LATE NEWS SUMMARIZED.

State, General and Foreign News Condensed for the Perusal of the Busy Reader.

Twenty-three cents per pound was paid for twenty-seven loaves of hops at Salem last week.

S. L. Bennett, on his three-acre orchard at Medford will this year raise about 1500 boxes of superior apples.

Mrs. Mary Williams, aged 65, an Oregon pioneer of 1846, died at the home of her daughter, Mrs. Sarah T. Crow, at Forest Grove Tuesday night.

The President is recovering satisfactorily, at which the whole country is pleased. Perhaps these interfering incidents are a hint that he is too "strenuous."

The average attendance at the Chemawa Indian school for the past year was 556, 54 more than the preceding year, while the enrollment was 690, as against 560 in 1901.

And the Montana Democrat also endorsed that wonderful 16-to-1 Kansas City platform, and Mr. Bryan has another small feather in his badly wrecked plume.

A patent has been secured in London, covering a novel engine for marine propulsion which John Willis, the inventor, asserts, will reduce the crossing of the Atlantic at least to a three days' journey.

Recently in a town near Rochester, N. Y., the baseball in the hands of the pitcher was struck by lightning and knocked to pieces. Another ball was handed the pitcher and the game proceeded. A twentieth century fact reported by the associated press, which never lies.

The eastern Oregon base ball team in the small villages of that part of the state are now fighting up the cost of having a professional aggregation on their hands for a single season. La-Grande is \$2,000 behind, Baker City, \$2,500 and Pendleton and Walla Walla \$1000 each. But the game was gloriously demonstrated.

A New York man has just completed the trip from Flint, Mich., to Boston, going almost the entire distance on electric motor lines. There were only a few breaks in Ohio and New York. There has lately been an enormous increase of motor line mileage in the east. The prediction has been made that it will not be long before a trip can be made to Portland from New York on an electric motor line. Let her come.

Iowa Loyal to Roosevelt.

HAMPTON, Ia., Sept. 25.—Judge B. P. Birdsell, of Clarion, Ia., was today nominated for Congress by the Thirtieth district Republican convention, to succeed Speaker D. B. Henderson, who declined a re-nomination. The nomination was made on the second ballot by a vote of 88 to 26 for C. A. Ramsler, of Boehman. The report of the committee on resolutions adopted by the convention was as follows:

"We, the representatives of the Republicans of the Third Congressional District of Iowa, heartily endorse the platform of principles adopted by the late Republican state convention at Des Moines. We deny that the Dingley tariff breeds and shelters trusts.

"We cordially recognize and earnestly commend the patriotic fervor of President Roosevelt and the wisdom of both the foreign and domestic policies of his administration, which are adding constantly to the high reputation of the Nation abroad and the prosperity of the people at home."

Judge Birdsell is about 45 years old. The only office he has ever held is the judgeship of the District Court, which he resigned a year ago to resume the practice of law in Clarion.

Littlefield for Speaker.

COUNCIL BLUFFS, Ia., Sept. 25.—Representative Littlefield, of Maine, passed through this city this afternoon en route to San Francisco, where, after a few days' rest, he will begin a campaign of the Pacific States under the direction of the National Republican Congressional Committee.

When asked to give his opinion of the effect of the withdrawal of Speaker Henderson from the race from the Third Iowa district, Mr. Littlefield stated that outside of the State of Iowa he thought there would be no appreciable effect.

Asked of the rumor that he was to be a candidate for Speaker of the House to succeed Mr. Henderson, he said he was an avowed candidate with very flattering prospects.

The Pony Express.

W. F. Bailey contributes to the Century an article on "The Pony Express," between St. Joseph, Mo., and San Francisco. Mr. Bailey says:

"At first the schedule was fixed at 10 days, an average of 8 miles an hour from start to finish. This was cut down to 8 days, requiring an average speed of 10 miles. The quickest trip made was in carrying President Lincoln's inaugural address, which was done in 7 days and 17 hours, an average speed of 10 miles per hour, the fastest time of any one rider being 129 miles, from Smith's Creek to Fort Churchill, by Pony Bob in 8 hours and 10 minutes or 14.7 miles per hour. Considering the distance and difficulties encountered, such as hostile Indians, road agents, floods and snowstorms, and accidents to horses and riders, the schedule was maintained to an astonishing degree. The service created the greatest enthusiasm not only among the employes, but also in the ranks of stage employes, freighters and residents along the route. To aid a "pony" in difficulty was a privilege, and was to the man who would so much as throw a stone in the way.

