OCTOBER 2, 1902

Councilman Fred T. Merrill has created a sensation in Portland by introducing a resolution in the council which was passed requesting the Police Department to enforce the laws against gambling. "It is not making Portland an open town, but a closed town," is the contention of the supporters of the resolution. "The resolution provides that the police department of the city shall enforce the laws against gambling and similar vices, punishing the offenders by imposing and collecting fines. If the violators continue to break these ordinances they are again to be arrested and fined and, so on indefinitely." The distinction between this system of regulating and fining the gamblers and an out-and-out license is too fine for a large part of the public to discover. It is all in the name, apparently, whether it is a license or a regulation. A point which the advocates of the resolution wish to make prominent is that it will stop all grafting, and the money heretofore paid for protection will go to the city to be applied to improvements. Mayor Williams declares that he is personally opposed to such an arrangement, and will oppose it unless the remainder of the city government favors the plan, when, of necessity, there will be nothing for him to do but permit matters to take their course for the time being.

The Democrats of Miami County, Kan., have adopted a platform which is a model of frankness and brevity. Nothing is said about sixteen to one, or the trusts, or imperialism, or the robber tariff, or the consent of the governed, or "pointing with pride" or "viewing with alarm," or any kind or sort of principles. Jeffersonian or otherwise. The platform in full reads as follows: "Resolved, That the Republican party should be defeated in the state and the county and the rascals turned out of office." It is not stated why the "rascals" should be turned out, but that, of course, is understood. It is in order that Democratic rascals may get in. Not often does the "appetite" party speak with such honesty and candor. Kansas has furnished a model of sincerity which the Democracy in other parts of the country will doubtless admire sincerely.

In order to be on the contrary side and possibly to gain a little notoriety a few Oregon newspapers are opposing state aid for the Lewis and Clark exposition for 1905, on the grounds that it is to be simply a Portland enterprise. Such a position is narrow, selfish and the outcropping of meanness. The great Lewis and Clark Exposition if carried out as originally intended will be a great benefit in many ways, not only to Portland, but to every town and county in the state. Hence, it is only just and right that all sections of the state should assist in bearing the expense. There is no doubt but what Portland and Multnomah will bear their full share of the expense and more too.

The Republican party will take up the matter of the trusts in a manner not calculated to cause financial unrest, but will deal with the problem with intelligence and common sense. Unlike the democratic party it will not propose to accomplish the result desired by killing industry. The business interests of the country are too great, too important to be assailed in a reckless manner. To follow such a course would be to invite business and industrial disaster and cause suffering among the great army of employed. It is safe to say that the work of enacting anti-trust legislation will never be intrusted to the democratic party.

The Jewish new year, which according to their calendar is the year 5763, and commonly known to them as "Rosh Hoshannah," began with the setting of Wednesday's sun and lasts until sundown Friday. In the synagogues of the larger cities throughout the world the customary religious services will be held, and the ceremonies attending will only be equalled in impressiveness by those to follow on the Day of Atonement, which comes on October 11th. These occasions will be observed by the Jews throughout our state.

The different Jewish congregations throughout Chicago adopted resolutions thanking President Roosevelt and Secretary Hay for Mr. Hay's note protesting against the treatment of the Rumanian Jews.

A new party known as the anti-trust Democracy has been organized at Butte, Montana. A state ticket will be put in the field.

The grant trouble is, tariff reform, as it is called, has always been attended with disastrous results.

With winter at hand and coal at \$21 a ton, three times the normal price, the administration does not underestimate the gravity of the situation, both business and political. The poor already suffering from cold and unable to purchase coal at the exorbitant price, are tearing up sidewalks in the cities and taking timber and lumber for fuel without regard to ownership. President Roosevelt sent Secretary Root to New York to confer with the coal trust hogs in the effort to bring the strike to an end and has since nominated the coal trust magnates to Washington, also President Mitchell of the mine workers union, and you are likely to hear something drop very soon.

The number of sheep in the United States has increased twenty millions since the repeal of the Wilson tariff. A Protective Tariff always did increase the wealth of the farmer.

Bill Devery was set down on by the democrats at Saratoga Tuesday. He should now be kicked out, a disgrace to politics and humanity.

Wheat is on the rise and sold at 95 cents in Chicago yesterday. Let the price sweep westward.

