POLITICAL SPEAKING

TO-NIGHT
AT THE
Opera House

FULTON,
FURNISH,
ACKERMAN,
CRAWFORD

Will speak upon the issues of the campaign from a Republican standpoint. Everybody, irrespective of party affiliations, cordially invited. A special invitation to the ladies

MR. CHAMBERLAIN WOULD ABANDON THE PHILIPPINES

Mr. Chamberlain, Democratic candidate of governor, in his Roseburg speech said that the acquisition of the Philippines had become an established fact, but expressed the opinion, which corresponds with the "scuttle" plank in the Democratic platform, that the archipelago should be TEMPORARILY retained, but its relingushment should be soon. Thus, after all the hardships, expense and sacrifice of life attendant upon the acquisition and pacification of these valuable possessions, we are to abandon them to their unhappy fate, to become only in a little while the proud possession of some grasping foreign power. Will any intelligent voter sanction such a recreant opinion and policy at the polls in June? This the Oregon voter must decide before giving his support to a candidate for congress, governor, state senator or representative. We should not send to the lower branch of congress or send to Washington a senator believing in letting the Philippines go. That would be a backward step—an act that would cause Filipinos and Spaniards, who shot down the brave American boys, yes, members of the gallant Second Oregon, to snicker at our cowardice, forgetfulness, ignorance and lack of sagacity. If nothing else would make a man a republican this question should, and if anything should make a man a fighting republican it is the thought of the Stars and Stripes waving over the Philippines, and the fear that Old Glory might be pulled down and "Failure" stamped upon the American brow. Remember the utterance of our martyred McKinley, "There must be no scuttle policy," when yon prepare your ticket on June 2, and bear in mind also that the present era of unprecedented prosperity is due to republican legislation and administration.

A DEMOCRATIC HIRELING.

The rum-besotted hireling of the Democratic party at Drain continues to libel and villify Hon. A. M. Crawford and Senator Marsters through the columns of his blackmail sheet. No decent man and especially a republican, could but desire the opposition of that sheet and its dissipated black-guard editor, as the support of such a paper would condemn and relegate to utter oblivion any self-respecting man, be he a Republican or a Democrat. There is not an intelligent voter in the county but recognizes the fact that, as chairman of the county Republican central committee, Hon. A. M. Crawford's chief duty was to take an active part in directing the political affairs of the county, ably assisted by the various precinct committeemen, and had he failed to perform this duty, his resignation as chairman would have been very promptly demanded by the republicans of Douglas county. Again, as Senator of Douglas county, who has a better right and is expected to take more interest in the political affairs of the county than Hon. A. C. Marsters, and it is no fault of his if the rank and file of the republicans, without any solicitation on his part, look to him as one of their safest, most conservative and energetic workers.

The whole truth of the matter is Mr. Crawford secured the endorsement of the republican county convention for the nomination of attorney-general, simply from the fact that the delegates assembled from all parts of the county saw fit to give him the majority vote, and nothing was left for the opposition, but to trump up the old worn out charge of fraud as an excuse for their defeat, when it was accomplished fairly and squarely, and all parties should accept gracefully and as final the work of the convention. As a hireling of the Democratic party the bleary-eyed gin-mill at Drain is only expected to oppose the Republican ticket and in his weak way support Democracy, but that does not license him to libel and villify decent men, which action however, only reflects discredit and heaps contempt upon himself and his democratic managers. A fit subject is Kelly to do the dirty work of the Democratic bosses and a few disloyal Republicans, and were it not for the fact that he is totally depraved, devoid even of self-respect and common decency, and exerts no influence whatever we might condescend to give him some consideration, but as it is we are naturally a little reluctant about fighting with a skunk.

For the two years from July 1, 1898, to July 1, 1900, the county was under a union administration and the county debt was reduced nearly $9000.—Roseburg Review. Yes, and the big East Umpqua bridge collapsed on account of the union county judge refusing to make the slight repairs on it, which would have preserved it for many years; the big Umpqua Ferry bridge, the Calapooia bridge and many other important bridges came near doing likewise, before the union Judge resigned and a Republican Judge could make the necessary repairs. It is very easy to REDUCE the county debt under such methods, but it is exceedingly hazardous to the life and property of the county's tax payers. If the voters desire a repetition of Democratic false economy and foolishness, why, vote for the Democratic candidates for county judge and commissioners.

