Every one knows of the delightful balls the Native Daughters have given during the past, and this one will no doubt be the best and most enjoyable one they have ever given. The prices of admission are, gentlemen with lady, \$1; ladies and operators, 25 cents. The ladies are kindly requested to send a necktie, like the dress they will wear to the ball, to the committee, whose names will appear later, as the gentlemen will secure their partners for the grand march in this way.

AT THE OR WELL—The new contractors, Foster & Marsh, of Ashland, have begun active operations at the Unquap Valley Oil Co.'s plant at Myrtle Creek. Their first days work at drilling increasing the depth of the well eleven feet, which is the greatest depth yet reached in a single day's work since operations first began. The well is now down about 300 feet and the indications are very encouraging for oil. So President McCoy reports, who has just returned from a visit to the well. The company expect to be able to celebrate the flow of oil from this well on or before July 1st. The present contract calls for a depth of 1500 feet.

KICKED BY A HORSE—S. C. Bartrum, the PLAINDEALER's energetic solicitor, was quite severely injured yesterday by being kicked on the knee by one of his horses at his Deer Creek home. While no bones were broken the injury was such that he will be laid up for some time and will suffer considerable pain and inconvenience. The PLAINDEALER and Mr. Bartrum's many friends regret his sore misfortune.

BUILDING OPERATIONS—The contractors have the work well under way on Mrs. Parties new brick on Jackson street, and F. E. Patterson, the contractor, has the brick work about completed on the large new brick for Mrs. Hendricks at the depot. Work is also well advanced on the fine new residence of E. W. Woolley at the east end of Lane street.

On account of the irregular surveys of many of the townships in the Roseburg land district, it is almost impossible to locate section corners without a copy of the Government survey. Frank E. Alley, Abstractor of this city, has a complete set of tracings of all surveyed townships, and will furnish blue prints of same, showing all vacant lands.

Word has reached this city to the effect that Prof. E. J. Lea, of Cottage Grove who accepted the position of assistant chemist at the Government Experiment Station at Honolulu about three months ago, has received just recognition of his ability in his new field. He has been made head chemist at the station and his salary raised from \$1,200 to \$1,800 per year. Professor Lea is a graduate of the O. A. C. and has many friends in Corvallis who have long been aware of his unusual ability as a chemist and who rejoice to hear of his success and recognition in his new field.

Mr. J. G. Flook, of the J. G. Flook Co. was in Saginaw last week and purchased several car loads of cedar for their sash and door factory in this city. Mr. Flook reports that the price of cedar is a great deal higher this year than last and that he expects the price to still higher within the next few months, as there is a greater demand for Oregon wood in the east than there has been before.

Death of Thomas Baker.

—Died at Oakland, Oregon, April 11, '22. Thomas Baker age 63 years, 7 months and 8 days.

Thomas Baker was born in Hampshire Co., Virginia, August 4, 1858; he came to California when 16 years of age and afterward moved to Douglas county, Oregon, where he has since resided. He enlisted in the army at three different times, twice to serve in the Indian wars on this coast and once in the rebellion, during each enlistment he served with distinction, and was twice promoted during his service.

He has been a member of the M. E. church for the past 20 years and died with a firm faith in God, expressing a willingness to go if it was the Lord's will.

The funeral services were preached at the M. E. church at Oakland, at 11 o'clock, Sunday, April 16, by Rev. W. A. Allen of that place, interment in the I. O. O. F. cemetery near Oakland, the A. O. C. W. of which Mr. Baker was a member, conducted the services at the grave. The deceased left to mourn his loss, a wife, two daughters, three grandchildren and a host of friends.

His demise was due to nervous prostration incident to old age. His wife was a sister of Mrs. M. Martin of Roseburg. Two daughters survive him, Mrs. Dr. E. J. Page, of Oakland, and Mrs. Ralph Diamond of Ukiah, Calif.

The funeral was largely attended, not only by friends of Oakland but a number of members of the A. O. C. W. of Roseburg among whom were: Ed Lenox, Wm. Currier, J. R. West, A. Salzman and daughter Annie, L. A. Sanctuary, F. E. Hand, Geo. Collins, J. D. Thompson, W. E. Wright, John Kante and wife, Wilbur Ross, L. Wright and wife, H. T. McCallister, Prof. L. Barzee, Geo. Fainnick and wife, C. R. Cavender and wife Gilbert Olsen, E. Jennings, Finis Dillard, Mrs. D. R. Shanbrook and Miss Thornton.

