A SURE CURE
For Ingrowing Toenails

With a fragment of glass scrape the whole length of the middle of the nail. Do this persistently, yet delicately. Cautiously raise the corners of the nail and pour in a few drops of melted lead. CAUTION—Don't swear. Wrap the toe in a piece of woolen cloth, tying it with pink baby ribbon, finishing with a graceful bow at the top. Then wear
QUEEN QUALITY SHOES.
FLINT'S SHOE STORE

LATE NEWS SUMERIZED.
State, General and Foreign News Condensed for the Perusal of the Busy Reader.

The wool clip of Oregon is estimated at 9,500,000 pounds this season.

In Crawford County, Pa., it rained every day in July. This beats Oregon's record in any month.

The socialists beat the prohibitionists in the late contest just a little—288 votes. Their combined vote on Governor was 7,254.

Late last week Texas experienced the greatest flood in the history of the state. There were washouts on every railroad and traffic was paralyzed.

The good people of Everett, Wash., will not allow the "Tracy and Merrill" show to perform in that town—and they are quite justified in this opposition.

The Salem Central Labor Union has fixed a schedule of wages to be paid for unskilled labor to members of the union in Salem at \$1.75 per day for ten hours work.

The claims against the Gilbert bank at Salem are \$100,800 and there is \$10,000 on hand after several years' collection, with which to pay it. Whose will the trusting depositor come in.

The wheat crop of Unadilla County, owing chiefly to the recent heavy wind, will be between half a million and a million short, but as it is estimated at over 2,500,000 bushels, the farmers up there will not starve to death.

A bill by the name of Kelly was introduced to two years in the pen at Walla Walla Friday, for being handy with a revolver. He got into an altercation and immediately showed a cocked revolver in his opponent's face, assaulting him at the same time.

While Oregon is strongly republican it is an interesting fact that a good many of the county offices are filled by democrats. Of the thirty-three county judges 21 are democrats and 12 republican. There are 18 democratic sheriffs and 15 republican sheriffs. 17 county clerks are republican and 16 democratic. 23 treasurers are republican, and 10 democrats. 22 superintendents are republican and 11 democrats.

CALIFORNIA QUAKES.
Town of Los Alamos is Deserted by Panic Stricken Inhabitants.

SANTA BARBARA, Cal., Aug. 1.—Shortly after 10 o'clock this morning two severe shocks of earthquake were felt in Los Alamos Valley. They were not severe as the shocks which caused such widespread destruction of property at an early hour yesterday morning. Several buildings not already destroyed were badly cracked, one immense structure belonging to Juan Caraga, a short distance from Los Alamos, being tilted partly around on its foundation.

Not a house was uninhabited last night, the people building huge fires in the streets and spending the night huddled about in groups. Others slept in straw-stacks in the open fields. A special train from San Luis Obispo sent to Los Alamos at the request of residents took away about half the people remaining in the town, and this morning everybody who owned or could secure vehicles deserted the place, leaving for San Luis Obispo, Tempe or Santa Maria. News-papers correspondents from all sections of the state are flocking to Los Alamos today, and the town has about as many newspaper and scientific people as resident inhabitants. A few minutes past 11 o'clock today two more shocks visited Los Alamos. The grammar school building was badly damaged. Plastering was knocked from the walls and the interior filled with debris, desks, chairs, bookshelves and other furniture being thrown to the center of the room in a great heap. Advice received at noon stated that the earth continued to tremble and give forth heavy rumbling sounds. For five hours past shocks have been coming at intervals of about an hour and a half, each shock being followed closely by a second in each instance.

The shocks were followed by loud reports as from a cannon. The Caraga country, four miles from Los Alamos, also suffered, but the shocks were not as heavy as at the latter place.

Many of those who have not already fled from their homes are preparing to leave in case the seismic disturbances continue. The damage already done is variously estimated at from \$10,000 to \$20,000. It would have been much greater had not most of the buildings been built of wood. The few brick structures here were not of the most substantial kind and have been so badly damaged that they are not likely to be rebuilt. Several narrow escapes from death are reported.

Catarrh of the Bladder
Is very common in both sexes, and can be cured with S. B. Catarrh Cure, which cures all irritable conditions of the bladder, which causes frequent urination by which in time you lose control and inability to retain. In children it cures nightly wetting of bed. For sale by all druggists. Book on Catarrh free. Address Smith Bros., Fresno, Cal.

Good Paying Depository.
Equitable Savings and Loan Association of Portland, Clats. E. Ladd, president; T. B. Wilson, vice-president, pays about 10 per cent on deposits. Address, M. P. HAYWILE, Roseburg, Ore.

