Educational Notes.

By R. HAMILTON, School Supt.

The next regular teachers examination will be held at the Court House August 12-16. Full notice of the same should be given in this issue. The program for the Annual County Institute to be held in Roseburg, Aug 6th to 9th is about completed. Besides the regular instructors Prof. Rigler, Supt. Ackerman and Pres. Orant, and several of the prominent local teachers are to take part.

There will be three free public lectures during the week. The local entertainment will be excellent. The music will be under the direction of Miss Hazel Perry. Full program will be published in the next issue.

Under the new law no school is allowed to be in session during an Institute, and all teachers in the county, whether teaching or not, in order to keep their certificates in good standing, must attend at least 16 hours during the session. This applies to those holding state certificates and state diplomas, as well as those holding County papers.

Quite an interest is being taken in the coming Institute by school officers. Several will take part in the special program for Saturday. A number have written, saying that they would try to attend the full session, not only for the benefit derived from the exercises, but to get acquainted with the teachers that they might be the better to make decisions in the future.

This is as it should be. We must all work together for the welfare of the coming generation—teachers, board of directors and patrons—and in order to do so we must become acquainted and understand each other.

A limited supply of the new course of study for the Public Schools of Oregon has been received. Any teacher desiring a copy can have the same by calling at this office, or upon request by letter, enclosing 2 cent stamp