LATEST NEWS.

Thrilling Experience of Seattle's Mayor--Another Volcanic Disaster--Gould's Coast Railroad.

SEATTLE, Sept. 27.—Mayor Thomas J. Humes, while following a bear last Thursday afternoon, in the woods north of Lake Washington, slipped and sprained his ankle. A storm came on and the Mayor lost his bearings. He slept in a hollow log Thursday night and last night. He was unable to travel much Friday, owing to his ankle. His only food was huckleberries. A searching party left Seattle early this morning, and found the Mayor almost immediately. He was brought down the lake in a launch and went directly to his home. Physicians are now attending him. He is suffering considerably from exhaustion, but no ill effects are expected from his experience.

ANOTHER VOLCANIC DISASTER.

LONDON, Sept. 27.—A special dispatch from Rome, after confirming the reports that Stromboli has been in full eruption for some time, says:

"The night scene was grand but terrifying; lava streamed down the mountain sides seaward, while huge boulders were hurled from the crater to a great height, falling into the sea fully 2 1/4 miles from the shore. "The director of the observatory at Mount Aetna says there has been no earthquake in Sicily, but that probably there has been a submarine eruption between Stromboli and Sicily. "One hundred and fifty corpses have been recovered at Modica. Hundreds of victims were drowned in the open country."

TERRIBLE HAVOC OF AN EARTHQUAKE.

SIMLA, India, Sept. 26.—Further reports received here regarding the earthquake in Eastern Turkestan, which lasted from August 22 to September 3, show that in addition to causing other damage, the town of Artush was reduced to ruins, 686 persons were killed, and 1000 others were injured.

ALLAHABAD, India, Sept. 26.—A dispatch to the Pioneer from Kashgar, Eastern Turkestan, says that only a dozen people were killed there in the earthquake; but that the disturbances wrecked many villages in the northern part of the province, the total number of persons killed being 1000. There were no premonitory signs, says the dispatch, but a profound rise in the temperature followed the principal shock. The temperature continued to rise during the subsequent days, which were attended by a repetition of slight quakes. The dispatch says no Europeans lost their lives.

GOULDS GET OUTLET TO THE COAST.

CHICAGO, Sept. 26.—It was announced on good authority today, says the Daily News, that a \$25,000,000 increase is to be made in the capital stock of the Chicago, Milwaukee & St. Paul road. This additional stock will be issued to stock holders at par. It is supposed that the increased capitalization is for the purpose of acquiring Senator Clark's rights in a road which is planned for construction between Salt Lake City and Los Angeles. The St. Paul lines, with the Gould roads, gives this combination a route to Salt Lake and the connection with Senator Clark's project will give the St. Paul an outlet to the Pacific Coast.

FUNSTON DENOUNCES CANTENEN LAW.

WASHINGTON, Sept. 26.—Brigadier-General Funston, in his annual report of the Colorado, declares that the recent anti-canteen legislation of Congress has lowered the discipline of the Army, ruined scores of good soldiers, and enriched saloon-keepers, gamblers and dissolute women. His report announces a deplorable increase in offenses particularly desertion, attributed to the abolition of the canteen and garrison life restrictions of men returning from field service.

CENSUS OF THE PHILIPPINES.

WASHINGTON, Sept. 26.—President Roosevelt has signed the order providing for the taking of the Philippines, in accordance with the terms of the Philippine act, passed at the last session of Congress and upon the certificate of the Philippine Commission that the insurrection has been suppressed.

LEVI STRAUSS IS DEAD.

SAN FRANCISCO, Sept. 27.—Levi Strauss, one of the last of the old-time merchants of San Francisco, and one of the best known men from the most southerly mines of California to Puget Sound, died at his home last evening of heart disease. Mr. Strauss was born in Bavaria in 1829 and settled in this city in the early fifties. He founded the dry goods firm of Levi Strauss & Co.

THE WORLD'S FASTEST BOAT.

