point which can be reached by a man standing on the ground. From all appearances the tree is perfectly sound, and is still thrifty and growing continually. While this giant oak attracts little attention, as a matter of fact it is much larger than the so-called "giant oaks" of Germany and other countries, that are so loudly proclaimed the giant oaks of the world.

The Popular Shirley Company.

Once more we are to see the famous and popular Shirley Company in Roseburg beginning Monday Feb. 17. Since their last visit they have branched out and today it is considered the strongest repertoire company on the Pacific Coast. Their repertoire of comedies and dramas and farces are the best that royalty can buy. Specialty people have been added to the company and with their challenge orchestra will entertain between acts.

"A Young Wife," the great Eastern success, is a comedy drama brimming over with brilliant situations and humorous scenes will be the attraction offered Monday evening, which, while melodramatic in action, still retains that dainty finish which raises it to the plane of modern drama without taking from it a particle of the interest for which the old-fashioned melodrama was justly celebrated. It is a story of life in New York, as seen from day to day. Running the gamut from the saloons of the "Four Hundred" to the dens of vice on the east side, it shows the daily life as it may be found there, woven into a story of more than usual interest which is interspersed with a vein of bright comedy that is refreshing. Add to this, several clever specialties, which are introduced between the acts of the play will warrant it, and a combination is formed which is difficult to surpass in the line of amusement. Admission 15, 25, 50 cts.

Montana Diamond Myth.

BUTTE, Mont., Feb. 10.—State Senator Hobson, who is largely interested in the sapphirine diggings in Ferns County, says the story in circulation throughout the East of the many diamonds being found in the state, is a myth. The stone that is creating all the furor is a white sapphire, very hard, but of comparatively little worth. Hobson has made special trips to New York and London, where he has interviewed well known lapidists with reference to the Montana stone. In veins extending for miles along the creek beds, Hobson says these white stones can be found by the barrel.

The Paterson Fire.

PATERSON, N. Y., Feb. 10.—The fierce conflagration which burned its way through the business center of Paterson yesterday has completely spent its force, and is quickly dying out in the ashes and broken bricks of its ruin.

Conservative opinion inclined today to put \$2,000,000 on the aggregate loss of \$10,000,000 agreed upon yesterday, and \$5,000,000 probably be accepted finally as the actual cost of the fire.

The Latest Swindle.

A number of farmers have been swindled out of some aggregating several thousand dollars recently by a couple of strangers, who represented themselves to be hunters. The strangers' plan was to identify themselves as wealthy men from Chicago or some other place, and offer \$4 for the privilege of hunting on the farmer's premises. Consent being given, they paid the \$4 and then wrote out a receipt for the farmer to sign. The receipt turned up later as a promissory note for \$500, and as it was in the hands of a third party payment had to be made.

Notice.

A winter trip to Southern California and Arizona via the famous Shasta route is one never to be forgotten. Renewed acquaintance with this section will ever develop fresh points of interest and added sources of enjoyment under its sunny skies, in the variety of interests and added industries, in its prolific vegetation and among its numberless resorts of mountain, shore, valley and plain.

Two trains leave Portland daily, morning and evening for California. These trains are equipped with the most improved passenger standards and tourist accommodations, and the low rates place the trip in reach of all.
