LATE NEWS SUMMARIZED.

State, General and Foreign News Condensed for the Perusal of the Busy Reader.

Bob Fitzsimmons, who is in Portland this week, has been in 329 battles and has been whipped only twice, then by Jeffries.

Notwithstanding all the blow and bluster Portland, continues to lead Seattle in postal receipts, but by a slight margin.

Pickpockets and burglars are doing a good business at Eugene. Several visitors have reported the loss of purses and other valuables.

A Woodburn hop grower has contracted to furnish T. A. Lively & Company, of Salem, 500 pounds of hops each year for the next five years at 95 cents per pound.

On Monday S. A. Heilner, of Baker City, sold 600,000 pounds of wool to Koshland & Co., of Boston, for \$75,000. This is the largest individual sale ever consummated in this city.

Judge Boise, at Salem, has rendered a decision holding that a justice of the peace has power to set aside the verdict of a jury when it is not in accordance with the law and evidence.

The Amalgamated sugar refinery plant at La Grande, with 350 tons daily capacity, started up Monday in full operation. Beets are coming in freely and are of better grade than last year.

Fruit growers in Polk county say that the prune crop will not only be light this year, but that brown rot has attacked the Italian prunes in some sections, and that this will further decrease the yield.

In trying to save a passenger train from a wreck, William Johnson, a Northern Pacific section foreman, was killed Sunday afternoon at Tuxedo, Idaho. He saved the train, but died of his injuries.

H. S. Gile, of Salem, manager of the Willamette Valley Prune Association, has sold 32 carloads of prunes, principally Italians, at the association price, which is on the basis of 23 cents for the four sizes.

A number of fine timber claims have been purchased recently up the Santiam, it is said 46 in all, at greatly increased prices, as high as \$2500 being paid. Some are holding at even above this price.

A telegram received by Portland customs authorities from the Treasury Department at Washington states that on and after October 1st the value of the Mexican dollar will drop from 48 cents to 41 cents 7 mills.

A dispatch from Rome says that the death toll resulting from the recent hurricanes in Sicily are swelling. The bodies of 600 persons are now awaiting burial, and as the means of their prompt entombment are lacking, there are grave fears of an epidemic.

Work on the grade of the Dallas and Falls City railroad is progressing at a satisfactory rate, considering the difficulty encountered in securing men and teams at this busy season of the year. The grading crew is now at work on the Gilliam farm, about half way between the two towns.

The Ashland Fruit Association received on Friday a remittance of \$12,000 from Portland houses, in payment for the Early Crawford peaches. This was distributed among the Ashland growers. The late Crawford and other late varieties, of which there is a big production, are still unsettled for.

At last it has arrived: "Harry Tracy the Desperate Western Outlaw." The book in paper cover, 206 pages, completely illustrated. At first it looks like a blood and thunder story of fiction; but a perusal shows it to be simply a well-told story of the escape and capture of the famous outlaw.

A bill has been outlined and will be presented to the United States congress at the coming session to allow the Southern Pacific Railway Company to bridge the Willamette River at Oswego for the purpose of connecting the East and West Side and Yamhill divisions of the road.

Mrs. Florence Atwood, wife of Dr. J. P. Atwood, died at Baker City Sunday. Mrs. Atwood was the State President of the Assembly of Rebekahs of Oregon; and a prominent member of the Order of the Eastern Star. She was stricken with pneumonia a week ago at the close of the district fair, of which she was one of the managers.

Actuated by revengeful motives and probably temporarily insane, R. S. Davis, a druggist, of La Center, Wash., Monday set fire to the drug store of Mrs. Sarah White his competitor, returned to his own store, set fire to it, and was himself consumed in the flames. As the result of this rash act five buildings are now in ashes.

State Land Agent L. B. Geer has sold all but 62 of the 240 farms he held on hand two years ago. Many of the sales were made in the last 12 months, since the real estate activity became strong. The farms were taken by the school fund commissioners by foreclosure of mortgages taken to secure loans made to farmers in various parts of the state.

America's Famous Beauties

Look with horror on Skin Eruptions, Blisters, sores, Pimples. They don't have 'em, nor will any one, who uses Backen's Arica Salve. It glorifies the face. Eczema or Lalt Rheum vanishes before it. It cures sore lips, chapped hands, chilblains. Infallible for Piles. 25c at A C Marsters drug store.

LATEST NEWS.

Roosevelt Summons Coal Magnates to Washington—Wilcox Narrowly Escapes Tar and Feathers.

