LATE NEWS SUMMERIZED.

State, General and Foreign News Condensed for the Perusal of the Busy Reader.

The Chicago messenger boys, who struck Friday last for more pay received their demands.

California is being shocked. Of course it is earthquakes, as nothing else would disturb that state.

The steamer *Donkey* arrived in Seattle from Nome Monday bringing down a million in gold dust.

A six-foot vein of stream coal has been struck by the Southern Pacific mining crew near Astoria, Jackson County.

The ten-stamp mill at the Muskogee mine near Cottage Grove, which has been idle for two years, has again been put in operation.

As a result of the heavy run of fish the price of salmon at Astoria was cut from 6 to 4 cents per pound. No limit has yet been put on the boats.

It is stated at Ashland that J. W. Williams and other capitalists of Council Bluffs, Ia., are to purchase the Jacksonville and Medford railroad.

The total wheat yield of the nine valley counties, Benton, Polk, Linn, Lane, Marion, Washington, Douglas, Yamhill and Clackamas, for this year is placed at 2,500,000 bushels.—Ex

Martha Wilson, a school teacher of Stayton, has begun an action at Salem, against David B. Smith, a Station merchant, for \$6750 damages for breach of promise to marry.

Amos D. James of Des Moines, Ia., has been found dead in a prospect hole 15 miles east of Medford. Corporal Pickel of Medford, at the instant found the man had been killed by a cave-in.

Plaintiffs charge that Charles Walker drank intoxicants to excess at M. S. S. Saloon, and in consequence was thrown from a log and killed. A verdict giving the plaintiff damages was appealed.

Chinese Minister Wu Ting Fang is beginning to pack his household goods preparatory to turning over the legation to his successor, Sir Lang Chung. He is receiving requests for souvenirs from his admirers all over the country.

Eugene's street fair will begin Sept. 24 and end Sept. 27. It is being gotten up on an elaborate scale and will be the finest thing ever presented in that city of this nature. There will be a contest for the carnival queen in a few days.

Articles of incorporation of the Oregon and Idaho Central Railroad, capital \$6,000,000, were filed yesterday in Baker City. The line is to run to Seven Devils, Idaho, and work is to be started immediately. Eastern capitalists are behind the project.

The earthquakes are circulating around promiscuously, Iowa, Nebraska and South Dakota being slightly shaken up yesterday. That is about the last region in the continent in which one would expect an earthquake, but it is the unexpected that happens.

Tillamook County will produce 1,500,000 pounds of cheese this year, an increase over last of 300,000 pounds. "And the price this year," said Dairy and Food Commissioner Bailey, who has returned from there, "ranges from 11 cents, to 14 cents, a better price than formerly."

It is now generally believed that if the King should be able to attend the coronation set for August 9 it will be only as an invalid as it is now considered certain that with the most favorable progress that can be expected he will not be able to walk by that time. No little amazement of his recovery prevails and the predictions freely made that he will never again be a really well man.

An alderman in Wilkesbarre, Pa., has issued orders to the city council that, while heing must stop. He proposes that any man who beats his wife must "fight him to a finish" the next day and be fined in addition \$20. The alderman is a powerful man and he will punch all big little, old and young, if they are wife beaters. Most people will wish him success and hope his punishing ability will ever remain active, and his heroic resolve prove fruitful.

Frank Carlson, 19 years of age, is dead and George Baldwin is in the Portland city jail charged with murder. The trouble arose over the courtship of Ida Fiddler and Josephine Smith, girls employed at the Villard hotel on North Front street. Both young men expressed to the affection of the girls with the result that feeling of hatred was engendered between them. It was mutually agreed by the principals, and their friends, that the matter be settled in a fistie encounter. This took place near Nicolodi and Twenty-fourth streets, Saturday evening at 7 p. m. The battle which was without gloves, was viciously waged with the result that Carlson was killed by a blow over the heart. Baldwin gave himself up to the police.

Swear Words Were Justifiable.

St. Louis, July 29.—Judge Sidenero in the first District Police Court, has fined Dr. Gettys, a West End physician, for using profanity over the telephone. The court said it was always aggressive, and never excusable by the plea of self-defense, that outfit harried at a person in another jurisdiction by phone are punishable in the jurisdiction in which the offense was committed.

The doctor "cussed" because it took him three-quarters of an hour to get a connection.

