**SENATORS ATE DOG.**

**They Thought the Hawaiian "Roast Pig" the Best Ever.**

HONOLULU, Hawaii, Oct. 10, via San Francisco, Cal., Oct. 27.—Hawaiians are laughing heartily over a joke they say was played on the members of the Senatorial Commission last month. United States Senator Mitchell of Oregon, Foster of Washington, and Burton of Kansas were made to eat dog—not a dog, but real cooked canine.

The Senators ate the fare and called for more.

All of the delicacies that a Hawaiian culinary art can supply were there. Everything was well cooked and the party partook of every dish offered.

"Try some of this meat, Senators," said Senator Burton to his colleagues. "It is simply delicious; strange how these Hawaiians have learned the art of cooking pig. I never tasted such a delicious roast pig in my life," said Senator Mitchell.

The other Senators tasted of the "pig" and declared it excellent. But the "pig" was one of the famous Hawaiian "Lau dogs."

**Pleased With Oregon.**

Thomas Ulvin, one of the old residents of this city, who is well known all over the northern part of the state, is spending several weeks in Oregon, where he went to look up the timber claim situation. In a letter written to Judge Hassell of the county court, from Roseburg, Oregon, a few days since, Mr. Ulvin says he arrived there a week ago, but has not had time yet to look for timber on account of forest fires which have been raging in that vicinity for some time, doing incalculable damage to farm houses, timber and mining property, and which nothing but a heavy rain will stop. He is well satisfied with the trip and says good claims are to be had. He says many of these in search of claims take up two, one under the stone and timber law, and the other as a homestead. He says the big lumber companies will pay from \$1,500 to \$2,000 for a good claim, and that within a short time they will pay more than that, as thousands of people are taking up land as fast as they can, and the best of the claims are being taken out of the market rapidly. He says the land laws there are much more liberal than they are here. All that is necessary to take up a stone and timber claim is to have seen the land before filing, and three months thereafter final proof can be made by paying \$2.50 per acre.—Herald, Grand Forks, N. D.

**GENERAL NEWS.**

The income of the Suez canal last year was \$19,450,000, being due from 3093 vessels which passed through it.

There are 291 suicides in San Francisco annually; out of every 100,000, a gloomy city notwithstanding its golden gate.

The United States National and the Ainsworth National banks of Portland will consolidate November 1, under the former title. J. B. Ainsworth, of Seattle, will be the president of the bank.

A public statement just issued by Major General Corbin says that "Major Gene S. B. M. Young will be the next lieutenant general of the army." Lieutenant General Miles will retire on age limit next August.

President Roosevelt celebrated his forty-fourth birthday Monday. His toasts in the White House were filled with choice flowers by friends. The president did not allow the birthday recurrence to interfere with the transaction of the regular business.

A man who came here two years ago from the east, was today talking of Oregon's equable climate. In pure language he said: "No sunstroke, no hydrophobia, no suffering from cold, no wild storms, no drought—why Oregon is the best state in the Union—and I've lived all over the country and know."

J. B. Gilbert, a farmer living near Portland, was found dead Monday in a hog pen, his body having been partially eaten by the swine. An artery in one of his legs had been severed by a thrust from one of the boars, which he had apparently tried to separate from another animal during a fight. It is supposed that the loss of blood was so great he was unable to save himself and lay down to die while the hogs devoured his flesh.

Portland Telegram: Judge Burnett, of Salem, has rendered a decision of importance to hopgrowers, to the effect that the ordinary contracts made for sale of hop crops are voidable, because they are too one-sided. They are intended to bind the grower, if hops should rise, but to leave the buyer loose to avoid his contract if the price should decline. It is all turkey for the buyer and buzzard for the producer. It is an unusual decision, but one in accord with equity.

Elizabeth Cady Stanton, the well-known woman suffragist, died Sunday at her home in New York. Old age was given as the cause of death. She was 85 years of age at the time. About a week ago Mrs. Stanton began to fall rapidly. This became more noticeable last week, and then it was known to the family that her death was only a question of days or hours. She was 87 years old. The children of Mrs. Stanton are: Mrs. M. F. Lawrence and Mrs. Stanton Blotch, of New York; Henry and Robert L. of New York; Theodore, of Paris; and G. Smith, a real estate broker at Warden Cliffs, Long Island.

For Rent—180 acres level land near town, with buildings etc., for one year. Immediate possession.

Roseburg, Ore.

**BUSY SCENE IN NORTH ROSEBURG**

**New Townsite Officials and Great Central Railroad Officials Directing Improvements.**

The new townsite or addition to Roseburg and the Great Central Railway depot grounds in North Roseburg presents an animated scene these bright autumn days. Early this week the big wheel scrapers and plows combined and the heavy wagons recently ordered by S. K. Sykes, a local hardware dealer, for the Great Central people put in an appearance and were immediately taken to the newly-acquired grounds of the company in the Buley tract, North Roseburg. On Tuesday morning teams and men were put to work with the plows and scrapers in the new townsite grading the streets and uncovering a buried ledge of rock on an elevation where a stone quarry will be established from which rocks for the street grading and building foundations will be secured.

Work on the new headquarters building, 30x100 feet, in the same locality is being rapidly prosecuted and it will soon be completed and ready for occupancy. The company has also purchased the large dairy barn of Gaddis Bros. in the same locality and have had a force of carpenters at work enlarging it, building corrals and putting in a large supply of feed in order to carry their horses through the winter in good condition.

