Mayor Hoover has called a special meeting of the city council for 20 night, to ascertain if possible way there is not any water in the reservoir for fire protection. The pipes of the Roseburg water company are broken near Winchester, and there has not been any water pumped into the reservoir for two days. In another column will be seen a small display at the S. C. Company, of Roseburg. This company manufactures the ingenious supplemental chamber for rifles of various calibers. It Served Him Right.

W. A. Rose, a drummer from Boston came in on the morning train from the north, and when in the office of the hotel as one of the young ladies passed by he grossly insulted her. When the doors were opened for breakfast he sat down to a table and when the young woman, who is very modest and retiring, approached him for his order, he insulted her again. This was too much for her and with one blow in the face she closed a peeper and then she scratched his face until it looked as though he had been through a threshing machine, and any man who insults a woman deserves the same fate. Well, the drummer got out quickly and hired a buggy to drive him to Grants Pass, and his luggage will be shipped by express.
