THE MISTY DAY WE CELEBRATE.

Tomorrow is the one-hundred and twenty-sixth anniversary of our National Independence and the day promises to be more enthusiastic and patriotically celebrated throughout Uncle Sam's broad domain than ever before since the day the adoption of that famous document, the Declaration of Independence, was heralded to the world, except here in our own beloved and misty Oregon, where from the earliest, down to the present day, the fires of our pent-up patriotism have been wont to smolder under a down-pour of the traditional "Oregon Mist" on this our Nation's annual natal day. This year, as you have probably observed, affords no exception to the rule, but there is a degree of consolation in the fact that instead of holding off until our flags, bunting, banners and draperies were hung to the breeze, old Jupiter Pluvios asserted his ruling passion two full days prior to the day we celebrate, thus springing us from the usual exuberance of patriotism on the part of the Webfooters tomorrow, a more patriotic, loyal and liberty-loving people are nowhere to be found throughout Uncle Sam's expansive domain. Here to the proud American eagle, long may he flap his wings over this great Yankee universe.

CONGRESS HAS ADJOURNED.

Congress finally adjourned on its business and adjourned Tuesday, which on the whole was as good a day for adjournment for the country's interests as a later one. Most of the important business has been transacted; more would have been possibly more harmful than beneficial; and the country will get along quite as well and feel rather easier in its mind. Yet Congress has done considerable effective affirmative legislation. It provided quite liberally for rivers and harbors and for public buildings; it passed an irrigation law; it repealed some of the war revenue taxes; it passed the dairy man by passing the anti-oleo bill; it re-enacted Chinese exclusion; it provided for renovating the White House; and it passed a Panama Canal bill, all of which is important and legislation in the right direction.

Bryan declares Cleveland ruined the democratic party and Cleveland retorts that Bryan did it. These gentlemen can compromise the matter in a manner satisfactory to the general public by each assuming half of the responsibility. Cleveland began it and Bryan finished it.

The Salem Weekly Democrat has gone into the great beyond. It was established a short time prior to the election and continued publication longer after the campaign closed than was generally contemplated. Its a hard life for Democratic Campaign sheets in Oregon.

The deluge prevalent in some of the Middle Western states seems to have spread over to Oregon, but perhaps it will clear up after the Fourth.

The farmers who have large amounts of hay cut and out in the fields will not feel like celebrating the glorious Fourth very enthusiastically.

Theoretically, there is a Democratic party, but when an attempt is made to get down to business no one can describe its principles.

Protective Tariff does not affect J. P. Morgan a particular, one way or another. He has even gobbled up the ocean carriers of Tariffed goods.

The business world is heartily glad there was no tariff tinkering, in any form, during the recent session of Congress.

The party of the homestead law now adds irrigation to its achievements in behalf of the hardy pioneer settler.

CONVICTS AGAIN APPEAR
 Bind and Rob an Old Man Near Olympia.

TACOMA, July 2.—A rancher named McCloud, living at Belmont, five miles west of Olympia, rode into town this morning and reported that just after dark last night the fleeing convicts, Tracy and Merrill, entered the house of an old man who lives alone next to McCloud, stripped the old man of his clothing, bound him tightly, took other clothing and all of the provisions in the house, washed and shaved themselves, and departed about 11 o'clock at night.

PORTLAND LIVE WIRE ACCIDENT
 Train Blown From the Track. The Strike Situation is Growing Very Serious.

PORTLAND, July 2.—A rancher named McCloud, living at Belmont, five miles west of Olympia, rode into town this morning and reported that just after dark last night the fleeing convicts, Tracy and Merrill, entered the house of an old man who lives alone next to McCloud, stripped the old man of his clothing, bound him tightly, took other clothing and all of the provisions in the house, washed and shaved themselves, and departed about 11 o'clock at night.

CONVICTS HAD A GOOD TIME.

TACOMA, July 2.—A rancher named McCloud, living at Belmont, five miles west of Olympia, rode into town this morning and reported that just after dark last night the fleeing convicts, Tracy and Merrill, entered the house of an old man who lives alone next to McCloud, stripped the old man of his clothing, bound him tightly, took other clothing and all of the provisions in the house, washed and shaved themselves, and departed about 11 o'clock at night.

COALMINERS STRIKE.

Hazleton, Pa. July 2.—The coalminer strike situation is becoming ominous. Threats of violence are freely made. It is feared that bloodshed may result at any hour.

LIVE WIRE ACCIDENT.

Portland, July 2.—Two horses were killed by coming in contact with live wires here today. The driver had a very narrow escape.

TRAIN BLOWN FROM TRACK.

Bombay, India, July 2.—A cyclone struck a passenger train near here today while running at full speed and blew it off the track. Thirteen passengers were killed and 15 injured.