It appears that everything is being put into shape for active operations in the spring, as early as weather conditions will permit construction work on the new roadbed out from this city both east and west.

Engineer Lindley and Surveyors French and Bell, of the Great Central Railway, left Wednesday to make a preliminary survey of a certain portion of the route between here and Myrtle Point for the locating party which has been steadily operating on the line for some time.

Work on the Klamath Lake Railroad.

Increased vigor is noticed in the progress of construction of the railroad up the Klamath river from Laird station on the S. P. Co.'s line. A couple of hundred extra men have been put to work during the past week and the construction crews will soon be laboring on Oregon soil. Materials have arrived for the construction of buildings at Laird's station and it is expected that within a short time operation will begin on the erection of the big mill that the concern proposes to have in connection with the railroad enterprise.

**DOUGLAS COUNTY NUT ORCHARD.**

**A New Industry which will Prove Very Successful and Very Profitable.**

It has long been conceded that Douglas county is one of the very best and largest fruit producing counties of the state, owing to the peculiar adaptability of its climate and soil to the growth and maturity of all kinds of fruits, common to the temperate and semi-tropic countries, including peaches, pears, apricots, apples, plums, cherries, grapes, etc., but not until the past few years has it been practically demonstrated that this county is also particularly adapted to the cultivation of nut orchards. However, a practical test given this branch of horticulture by a few enterprising orchardists of the Umpqua Valley has been productive of results beyond the most sanguine expectations of the experimenters. Not only was the fact demonstrated that the nut tree would grow rapidly and vigorously here, but that it produces well, begins bearing as early as in its native country and matures well. The varieties which seem to give promise of a large and never failing crop here annually, and are consequently the most practical for cultivation are the Soft Shell Almond and the Filbert. Good young orchards of both varieties are now in bearing in this county, and give promise of profitable returns on the investment in a short time.

One of the largest and most successful cultivators of a nut orchard in this county at the present time is Mr. Morrison, of Brockway. His Almond orchard contains 2000 fine thrifty trees, six years old from which he marketed 1000 pounds of fine Almonds as has ever been in Roseburg this week, the retail price brings 20 cents per pound. Next year this orchard will be in full bearing, and a large yield is contemplated. Mr. Morrison is well pleased with his investment and experiment and feels assured that he has inaugurated another profitable industry in this county. A fine sample box of Mr. Morrison's Almonds may be seen at this office.

**INDIANS HEED MOON'S WARNING.**

Consider the Recent Eclipse an Omen of a Severe Winter.

VANCOUVER, B. C., Oct. 27, 1902.—In a drizzling rain this morning a large band of Indians from the Nanaimo reserve left for Cameron Lake, armed with shotguns, rifles and hunters knives. They are after a whole winter supply of food. For years they have made a practice of obtaining food from day to day throughout the Nanaimo winter as in summer, but a bad omen, the recent eclipse of the moon, which was clearly visible from Nanaimo, has caused alarm among them. They recall a winter of 29 years ago, when Nanaimo harbor was frozen over, and declare that the eclipse was a warning of a repetition of that hard season, when there was but little game to hunt and it was too cold for hunting.

**SUCIDED BEFORE HIS GUESTS.**

Peterson Blew His Brains Out at the Banquet Table.

NEW YORK, Oct. 27.—Alfred Peterson, a Swedish piano-maker of this city, after being out of work some time, became downhearted. His friends told him to cheer up. He told them he would be glad to do so, and invited them to form a party at his home. The guests arrived, and after an evening of gaily Peterson arose to propose a toast. He said:

"Here's to our dear fatherland, to which my spirit will fly."

Peterson drew a revolver as he concluded, and before his horrified friends could interfere, he fired a bullet through his brain and fell dead.

**Probate Orders.**

Ben Huntington has been appointed guardian, and H. D. Yett, William Hellwell and John Wise appraisers, of the estate of Ira L. Applegate, an insane person.

Last will and testament of Jas. B. Fenton, deceased, filed for probate. Mentions therein Wm. J. Shipley executor, who declines to qualify. J. C. Fullerton is then appointed admr. of said estate, which is of the probable value of \$1,985.

**Fortune Favors a Texan.**

"Having distressing pains in head, neck and stomach, and being without appetite, I began to use Dr. King's New Life Pills" writes W. P. Whitehead, of Kennedale, Tex., "and soon felt like a new man." Infallible in stomach and liver troubles. Only 25c at A. C. Marsters drug store.

**Catarth of the Middle Ear.**

Produces deafness, causing ringing and crackling noises; makes your ears discharge, causes ringing in the ears, due to the entrance of the catarth inflammation into the eustachian tubes, which are two small tubes connecting the ears with the nasal canals, and entering the latter canals at a point well back toward the beginning of the throat. This roaring disappears only when the catarth inflammation in the nose and throat has been cured. Smith Brothers' S. B. Catarrh Cure taken regularly will reduce and cure all catarth inflammation. Many who have been deaf for years have had their hearing restored by the use of S. B. Catarrh Cure. For sale by all druggists. Book on catarth free. Address Smith Bros., Fresno, Cal.

**Balding Will Not Hang.**

SALEM, Oct. 27.—Chief Justice F. A. Moore yesterday granted a certificate of probable cause in the Belding murder case. This means that the execution of Belding will not take place at Portland Friday, as ordered by the court, but that execution will await the decision of the Supreme Court on the appeal.

**Printing Press for Sale.**