The fact that Zopher Agee is a "nice boy" is no reason why he should be intrusted with the very important and responsible position of clerk of one of the largest and most progressive counties of the state, a position which also includes a membership of the board of equalization. To place so young a man and one with so little business experience in such a responsible position, especially as a successor to a man of such mature judgment, so faithful to duty and the trust reposed in him, and so eminently well fitted and qualified for the position as David R. Shambrook has proved himself, would be little less than an outrage. We don't think the voter will do it.

To talk about electing the Democratic ticket in order to put down corruption and ring methods is like advocating the fanning of the flame to extinguish a fire. If there is any thing the Democrats have an established record on it is corrupt methods and machine politics. Look at Tammany for instance, and now, they have captured and put into operation on a more elaborate scale than ever, the notorious Simon machine at Portland. Do the voters want to establish a Tammany Hall and Simon ring in this county? If so, vote the Democratic ticket.

The Review's silence on the virtues, qualifications and fitness of its county candidates for office leads one to believe it is entertaining a forlorn hope for the election of the Democratic ticket in this county. It is not unlike the school boy who was told by his teacher that he must study hard or he never would be President of the United States. "Well, I don't expect to," he replied, "I'm a Democrat."

The Democratic county candidates opened their campaign at Glendale last Saturday, and were accompanied by O. P. Coshow the Roseburg attorney, who acts in the capacity of spell-binder for the aggregation. If Mr. Coshow is repeating his convention speech while swinging around the circle, it will be safe to place your estimate of the republican majorities a few notches higher.

"Gene" Parrott, while vigilant, brave and daring—a terror to evil doers—has during his term as sheriff proven himself a safe, efficient and cool headed officer of the law. He makes no fatal nor even insignificant blunders. He is the kind of a man Douglas county needs for sheriff and he will be re-elected.

Union labor organizations will do a little figuring in this election, and their interests in the Oregon legislature will be ably championed and guarded by Jas. M. Hansbrough, the genial and popular Republican candidate for joint representative of Douglas and Jackson counties.

One of the Kansas fellows who lately returned home from Douglas county told his home paper that the mud was knee deep in this county. What there really is, and there is considerable sometimes, is being used by the Drain Democratic Gin-mill in the present campaign.

Mr. Chamberlain said his opponent was "termed a good fellow which probably means that he isn't worth a whoop in Hades." We wonder if this is the reason Mr. Chamberlain is so frequently referred to as the "good fellow" gubernatorial candidate?

Ira Wimberly, the demo-probi candidate for representative, sent a report of the democratic speaking over to Drain Thursday evening, which the Drain Gin-mill published Friday as an important special. Great enterprise, indeed!

Prof. Wann, Democratic candidate for state school superintendent, ought to be popular with the truent and drone students, in his advocacy of fewer studies in school, shorter school hours and no home study.

Now May has arrived, and during her 31 days perhaps she will succeed in winding up the affairs of Winter.

Mr. David Bennett Hill and Mr. William Jennings Bryan are beating each other around the bush.

SUPREME COURT DECISIONS.

Opinions Handed Down in the Welch Case and Also Case of Wollenberg & Marks vs. Rose.

State of Oregon, respondent, vs. L. L. Welch, appellant; appeal from Douglas county; R. P. Boise, judge; opinion by Justice Moore; affirmed.

This is an action by the State vs. L. L. Welch, charging him with criminal assault. The state proved that the defendant had cohabited with a female under the age of 16 years for five weeks in a room that contained but one bed. Having been sentenced to three years in the penitentiary, he appeals, assigning as error the action of the court in refusing to instruct the jury to return a verdict of not guilty. Appellant's counsel contend that the state proved an opportunity to commit the crime, but nothing more. The girl having committed suicide, and there being no witnesses to the overt act, the commission of the crime was inferred from circumstantial evidence.