Notice of Settlement.

W. A. Everett having disposed of his laundry business, all parties, knowing themselves to be indebted to him, will please pay the same to Atty. C. S. Jackson at their earliest convenience. (a30)

W. A. EVERETT.

LATEST NEWS.

Bold Train Robbery and Fight in Utah—Iowa Republicans Score Trusts—Other News.

OGDEN, Utah, July 30.—Three hobos coolly held up and robbed a passenger on the Rio Grand Western train here last night. A detective who went in pursuit of the robbers was in turn held up and relieved of his revolver, handcuffs and other paraphernalia and told to hurry away, which he did. A posse headed by several policemen took up the pursuit of the robbers. They came up with them, and in the exchange of shots which followed Policeman Farr was severely wounded. The robbers then fled toward the hills north of the city. Bloodhounds from the state penitentiary at Salt Lake were telegraphed for and were put on the track of the robbers this morning.

IOWA REPUBLICANS MERCILESS TO TRUSTS.

DES MOINES, Ia., July 30.—The Republican State Convention convened at 11 o'clock, in the New Auditorium, with a large attendance. On the platform were Senators Allison and Dolliver, Secretary of Agriculture Wilson, and the full Congressional delegation, with the exception of Captain J. W. Rumble, who is ill in Chicago. Congressman Walter I. Smith, temporary chairman, said:

"We have seen the great, courageous and honest man who now occupies the White House attack the Northern Securities and the beef trusts, under the law as it is, and it will require something more than the baseless insinuations of Democratic statesmen to convince the American people that the fight thus instituted is not a battle to death. The Republican party fearlessly uses every means in its power to reach this great evil and where modifications of the tariff would be useful to that end without serious injury to the laborers of this country will not hesitate to resort thereto."

REVOLUTION IN HAYTI BECOMES SERIOUS.

WASHINGTON, July 29.—The Navy Department today received the following cablegram from Commander McCrea, who is in command of the gunboat *Nashville* at Cape Haytien: "The state of affairs is very bad at Cape Haytien. An unorganized mob is in full control of the city, and the foreign consulates are in momentary danger of attack. Should active hostilities commence, I shall give them protection on board the *Nashville* and will prevent any bombardment of the city without due notice."

SALOONIST HELD RESPONSIBLE.

ST. LOUIS, July 29.—According to a decision of the United States Circuit Court of Appeals, which affirmed the judgment for plaintiffs of the Federal Court of Nebraska, a saloon-keeper may be held responsible for the death of a patron of his place in the event that death occurs from an accident resulting from the inebriated condition of the patron. The suit was filed by the widow and daughter of Charles Walker against John Moser and others engaged in the saloon business at Ashland.

A STRANGE UPHEAVAL.

NEW YORK, July 29.—The town of Stratford, N. Y., now has, according to a Press dispatch from Little Falls, a strange upheaval of the ground. Tons of sod, gravel and stone were tossed in the air and landed on a knoll 12 feet higher than their original place. The debris covers a space 100 feet square and is more than six feet deep. It is believed lightning ignited a vein of natural gas and caused an underground explosion.

MUST PROVE FIGHT FAIR.

SAN FRANCISCO, July 29.—Since so much dissatisfaction and suspicion has been raised over the Jeffries-Fitzsimmons fight, Mayor Schmitz today officially announced that the pugilists must prove that the fight was on the square. Unless such is done no more prize fight will be permitted in San Francisco under his administration.

SHEPHERDERS SHOT.

SARATOGA, Wyo., July 29.—Don Martinius, a Mexican shepherd, was shot and killed near Copperton, by M. A. Steep, a miner, better known as "California Red." Another herder was also shot at but escaped injury. Steep went to battle and gave himself up. He claims the shooting was done in self-defense.

FATED OLD JOHNSTOWN.

JOHNSTOWN, Pa., July 30.—On account of the spreading of the rails the fast mail train leading into this city plunged down an embankment near here this morning, and four people were killed outright. Many others were seriously injured.

FATHER MURDERS SON.

MORROW, Idaho, July 29.—While in a drunken fit of rage today, Edward Baker stabbed his young son to death before the eyes of his wife and small children. Lynching was threatened but officers arrested Baker and took him to jail.

FATAL ACCIDENT AT A FIRE.