Bargains in Wheels.
We have in stock several second hand bicycles which we will sell at very low prices or will trade for wood.
A. C. MARSTERS & Co.

SMOKING CRATERS APPEAR IN CALIFORNIA.
SAN FRANCISCO, Aug. 1.—For many years there has been a small, active volcano on the Los Alamos side of the mountain which lies between that place and Santa Barbara. Smoke and steam constantly issue from various fissures along the summit of a plateau or shelf near the northern slope of the mountain. Viewed from the distance of the old stage road, these manifestations appear like small camp fires. They have never developed any alarming tendencies and have attracted very little direct investigation.

MORGAN TO RETIRE.
NEW YORK, Aug. 1.—Wall street gossips, in discussing the report that J. Pierpont Morgan is to retire from the management of his vast interests, owing to the state of his health, mention George W. Perkins as his successor. Perkins is only 40 years old and two years ago he was offered a salary of \$300,000 a year to become Morgan's right-hand man. He planned the Northern Securities Company, and conducted many other deals of similar magnitude.

BIG LOAD OF GOLD.
SAN FRANCISCO, Aug. 1.—The steamship Humbolt arrived here today from Alaska with \$500,000 of Klondike gold aboard.

LATEST NEWS.

Hot on Tracy's Trail--Big Land Deal at Marshfield--Fitz Pleads Not Guilty to Charge of Faking.

SPokane, Aug. 2.—An Almira special to the Spokesman-Review says: Outlaw Harry Tracy is believed to be traveling southeast from this place in the direction of Ritzville. A farmer named Perkins, living three miles southeast of Almira, saw a man with two horses and two rifles, passing this place in a south-easterly direction early this morning. Sheriff De Bolt, of Douglas County, arrived in Almira shortly before noon today, and on hearing the story left for the Perkins ranch. He has not been seen since. Sheriff Cudihoe, of Seattle, arrived in Almira from Wilson Creek, via Coulee City, late tonight.

The fact that Sheriff De Bolt has not been heard from leads him to believe that he is hot on the trail. Cudihoe firmly believes that Tracy passed through Coulee City about 11:30 last night. A man riding one horse, with a packhorse following, rode up the main street of that town and was seen by several residents.

HIG LAND DEAL AT MARSHFIELD.
MARSHFIELD, Aug. 1.—Nearly 800 acres of land in one body, with a good water frontage on Coos Bay has been bought by the Great Central Land Company, the corporation through which the great Central railroad does its land business.

The purchase includes 130 acres lying on the water front, situated about a mile from the business center of Marshfield, belonging to the Flannagan estate; a string of six forties lying just west of this owned by C. H. Merchant; and a 500 acres tract adjoining the Merchant land on the west and extending over to Pony slough, and belonging to the Flannagan estate. The price paid for the Flannagan land is \$50,000 and for the Merchant land, \$12,000.

FITZ PLEADS NOT GUILTY.
SAN FRANCISCO, Aug. 1.—Fitzsimmons called upon Mayor Schmitz last night and assured the latter that he had not faked in the championship contest. He explained how his hands were crippled from punching Jeffries, and how the champion lauded a blow over his heart that prevented the continuation of the battle. The Mayor stated the contest was the best he had ever seen, but reiterating that the ending didn't suit him. After gazing upon Fitz's countenance the city chief executive said: "Mr. Fitzsimmons, your face is too honest for a man that would fake." The Mayor now states that he has washed his hands of the affair, and has nothing more to say.

Mrs. Alfred Hill, the clairvoyant, whose prediction that Jeffries would win in the eighth round, was the basis of the Examiner's charges of fake, will call upon Mayor Schmitz today to vindicate Fitz.

"KILL AND BURN" SMITH REACHES FRISCO.
SAN FRANCISCO, Aug. 1.—The transport Thomas arrived from Manila today bringing portions of the 24th and 25th Infantry, comprising 57 officers and 1594 enlisted men. General Jacob H. Smith, who was recently court-martialed, was also aboard. Standing on the bridge of the transport Thomas, eagerly waiting with the ship's captain for a glimpse of his native shore, General Jacob H. Smith, tried by court-martial for having ordered the Island of Samar transformed into a howling wilderness, was doomed this morning to first learn that the President had retired him from active duty. The pilot boat which met the Thomas just outside the Heads at 2 o'clock this morning brought General Smith the first news of the President's action. In the faint light of a binnacle lamp, the veteran read the message that apprised him of his fate.

An hour later the dawn came, and with it the sight of land, but General Smith had retired to his cabin, where, with his wife and chief aid, Lieutenant G. H. Shields, of the Twelfth Infantry, he discussed the outcome of the long ordeal through which he had passed. The old veteran was overcome with emotion and keenly feels his military downfall. He says the severity of his orders has been magnified.