As loved by sudden strokes, the rose Sinks on the garden's breast; Down to the grave our heart goes In silence there to rest. No more with us its welcome voice, No more its cheerful heart, rejoice, When peals the Sabbath bell.

But far away, in cloistered sphere, Amid a spotless throng, His soul is joining with celestial air, The everlasting song. No more we'll mourn our absent friend, But lift our earnest prayer, That when our work in life shall end We all may join him there.

It seems strange to see our mountain tops covered with snow in April.

We had a nice little social dance at the home of Mason Aldrich recently.

Mrs. F. A. Bristol is waiting with her daughter, Mrs. Harvey Lawson, of Ten Mile.

The prospects are very good for grain and fruit in this vicinity for the coming season.

Dr. John Friend was prospecting in the Coast Range mountains last Tuesday.

Mr. Clarence Pack expects to visit relatives in the Southern part of the state soon.

Henry Bushnell and Oscar Olsen have been doing some physical labor in the way of building a new fence.

T. J. Alexander, who lives on Mr. Vandever's farm, informs us that he has finished seedling this year.

Misses Rachel and Georgia Cooper, were absent from school several days during the past week on account of the high water.

Mr. John Vandever has returned home from a trip in the Willamette Valley. He seems to be well pleased with that part of the country.

We are informed from a reliable source that the Aldrich family formerly of this place, and now of Roseburg, are to return soon and permanently reside here.

Mr. Smith, a mining expert of Montana and a brother of Mrs. Col Day of this place has recently arrived here and we are informed that he expects to remain in Douglas county during the coming summer.

William Friend is engaged in cutting poles which he expects to saw with his new sawing machine as soon as the weather permits. He has erected several suspension bridges during the high water season to accommodate the school children.

F. D. Newland and wife who reside in our section last Thursday, he looks had Frank to see you visiting with Bill at such a time. You both being candidates for road supervisor, nevertheless we wish you both success in large sized chunks.

The recent rains and high water here caused much inconvenience in this community. Last Monday while attempting to aid the Combs children to cross the Olalla creek on their way to school, Harry Miller, a man of about 40 years of age came near losing his own life, as well as one of the girls he was aiding. The water was much deeper than was expected and their horse was compelled to swim and in attempting to do so lost its riders and they were compelled to go down the rushing river for probably one hundred and fifty yards before they could find water shallow enough for Mr. Miles to stand, and then he was compelled to stand in the swift current holding the little girl for about one-half hour, while the other girl ran for help and had it not been for the timely arrival of Mr. D. A. Presck, it might have been a sad affair. However they were both safely rescued and are rapidly recovering from their cold water bath. Mr. Miles was unconscious for several hours after his being rescued.

HE HAS OUR SYMPATHY

We were once a stick in the music business. We were so slow we would get in our own way and naturally we know how to sympathize with our competitor. It is very discouraging to run weeks, yes, even months, without making a sale when the other man is turning out from two to three instruments a week. But if our neighbor will clear up and take that forlorn and melancholy look off of his face, the next sale we get we'll turn it over to him and we will not mind one of the boys along to close the deal. Perhaps we should have paid no attention to his yells, as we are firm believers in the old saying, "You give the calf rope enough and he will break his own neck." Were it not for the people of Roseburg, who know him as they do, we would consider a back at him differently, but we think a news paper hit is degrading to business men as well as very annoying to the public. As for the Kingsbury being a stentail and as for the prices they have been sold for, we have referred this matter to the Cable Co., which is rated at \$2,000,000 and let them take up that matter with the gentlemen. We are surprised that a man claiming to have 12 years experience in the piano business does not know what a stentail piano is. As some one may be misled by his statement, we wish to state that a stentail piano is a piano with the frame stentailed on the Fall Board and nothing to show who is the manufacturer and where manufactured. We never have had such a piano in our store and we invite the public to inspect our piano on this point; but we hope you will spare our opponent as we are sure it would be very embarrassing.