**THE DISTRICT FAIR.**  
Fine Pavilion, Stock and Fowl Exhibits, Good Races, Big Shooting Tournament.

Everything is now in readiness for the ninth annual exhibition of the Second Southern Oregon District Agricultural Society at the fair grounds just east of Roseburg, commencing next Tuesday and continuing five days. Enough space in the big pavilion has already been contracted for to issue a large and most creditable exhibition in this department, while the stock and fine poultry exhibit promises to be second only to that seen at the recent State fair and by far the best ever seen at an Oregon District fair.

The cereal, fruit and vegetable exhibit will also be a revelation even to our home people who are familiar with the excellence of the products of the Umpqua Valley.

Many speedy horses have been in constant training on the tract at the fair grounds for some weeks past and a splendid speed program is assured.

**TRAP SHOOTING TOURNAMENT.**  
On last Tuesday evening the organization of the Roseburg Gun Club was perfected, the temporary organization having been effected some time ago. The club takes up its arms thirty strong—all sharp shooters—and as their record at Eugene last week would indicate, the boys are terrors to the blue rock targets.

The officers of the club are: C. B. Cannon, president; S. K. Sykes, vice-president; Roy McClain, secretary and C. W. Parks, treasurer.

The club's first annual shooting tournament will be held on Wednesday, October 8th, at the range or traps in Roseburg. The first South of town and will commence at 9 a. m. and continue all day.

**BOY KING ENRAGED.**

**Queen Mother's Secret Marriage Offends. He Orders Her Retirement.**  
MADRID, Spain, Sept. 30.—Spanish Royalty is being treated to the most sensational scandal it has had in years over the recent action of the mother of the King contracting a secret marriage with her master of horse, Count Escocura.

The royal family of Spain is the center of a sensational scandal which reached the ear of the public this morning. King Alfonso is terribly enraged and his mother is ordered to retire to the provinces or go abroad.

**HER TROTH WAS FLIGHTED.**  
What has proved to be the greatest sensation that has been known in the circles of the royal family of the King of Spain, was developed today when King Alfonso discovered the fact that his mother during the recent journey to Austria, had been secretly married to her master of horse, Count Escocura.

The Queen mother justifies herself in her action by the fact that years ago she had pledged her troth to the Count but was compelled to marry the father of Alfonso for reasons of state, but now that obligation had been fulfilled she once more felt the love of her youth, and consequently married the Count.

**ALPHONSO ENRAGED.**  
When young King Alfonso learned of his mother's action he flew into a terrible rage and became violently abusive. He stamped the floor and tore his hair, he acted like a madman and finally when he had regained his composure sufficient to talk, he ordered the Queen mother to at once retire to the provinces or go abroad. This the Queen positively refused to do, and what the outcome will be it is impossible to foresee.

**Weather Bureau at Drain.**  
The Central Oregon State Normal School at Drain will shortly be equipped with Government instruments for measuring rainfall and the temperature. The record of weather will be kept at that point in connection with the Bureau at Portland.

Professor A. N. Orcutt will have charge of the work.

**Camas Valley.**  
We are having fine weather just now. Born to Mr. and Mrs. Henry Deun, a son.

Bonnie Lee was in the valley a few days ago.  
Rev. Reese and wife, of Ten Mile, called on some of the Camas Valley people last Saturday.

Mr. Anderson, one of Camas Valley's old timers is in the valley visiting friend and acquaintances.

Mr. Trieman, of Olatia, is moving on the piece recently occupied by A. L. Brown, and intends starting a blacksmith shop there.

**Do Good—It Pays.**  
A Chicago man has observed that "Good deeds are better than real estate deeds—some of the latter are worthless. Act kindly and gently, show sympathy and lend a helping hand. You cannot possibly lose by it." Most men appreciate a kind word and encouragement more than substantial help. There are persons in this community who might truthfully say: "My good friend, cheer up. A few doses of Chamberlain's Cough Remedy will rid you of your cold, and there is no danger whatever from pneumonia when you use that medicine. It always cures. I know it for it has helped me out many a time." Sold by A. C. Marsters, druggist.

**Messrs. W. A. Burr & Co., Roseburg's Leading and Most Responsible Music Dealers, Affiliated with the Famous Organization of Eilers' Piano House—Description of Fine Piano Just Received at the Store.**

Mr. W. A. Burr, the well-known and popular music dealer of Roseburg who has completed arrangements with Eilers' Piano House, of Portland, whereby he will have the exclusive representation of this company's entire line of nearly twenty different high class makes of pianos for Roseburg, has been engaged in the piano and organ business for nearly 12 years, and has during all these years built up and maintained the highest reputation for integrity and fair dealing.