THE KLAMATH LAKE RAILROAD.
Scarcity of Labor Felt by the Contractors Although Despite It, Progress Is Satisfactory.

While work on the construction of the Klamath Lake Railroad from Laird on the S. P. Co.'s line to Pokeyama is going steadily forward its progress is being retarded somewhat by a lack of laborers. Railroad laborers like all other kind of workers during this era of prosperity are difficult to obtain. The promoters of the enterprise have had considerable difficulty ever since work started in securing sufficient men to do the work laid out. Grading has been finished as far as the point on the Klamath river, below Fall Creek, where a steel bridge has been thrown across the stream, and steel rails have been laid a distance of twelve miles from Laird or within nearly two miles of the bridge. Considering the difficulties encountered in securing sufficient labor fairly good progress has been made. Owing to some changes in the route since the original plans were drawn a new survey has been made and by it the railroad will approach the tableland opposite Shovel Creek by quite an easy grade. This new survey will take the route close to the waterfall of Fall Creek where the water of that stream takes a tumble of one hundred and fifty feet. It also taps a splendid body of timber land in that vicinity.

Want More Pay.

Section hands on the line of the Southern Pacific in Oregon have asked the company for an advance in wages from the present \$1.40 a day to \$1.75. They reason that they should be paid as much as the men engaged on construction work, as they are often obliged to be out Sundays and to work considerable overtime. In case of accidents or washouts, they say they have to be on hand, and so they do not consider the present pay enough, with the advanced cost of living. The company is considering the applications. Section hands work 10 hours a day and board themselves out of the pocket. Many of them belong to the Railway Employees Union, whose officers are doing what they can to bring the question before the authorities.

The bridge carpenters, too, are asking for certain concessions from the company. At present they work nine hours for a day and are paid \$2.75. The rules require them to be at work when the whistle blows, and they are also quit promptly on the whistle. The men say they are often obliged to ride for half an hour or more in going to and from work, and they want the time credited to the regular day. They are not asking for an advance in wages.

State Normal School.

Let those expecting to attend the Normal bear in mind the date of opening—Monday, September 8th—and if possible be on hand the first day.

The Normal essays to put students and teachers on a footing that leads to good certificates. Review work is a feature of our course. The coming year the Normal will be more a home than ever before. Material internal and external improvements of the school building are making for the enjoyment and benefit of students. Physical education is a part of the course.

Strong work in English and mathematics will be given from a practical point of view; also in science.

Letters from students, old and new, say, "I'll be with you next year."

The success of our graduates has created a demand for Brain Normalites in good schools. The Normal has helped many to good positions and will help you if you will let it.

For information, address at J. H. Orent, president.

Need More Help.

Often the over-taxed organs of digestion cry out for help by Dyspepsia's pains, Nausea, Dizziness, Headaches, liver complaints, bowel disorders. Such troubles call for prompt use of Dr. King's New Life Pills. They are gentle, thorough and guaranteed to cure. See at A. C. Marsters' drug store.

Pistol Practise
Is becoming more popular among women. The reason given is that a woman should know how to use the pistol for self-protection. The theory should be carried farther. Where a woman is in danger from an assassin once she is in danger from disease every day of her life. Women have not only to run the risk of diseases which threaten husband, brother, and son, but they have also to guard against diseases which are peculiar to womanhood.

From these diseases Dr. Pierce's Favorite Prescription will effectively defend women. The use of this medicine preserves as well as restores the woman's health. It corrects irregularity, dries weakening drains, checks inflammation and ulceration, and cures female weakness.

"I cannot say enough for Dr. Pierce's Favorite Prescription and Golden Medical Discovery," writes Mrs. Ida M. Tutt of 409 Franklin Street, Canton, N. Y. "I used five bottles of each and do my housework when I heard of your wonderful medicine. I used five bottles of each and several vials of Pleasant Pellets, and can say I am a well woman. Thank Dr. Pierce for his advice or he would have helped me to live. May many thousands of women take my advice and when in poor health or suffering from any female trouble take Dr. Pierce's wonderful medicine."

Such women, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce, by letter, free.

All correspondence is held strictly private and is entirely confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

The People's Common Sense Medical Adviser, a book containing 1008 pages, is given away. Send 21 one-cent stamps (expense of mailing only), for the book in paper covers, or 31 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

UNCLE SAM'S BIRTH DAY
anniversary promises to be a pretty warm one as the Fourth of July, usually is, so declare your independence of middle-aged heat and winded linen by having it laundered at a place where they will give you high grade laundry work with the exquisite color and artistic finish that is the stamp of perfect laundry work such as the Roseburg Steam Laundry always give you.