NEW YORK, Sept. 27.—Charles R. Flint, the American millionaire, is the possessor of the fastest boat the world has ever seen. It is the steam yacht Arrow, whose wonderful record is a mile in one minute 19.89 seconds. No machine fashioned by man has ever before traveled on the water at this rate. The nearest approach to this record was the British torpedo boat Viper, which made a record of 36.04 knots an hour, three knots behind the Arrow's record.

NEWS OF THE COUNTY.

Cleaned by our Corps of Special Correspondents, Soc'ls, Personal and Industrial.

Josiah Jones is adding to his already commodious barn and stable buildings. Mrs. Etta Hall and little daughter, are now back to their Glendale home.

Mr. and Mrs. Miles Ramey and daughters, Miss Jennie and Mrs. Luella Atwood, were city visitors last week.

Mrs. Vint Bogard and her children, will visit her parents, Mr. and Mrs. Cooper, in Garden Valley next week.

Most beautiful autumn weather prevails in this valley, which is pleasant for all, after the unusual heat of August.

On Saturday we were the guests of Mr. and Mrs. Ambrose Marshall, to dinner and enjoyed much the pleasure of their quiet home.

Alfred Slocum has just purchased a fine buggy to use in attending to his business of Fire and Life Insurance, which is increasing every day.

Dr. Dowersox was at Roseburg on business Friday. The Doctor is suffering from an attack of asthma, brought on by exposure in riding over mountain roads at night last week.

The meeting of the Quarterly Presbytery will be held in this city on the 7th of October. Arrangements are being perfected for the entertainment of our ministers and elders, who will be present on that occasion.

It is with deep regret that we have to chronicle the fact that Rev. J. E. Blair, who is pastor of Olivet Presbyterian church is thinking of resigning his pastorate and seeking a new location. Mr. Blair has a strong hold upon the esteem and good will of our people, who, without regard to denomination will petition him to stay with us.

It has been our esteemed privilege to meet and make the acquaintance of Mrs. Hamlin, the mother of our school Superintendent. As we listened with attention to the refined and elegant conversation of this mother, it was nicely explained to us why we admired her soldier son. Our young people and children will be the beneficiaries of the wise, capable and gentle guidance of Mrs. Hamlin and her assistant, Miss Benn.

Our district school opened with a large attendance of pupils, with Mrs. John Hamlin Principal, and Miss Mae Benn assistant. Mrs. Hamlin is the mother of our school Supt. Captain F. B. Hamlin. She has had forty years experience in teaching. Miss Benn is lately of Santa Barbara, California, and comes to us with high recommendations. Our people are to be congratulated upon securing the services of those two ladies in our public schools.

MOBILE.

Dothan Items.
C. T. Hall has just arrived from Chinook, Washington, where he has been spending the summer.

There are several good propositions here on Rogue river in both quartz and placer, awaiting development.

O. E. Pollard still drives the steel on the Quivada mine. They are in several hundred feet, and prospects are good.

Deer are numerous in this country; several nice fat bucks have been brought in within the past few days.—Glendale News.

J. H. Moore, a mining man, has ordered his winter's supplies, making his headquarters at the old Marks & Billings mine.

W. S. Dorstler, the enterprising road supervisor, is doing considerable good work on the trail between Gold Beach and Dothan.

We are glad to note that T. W. Billings has been commissioned as Notary Public by the Governor. The right man in the right place.

J. R. Hall, one of our prominent farmers of the Big Meadows, went to Portland to have an operation performed, cancer being the trouble.

Frank Cain who has an option on G. W. Billings and J. F. Milner's group of mines, went to Riddle the other day to place an order for his winter's provisions, preparing to fit up and operate the mine.

The county viewers are doing business with the proposed new trail, commencing at Dadds creek and following down Coos creek on the north bank to the junction of the two creeks, at West fork station; thence up the west fork on the north bank, to the junction of Bear creek; and leaving Bear creek to the south; taking the divide and following said divide to the summit, at a place known as Nine mile water, or Curry county line. T. W. Billings, the surveyor, claims a fair route for a wagon road, and that said view on said trail does not, and will not exceed ten per cent grade. Mr. Billings further claims that the new route will not increase the distance a mile, and have a fine grade. The viewers expect to complete their work on or about October 1st. This new trail will be a great advantage over what we have.

Catarrh of the Bowels.

Causes bloating after meals and large quantities of gas which cannot be expelled, causes diarrhoea alternating with constipation. S. B.