Eilers' Piano House is the largest wholesale and retail organization in the west, if not in the entire United States. Every member of the firm has been connected with the western music business for many years. The first store was started at Astoria, Oregon, then came Spokane, Wash., and later on the additional stores at San Francisco, Sacramento and San Jose, and this concern is not only the largest and leading piano selling organization, but is also one of the most responsible financially.

Advance shipments of Pianos to Mr. Burr are now being received direct from the factory and the choicest products of the greatest piano manufacturers are now to be seen at the spacious sales-room, in the corner of Taylor & Wilson block, Roseburg.

Never heretofore was such a beautiful and costly array of highly finished pianos shown in the city. Here is the world-renowned Chickering, the genuine Boston Chickering, the beautiful and wonderful toned Weber, New York's finest piano, and the now world-famous Kimball, Chicago's best, which is made in America's finest and largest factory. Then the many-toned Crown Orchestral universally known as the "Crown-toned" piano, because by means of this instrument the tones of any string instrument such as the harp, guitar, mandolin, banjo, auto-harp, etc., can be perfectly reproduced.

Here is the Angelus piano player, the original piano player, and the most artistic and most durable. Other fine makes are the Doll, Schumann, Steger, Singer.

Music lovers will now have an opportunity to examine and test the most comprehensive assortment of highest class pianos ever shown outside of the great metropolitan cities, and W. A. Burr & Co.'s store will henceforth be known and maintained as not only the most responsible, but also the leading and complete music and piano establishment in the State of Oregon.

# Another Card of Thanks

We, the Richardson Music House, were very glad to get rid of a few of the old stickers which no one wanted. One was a style four Kimball with a very cheap action. I have never sold a style four Kimball; or one Hinze with about the same action as the style four Kimball, and these with one Welser piano is the extent of what Mr. Burr got out of this great stock of pianos they talk about. We were very careful to select what stock we wanted before giving up the agency of those goods. We selected from this stock a few fine instruments; one Chickering, one Jacob Dall, one Leicht, one Needham and several organs, and I paid spot cash for same; so with that stock and about half a car load remaining from our last shipment, which arrived the 15th of last month, we are prepared to offer these goods at better prices than any one who has to pay the whole sale than 20 per cent above factory prices, at least that is what we had to pay and they said they were going to raise 10 per cent on all their goods. Any one who disputes this may call at my store and I will prove it by bills rendered from that house. This will also give you an insight to the factory cost of these goods. Talking of goods being scattered from Grants Pass to Cottage Grove, this is not, in fact, distance. We have sold goods to parties in Dawson, Alaska, and in Washington, D. C., and on the third of this month we sold a fine Walworth piano to Mrs. Mary Taylor in Astoria, Houghton, Michigan, direct from the factory too. We are now getting all our goods direct from the makers, thus saving about 20 per cent on the goods. Can we not sell 30 per cent cheaper and make just as much money and save for you? If you will only investigate instead of believing every misleading advertisement you see. You have to pay for that. You have to pay the big store rent in Portland, you have to pay those high priced book keepers and many other items that are added to the price of the piano that comes through big concerns. If you do not believe it call as requested above and I can prove it. I have the bills for several years back showing that we have paid the Eilers Co. alone many thousands of dollars. We will show up in next issue what profit we have paid them. We are here to stay, and stay with our customers in every respect. Remember the

**GREAT OREGON CAVES.**  
To Be Turned To Commercial Advantage by Marble Company.  
GRANTS PASS, Sept. 30.—The Great Oregon Caves of Southern Josephine County have been located and taken up by the Southern Oregon Marble Company, with the intention of utilizing the stone they contain. J. C. Whippy, manager of the company, has made a personal inspection of the caves with the idea of ascertaining whether the stone they contain is of quality sufficient to warrant its removal for commercial use.

The great Oregon caves form one of the greatest natural wonders of the state, and should be set aside as a National Park instead of being used as a marble mine. They are said to be the largest limestone caves in the world, and are of as great an extent as the noted Mammoth Caves of Kentucky. They consist of an endless labyrinth of passages, tunnels and hall, all of limestone of purest white, and of the most remarkable brilliancy. They have never been completely explored. At one time an effort was put forth to have them and the surrounding territory converted into a park and resort, of which, by its natural advantages, it could become one of the best on the Coast, but the project was given little or no support and the scheme came to naught.