WASHINGTON, Oct. 1.—The following is the result of conferences between President Roosevelt and members of his Cabinet, which were held yesterday and today:

"White House, Washington, Oct. 1, 1902.—George F. Baer, President of the Reading System, Ed Thomas, Chairman of the Board, Erie Railroad Company, Thomas P. Fowler, New York, Railroad Company, R. M. Oliphant, President of the Delaware & Hudson, New York; John Markley, 527 West Thirty-Fourth Street, New York:

"I should greatly like to see you on Friday next, October 3, at 11 o'clock A. M. here in Washington, in regard to the failure of the coal supply, which has become a matter of vital concern to the whole nation. I have sent a similar dispatch to Mr. John Mitchell, President of the United Mineworkers of America.

"THEODORE ROOSEVELT."

WOULD TAR AND FEATHER WILCOX.

SAN FRANCISCO, Oct. 1.—Word has just reached here from Honolulu that Delegate Wilcox narrowly escaped being tarred and feathered in the leper colony. The bill introduced by Delegate Wilcox, which provides for the segregation of the sexes in the leper colony has almost created a revolt of the lepers, and aroused their anger to such an extent that when the commission, of which Wilcox was a member, visited the colony for the purpose of making an investigation, an attempt was made to give him a coat of tar and feathers. As a result of a report to the commission which showed that unlawful cohabitation was being universally indulged in among the lepers Delegate Wilcox introduced a bill providing that the men and women of the colony be separated in order to prevent such a state of affairs. It was shown that many illegal children were being born to the lepers and an effort to put a stop to it was made by Mr. Wilcox.

SECRETARY HAYS DAUGHTER WEDS.

NEWBURY, N. H., Sept. 30.—Very quietly and in the presence of only relatives and closest friends, Miss Alice Hay, second daughter of Secretary of State John Hay, and James W. Wadsworth, of Genesee, N. Y., were married today at the "Fells," Lake Sunapee, the summer home of the bride's father. Although all arrangements for the event were made with the utmost privacy, the residents of this vicinity felt great interest in it, as it is by far the most important wedding that ever took place in this section. Few, however, among them received invitations. In fact, the number of guests was only 30.

The ceremony took place at 2 o'clock. The Rev. C. L. Hayden, of Cleveland, who married Colonel and Mrs. Hay, performing the ceremony today.

CHOLERA IN PHILIPPINES.

MANILA, Sept. 30.—It is understood that 5124 cases of cholera and 2740 deaths from that disease were reported in the Province of Ilo Ilo, Island of Panay, on Monday. This is the highest record for any district since the outbreak of the disease occurred, and exceeds the total of Manila and many of the provinces since the commencement. The town of Miago in the Province of Ilo Ilo, was the worst sufferer, 1173 cases being reported there Monday.

At Cabaatuan there were 899 cases, and at Dumanges 395 cases were reported on Monday. The people are fleeing to the mountains leaving the dead unburied and the dying uncared for. The Government has ordered additional doctors and medicine to be sent to Ilo Ilo. The number of victims makes ordinary sanitary measures impossible. The total for all the provinces Monday was 5390 cases and 3091 deaths.

SCARCITY OF BIRDS.

EUGENE, Oct. 1.—The China pheasants were not slaughtered today in huge quantities because they were not in sight when the nimrods and dogs stalked the fields. It is very evident that the game law does not protect the gay colored fowls. The fields around Eugene echoed an occasional shot today, however, and a few birds were brought to town.

INDIAN WAR VETERANS.

SALEM, Oct. 1.—The Oregon Indian War Veterans' Association in session in this city adopted a resolution today asking the legislature to appropriate \$300,000 for the payment of the Indian War veterans for service in the Rogue River Indian war and accoutrements furnished by the volunteers.

SANTA CLAUS IN A TRUST.

PAWTUCKET, R. I., Oct. 1.—A proposed combine of 40 concerns throughout the country engaged in the manufacture of toys, games and novelties, is to be joined by a large manufacturing company of this city. The combination is understood to involve a capitalization of from \$7,000,000 to \$10,000,000.

WILL WED UNION MEN ONLY.

ST. PAUL, Sept. 29.—The young women of the Clerks' Union have completed arrangements for the organization of a girls' league in which every member will pledge herself to marry none but a union man and to refuse absolutely to receive attentions from any but men with cards.

OUR COAL STRIKE EFFECTS ENGLAND.

NEW YORK, Sept. 30.—The American coal strike already has made an impression on the British coal market, and if it continues for another six months householders in London probably will have to pay \$20 a ton for fuel.