In view of the fact that the girl had been for about two years prior thereto an inmate of houses of ill-fame, and that the room she occupied with the defendant contained but one bed, it was held that the evidence was sufficient and that the court committed no error in refusing to charge the jury as requested.

The judgment was therefore affirmed.

H. Wollenberg, as administrator of the partnership estate of S. Marks and A. Marks, partners as S. Marks & Co., respondent, vs. J. F. Rose, appellant, appealed from Douglas county; opinion by Justice Wolverton; modified.

Rose brought suit against Wollenberg as administrator to recover $794.30 for 1075 bus. of wheat alleged to have been sold and delivered to the firm of Marks & Co. Wollenberg answered denying the material allegations of the complaint and alleged that October 1, 1892, members of the defendant firm entered into an agreement with Rose for the sale of a 160-acre farm at an agreed price of $1500 payable $500 in one year and the balance in a reasonable time, with 8 per cent interest on deferred payments, and alleging that the wheat was delivered in part payment for the land. Plaintiff also filed a crossbill in equity, in which he sets up the verbal agreement concerning the land, and sets forth that Defendant Rose was in possession of the land, receiving the rents and profits therefrom; that a balance of $1345.72 remained due on the place, and that plaintiff was willing to execute a deed to the land upon payment of the balance of the purchase price. In this bill plaintiff asked that his lien be foreclosed. A demurrer was interposed to the cross complaint, and, this being over ruled, the defendant filed an answer consisting of specific denials except for the admission that Marks held legal title to the land. Decree was awarded defendant in the lower court, and the plaintiff appealed.

The court holds that a deed to property from the lawful heirs of S. Marks & Co. would remove all cause of complaint, and, finds that the proofs are clear in support of a verbal agreement between Marks and Rose for the purchase of the 160-acre farm. It is further held that a reasonable time for the payment of the balance over and above the $500, the first payment agreed upon, has elapsed, and the whole of the purchase price has become due and payable.

The court decrees that the defendant pay the amount due in the verbal agreement within 90 days or be foreclosed of his interest in the land.

MYRTLE CREEK ITEMS.

Shooting of Tommy Owens Greatly Deplored. A Model Young Man.

It is with sad regret that the people of this place look upon the carelessness of an officer to cause the death of so highly respected a young man as Tommy Owens. He was one of a thousand who had reached the age of 21 years and was never heard to use a word of profanity or bad language of any kind; he never used tobacco in any form nor knew the taste of intoxicating liquor of any kind. A bright young man of good education and a favorite in all Christian, social and moral work, and entertainments of this place and districts adjoining. The family to which he belonged is esteemed very highly and have the united sympathy of all who know them.

E. G. Taylor, of Anaconda Col., has been out to inspect the Little Chieftain and Continental mines and as an expert mining man pronounces the fissure on which those mines are, equal in value at 70 feet to the Cripple creek fissure at 700 feet in depth. Mr. Taylor came here with Carl Heavenrich, who is from Saginaw, Mich., on an inspection tour of some very valuable timber and mining lands in which he is interested. Those who had the pleasure of meeting Messrs. Heavenrich and Taylor feel that Douglas county, and Myrtle Creek in particular, will be profited very much from what these gentlemen know and have seen of Myrtle Creek timber, water power and high grade ore ledges and prospects. The owner of the Little Chieftain, also of the Alzora and Goldbrick are considering the advisability of forming themselves into companies incorporate so they can operate those rich fissures continuously and vigorously develop and promote the great industry that has for ages, in her own quiet way been inviting men of mind, money and energy to take hold and brighten this county, of great possibilities, and not further wait for the speculative bonding man, with all his chronic kicking about the roads, the weather etc.

WAR EXPENSES.

Cost of Ammunition at Manila and Santiago.