SHORT TELEGRAPHIC.

A bill was passed by the Senate to give Rear-Admiral Schley the pay of a Rear-Admiral on the active list instead of a retired Rear-Admiral's pay.

A dispatch received at Valdez from Kotzebue, Alaska, under date of June 21, says: "Mount Wrangell is in plain sight of here and great clouds of black smoke can be seen rolling up from her crest."

Bandon is to have a new match factory. A building is now being prepared for that purpose and the factory will be in operation within 10 days. This enterprise will give employment to a number of men.

The big Alaska Steamship Oregon sprung a leak off St Michaels recently and was compelled to put into Dutch Harbor and beach for repairs. Eight feet of water was found in her hull. It is thought the vessel can be repaired.

A low estimate placed on the damage wrought within a radius of 150 miles of Alton, Ill., by the storm of wind and rain Saturday night and Sunday, is \$1,000,000. In the American Bottom farming districts the farmers are ruined.

The long overdue steamers Portland and Jeannie, and the revenue cutter Thetis are reported locked securely in an ice-pack off Cape Prince of Wales on the Eastern Side of Behring Strait. All the passengers are safe and have plenty of provisions. The ice-pack is expected to break up soon and release the imprisoned vessels.

Senator Bailey, the Tillman of Texas assaulted Senator Beveridge of Indiana at the entrance to the Senate Chamber Monday evening. They were separated by friends. Beveridge has been receiving all sorts of congratulations for the manner in which he conducted himself during the encounter. He says Bailey did not choke him.

Mrs. Mayme Looney, of Sedalia, Missouri, arrived on the local Monday evening to spend the summer with her cousins, Mrs. J. A. Buchanan and Mrs. J. A. Perry. Mrs. Looney and her mother spent the summer here two years ago, and she has many friends here who will be glad to see her again.

Notice.

Mrs. Smick, a post graduate of the Northwest Conservatory of Music, will give music lessons either on the organ or piano at her home two miles east of Roseburg. Also lessons in either choral, oil, pastel painting, or crayon. 7-17p.

SPRUCE TIMBER SCARCITY.

Paper-Makers May Be Driven to the Use of Some Other Wood or Material.

The forthcoming report of S. W. Matthews, commissioner of labor for the state of Maine, will contain a chapter devoted to the pulp and paper manufacturing of the state. A table will be published showing the acreage of spruce timber lands in Maine, the amount of that wood used each year for manufacturing paper, and give other data concerning the industry. The commissioner will also urge the adoption of some other material, if possible, from which news paper can be made, says the New York Times.

An experiment now being made in Missouri with cornstalks for making paper is being watched with interest here. It is said that thus far success has been made with that material and a good quality of paper has been made. Much of the timber cut in this season to prevent the complete termination of that valuable tree, the paper-makers are, therefore, doing much thinking as to what course to pursue, and it is likely that before long they will substitute poplar or birch for spruce timber.

MISCELLANEOUS ITEMS.

New York has twelve times as many churches as Berlin.

Refreshments are not served at parties because guests are hungry, but because guests are hungry, they eat refreshments.

A firm in America is turning out large quantities of paper tiles which are used for roofing. They are reported to be hard and tough, and the glazing appears to be of the nature of Japanese lac. They are said to be exceedingly cheap, and can be fashioned in any color or shape to suit the purchaser.

According to official reports the weight of paid mail matter originating in Chicago during the 33 days between October 3 and November 6, when the mails were officially weighed by the government, was 3,882,900 pounds. Counting government free mail, postages and sacks, the total weight was 4,976 tons. During the same period the postal receipts from stamps and postal cards was \$66,948.

It is proposed to award to the number of accidents that occur each year in the Maine legislature pass a law prohibiting the wearing by hunters of buff-colored clothes which may be mistaken at a distance for a deer. Ordinary hunting clothes are the worst possible thing for a man to wear in the northern woods. Accidents have been most frequent and several hunters are killed annually, often being shot by their friends, who think they see a deer.

Great Salt Lake is receding on account of the excessive drain made upon it by irrigation enterprises. This is not felt by underground springs, but by the Jordan and other rivers, and when the waters of these streams are intercepted by irrigation canals the water supply of the Salt Lake is, of course, diminished so that the evaporation, which is constantly going on, is not made up by a new supply. In time it looks as if the lake will be only a bed of dry salt.

The director of the meteorological survey on Mount Blanc has been considering the advisability of installing the Marconi wireless telegraph system upon the mountain. The ordinary system of telegraphy is used normally, but the great snow drifts have always been with the telegraph wires. It is believed that the wireless system of telegraphy would prove not only valuable from a scientific point of view, but would also increase the safety of travelers upon the mountain.

Bargains in Wheels.

We have in stock several second hand bicycles which we will sell at very low prices or trade for wood.