DES MOINES, Iowa, July 30.—During a fire in this city today in which \$50,000 worth of property was destroyed, David Denham, a watchman, was killed by falling timbers from a burning building.

FUTURE OF COOS BAY.

Portland Man Predicts a City of 50,000 Population Within Ten Years.

PORTLAND, July 29.—"It is my prediction that within the next 10 years, Marshfield, on Coos Bay, will be a city of 50,000 inhabitants," declared Dr. L. M. Davis, who has just returned from a trip into the Coos Bay country, an excursion which has opened his eyes to the possibilities of that country.

"Why do I think so? Because of the possibilities of that country, but primarily because of the natural harbor and good harbor they have there. Before I visited that country I was of the opinion that the bay was shallow, but find they have 24 feet of water at low tide. It makes one of the best harbors on the coast. There are now five schooners on the bay, which will cost \$70,000 a piece. These schooners are 275 feet in length and will carry four masts. I presume they are intended for the lumber and coal trade.

Speckles has a big coal bunker there, as have Goodall & Perkins, and they are shipping from one to five boatloads of coal to San Francisco each week.

"Then, too, the Coos Bay & Salt Lake City road is taking up contracts for a right of way and will start their work this coming week. This will make a transcontinental road right into Coos Bay, which taken with the natural advantages and the lumber, coal, farming and dairying interests, gives large openings. Marshfield now has a population of 2000, but is bound to grow."

"Neighbor Roosevelt"

It is an agreeable sight—we can take it in mentally if not visually—and a significant proof of the virile youthfulness and still green democracy of our country, to see the President of the United States, a man who has more real power than any monarch or potentate on earth except perhaps the Czar of Russia, changing from the seat of government not to some battlemented castle or interior royal palace, but to a modest seashore cottage; not to be surrounded by courtiers and lackeys, but to go and come work and play almost as a private man; his business changing from receiving envoys of the greatest powers to neighborly familiarity with fishermen and lumbermen; from conferences with stiff and pompous Generals to a laughing reception of a delegation of cowboys riding up without ceremony in cowboy style and costume. It is President Roosevelt all the time; nobly forgetting that; but down at Oyster Bay it is "Neighbor Roosevelt."

No other government of the world, save Switzerland, feels itself secure enough to so much de-lay with the divinity that doth lodge about a King. No other government is vigorous and democratic enough to make a Summer capital out of a village with only a 10-bed tavern for public accommodation, or to establish its executive offices in a dentist's parlor, situated over a billiard room, where pool is played at 24 cents a cue. Yet no true American loses any respect for the President because he is, now principally "Neighbor Roosevelt."—Telegram.

Profitable Hop Crop.

A well-known Portland railroad man makes a statement that will cause some amazement. He says that last spring a man in Polk County offered his ranch of 300 acres for sale at \$6000. There is only a small part of it under cultivation, and in that which is under the plow 30 acres were included and put into hops. At the ruling prices offered for hops the crop produced on this 30 acres has been bargained for and will easily bring \$4000. The Polk County man is probably glad he did not sell out, but what he regrets now is that he did not raise a bigger crop of hops.

An Eastern News Item.

Harry Tracy, the escaped Oregon convict, still has the militia captured in the woods, and single handed and without arms he is resisting all efforts to surround them. He demands a ransom of \$75 a head, and girls who have sweethearts in the militia are trying to raise the money to get them out, though women whose husbands are prisoners are not so zealous. Tracy has allowed the men to communicate with the outside world, and they say they are treated with courtesy and kindness. Tracy is a very gallant man. He went to the calls to the prison yesterday to render aid to woman in distress. When he appears the men on the streets fave.

State Normal School.

Let those expecting to attend the Normal bear in mind the date of opening—Monday, September 8th—and if possible be on hand the first day.

The Normal essays to put students and teachers on a footing that leads to good certificates. Review work is a feature of our course. The coming year the Normal will be more a home than ever before. Material internal and external improvements of the school buildings are making for the enjoyment and benefit of students. Physical education is a part of the course.

Strong work in English and mathematics will be given from a practical point of view; also in science.

Letters from students, old and new, say, "I'll be with you next year."

The success of our graduates has created a demand for Drain Normalites in good schools. The Normal has helped many to good positions and will help you if you will let it.

For information, address at J. H. Orent, president.