An echo of the thrilling days of the Spanish war has recently been heard in a most interesting return made by Rear-Admiral O'Neil, Chief of the Bureau of Ordnance, U. S. N., in which he gives the total cost of ammunition in the decisive battles of Manila and Santiago. At Manila Bay the ships under Admiral Dewey fired at the Spanish ships and batteries at Cavite, $50,045 worth of ammunition, a remarkably low figure if we consider the momentous effect which that conflict had upon the operations of the war at large, and the fact that it was mainly instrumental in bringing the valuable Philippine Islands within United States control. At the battle of Santiago, the main batteries of the United States vessels fired 1,300 shots, and the secondary batteries 8,174 shots; the cost of the ammunition being about $80,000. The total cost of powder and projectiles of the naval operations in the Spanish war was only $175,000. As was showed in a recent article in the Scientific American, the gunnery practice of the North Atlantic Squadron costs considerably more in a year than the whole cost of ammunition expended in either of the important battles of the campaign and herein is clear evidence of the great importance attached to good gunnery in the United States Navy.

Women Are Like Flowers.

Poets have been fond of likening woman to a flower. Her fairness is flowerlike. Her sweetness suggests the flower fragrance. Her very fragility finds its type again in the frail flower, which languishes when neglected, and is so easily destroyed. It is a pretty simile and almost as perfect as pretty.

All women love flowers, and every woman who grows them knows that their health depends on daily care. Not alone are water and sun-shine necessary to the health of the plant. Their insects and pest must be guarded from the parasites which soon destroy the flower's beauty and undermine its life.

If a woman would care for herself as she does for her plants she would preserve her beauty and retain her strength far beyond the period when the average woman looks old and feels older than she looks.

THE GREAT SECRET

Of woman's preservation of her beauty lies in the intelligent care of the womanly health. So close is the relation between the health of the delicate womanly organs and the health of the whole body that whenever the feminine functions are deranged or disturbed the consequences are felt by every nerve in the body. Severe headache, backache, pain in the side, and bearing down pains are borne with by so many thousands of women that one who is in sound health is a rare exception. Most women would give anything to know how to be cured. The way is very plain. Follow the path made by more than a half a million women who have been perfectly cured of womanly ills and weakness.

"I believe I owe my life to Dr. Pierce's Favorite Prescription and 'Pleasant Pellets,'" says Mrs. Maria G. Hazel, writing from Rockland, ... [illegible] ... how thankful I am to God and Dr. Pierce."

NOTHING IS SURER

Than the effect of Dr. Pierce's Favorite Prescription. It makes weak women strong, sick women well. It regulates the periods, stops disagreeable drains, heals inflammation and ulceration, and cures female weakness. It prepares the wife for motherhood, gives her vigor and physical strength, so that the birth hour is practically painless. It is the best of tonics because it contains no alcohol, neither opium, cocaine, nor any other narcotic. For working women in the home, store or schoolroom it is an invaluable medicine. It quiets the nerves, increases the appetite, and causes restful and refreshing sleep. Nursing mothers will find no tonic so beneficial to mother and child as Dr. Pierce's Favorite Prescription.

WHAT SHALL I DO?

That question is often on a woman's lips, for of her it is expected that she shall be ready to do something in any emergency in the home. When that question refers to health, sickness or disease the answer will be found in Dr. Pierce's Common Sense Medical Adviser. This great work contains 1008 large pages, and is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book bound in paper or 31 stamps for the volume in cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

COMING AND GOING

Now that our business is spreading out and increasing, it is impossible for us to land a full car load of instruments at Roseburg at one time. Our last car load was distributed, commencing at Portland; some went to Bandon, some to Jefferson, some to Raseburg, but the bulk of them we landed at Cottage Grove where we are doing an exceedingly fine business, disposing of eight instruments including two fine Chickerings three Kimualls a fine Whitney and two of cheaper makes. Cottage Grove is in a very prosperous conditien and the people are using good judgment in buying the very best pianos on the market, knowing that the best is always the cheapest. Our next carload will arrive in about six days. This lot will be distributed here at Roseburg as we have nearly one-half this lot already engaged at different points; now that the roads ar getting in good condition we will be able to make our country deliveries in a short time. K. N. Wonacott the popular organ man, is now busy making deliveries and calling on his old friends. Miss Foreman, our sales lady, has been very successful in the sale of pianos, and especially the Whitney, as it is a favorite of hers, and it makes friends wherever it goes. The stock we have on hands will be closed out in a very short time as we have put the prices away down. We are also representa ives of the Eiler's Music House, Portland, Ore. Don't fail to go see Eiler when you go to Portland.