POOR SURE TO SUFFER.

Board Sidewalks Torn Up for Fuel, Bridges Stripped, Lumber Piles soiled.

New York, Sept. 30.—Not a ton of anthracite coal can be had here at any price, says a Rochester, N. Y., dispatch to the Times. Sidewalk inspectors report that in the outlying districts residents are tearing up the sidewalks and using them for fuel. Altogether several miles of plank walks have been piled up with crows and carried off. In some sections, canal bridges have been stripped of planking. Piles of new lumber left on the streets for repairs also have disappeared.

Hospitals of New York City are threatened with being seriously affected by the scarcity of coal. The J. Hood Wright Hospital has only enough to last this week, while St. Luke's was so fortunate as to obtain a cargo of 340 tons about a week ago—enough to last two months. St. Mary's Hospital for children has practically no supply of steam coal, and is using furnace coal, of which it has about 25 tons. This condition prevails at many other institutions.

It was said at the office of the charities department that no real distress has been experienced in any of the city's charitable institutions.

The price of anthracite has reached \$21, but some retailers are peddling out their small supply at \$15 or \$16 to old customers. Importation of Welsh, anthracite and French bituminous can in no way relieve the situation, for the few cargoes that have been landed are of little account. There are only about 8000 tons of this coal now on the way, but orders have been placed this week for over 25,000 tons. At least a month is required, however, to fill the orders. The cost of importing Welsh coal under normal conditions is about \$7.

Emile Zola is Dead.

PARIS, Sept. 29.—M. Zola, the novelist, who was born in Paris April 20, 1859, died this morning. Zola was found dead in his home from asphyxiation. His wife is gravely ill. Zola was asphyxiated by the fumes from a stove, the pipes of which are said to be out of order. At the same time it is stated that there are indications of suicide.

Zola and his wife returned to Paris from their country home at Medan yesterday, and owing to a sudden spell of cold weather here he ordered the heating stove in his bedroom to be lighted. The stove burned badly, but Zola and his wife retired at 10 o'clock last night and the servants not hearing any movement in the apartment this morning, entered the bedroom at 9:30 A. M. and found Mme. Zola lying on the bed inanimate. Zola was lying half out of bed with his head and shoulders on the floor and his legs on the bed. Doctors were summoned but they failed to restore Zola's life. After prolonged efforts they resuscitated Mme. Zola.

The report that Zola's death resulted from suicide is without foundation.

Guilt of Manslaughter.

PORTLAND, Ore., Sept. 29.—William Baldwin and son, George W. Baldwin were found guilty of manslaughter by a jury Saturday night for the killing of Frank Carlson, last July. Young Baldwin and Carlson engaged in a prize fight to settle a difficulty over a girl, and a blow over the heart caused Carlson's death. The elder Baldwin witnessed the fight. The jury recommended young Baldwin to the mercy of the court, but made no recommendation as to the father.

Does Like Hot Cakes.

"The fastest selling article I have in my store," writes druggist C. T. Smith, of Davis, Ky., "is Dr. King's New Discovery for Consumption, Coughs and Colds, because it always cures. In my six years of sales it has never failed. I have known it to save sufferers from Throat and Lung diseases, who could get no help from doctors or any other remedy." Moth us rely on it, best physicians prescribe it, and A C Marsters guarantee satisfaction or refund price. Trial bottles free. Reg. sizes 50c and \$1.

BRAIN FOOD.

Not long since there was a great run on the fish markets because it was announced that fish was food for the brain. Of course the fallacy of the fact was soon exploded. Normally the food we eat nourishes brain, nerves, muscle, bones, etc., each part of the body assimilating phosphorus salts. Lines according to its need. When the brain begins to show weakness or the nerves become sensitive it is a sign that there is a loss of the nutrition contained in the food eaten, and this loss is, in general due to disease of the stomach, and its allied organs.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect digestion and assimilation of food, which is the source of the strength of both brain and body.

"I was troubled with very frequent headaches," writes Miss Belle Summerton, of San Diego, Cal., "and was accompanied by severe vomiting, bowels were irregular and my stomach and liver seemed continually out of order. I could eat almost nothing, and sometimes I was entirely unable to work at my usual system seemed so run-down that I feared a severe sick spell and was very much discouraged. I was advised to try Dr. Pierce's Golden Medical Discovery and did so with such satisfactory results that before finishing the third bottle I felt perfectly able to undertake duties attending public school life."

Dr. Pierce's Common Sense Medical Advice in paper covers is sent free, on receipt of 1c one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.
