Don't Torture Your Feet

No woman can afford to ignore her shoes unless she hands in her resignation to polite society. Her shoes determine her walk, her walk determines her style, her carriage, her posture, her whole attitude and bearing as she moves about.

A ladies' shoe should be light in weight and very flexible to the foot to enable her to walk in an easy, graceful manner. This is the special charm that makes Queen Quality shoes so popular.

They are trim and neat in shape as so many other shoes are, but they go farther than this, farther than any shoe, in actually creating an elastic, graceful step.

FRANCE IS WITH UNITED STATES.

Identity of Interests of These Two Nations in Venezuela May Lead to Joint Action.

WASHINGTON, Jan. 31.—There is reason to believe that the French Government already has sounded the United States Government to learn how much in common there may be between their interests in Venezuela. It is said that there is a strong resemblance between the claims of the two nations; perhaps enough to link them together in resistance to any policy on the part of the allies which would tend to destroy or impair those interests. For instance, the United States, through a regular tribunal, the Venezuelan Claims Commission, has secured judgment against Venezuela for a considerable sum of money which Venezuela has been paying in installments. Recently these payments have been delayed, and as the money comes in large part from the Venezuelan customs the United States may have very good legal right to protest against any conduct on the part of the allies which will prevent its debtor from meeting its obligations to the United States.

France, by treaty and negotiations, has secured what amounts to a judgment against Venezuela, and the claims that her debtor must not be destroyed or Venezuela's means of meeting her payments to France impaired, as was the case by the adoption of the preferential treatment demanded by the allies.

These considerations are tending to draw France and the United States together in a policy that is likely to take issue with that of the allies.

All the members of the Cabinet were present at the meeting today, Secretary Moody having returned from his brief vacation.

Bad Man Gets Punctured.

SPOKANE, Wash., Jan. 30.—Charles Hill lies dead at Davenport, Wash., as the result of a fracas in which he attempted to kill Joseph Hoy, by firing two bullets into his body and threatening to slay William Sullivan, the proprietor of the Wonder saloon, of that place.

Marshal Jack O'Farrell and Deputy Marshal Eppert came on the scene when Hill was upping bullets into Hoy, and with two shots they laid Hill out. One bullet struck him in the breast, while the other struck him between the eyes. He died a few minutes later.

Hoy, whose life was saved only by the timely arrival of the officials, will probably recover.

Hill was known as "Sweet Charlie." He came to Davenport from the ranch of Charles Turner, who lives south of Davenport. It is not known whether he has any relatives.

TO COLLECT THE TAXES.

Cuba to Collect from Americans on the Isle of Pines.

HAVANA, Jan. 30.—General Nunez, governor of the Province of Havana, in which the Isle of Pines is included, says that the government has directed the municipal officials in the Isles of Pines to collect the taxes which the American residents there decline to pay. In default of payment, the officials will have recourse to the courts. Governor Nunez attributes the memorial on the subject, recently sent to Washington by the American residents, solely to land speculators, who, he alleges, misinformed the buyers to the effect that the island was bound to belong to the United States.

AMERICA BUYING WARSHIPS.

Rumor That Chile Has Sold Us Two Vessels Now Being Built.

NEW YORK, Jan. 31.—La Tarde, the Liberal party newspaper of Santiago, asserts that negotiations are in progress for the sale to the United States of the two Chilean warships now being built in England, says a Herald dispatch from Valparaiso, Chile. The paper adds that Chile and Argentina are discussing the advisability of following a joint international policy.

A GREAT SCHEME FRUSTRATED

Measure to Give Land Agent Patronage—Scheme of Democratic Origin.

SALEM, Or., Jan. 29.—The Senate reversed itself this morning. After there had been passed under suspension of the rules a bill introduced by Senator Pierce, Democrat, by request, which ostensibly was merely to define more clearly the law relating to the office of state land agent of a deputy at a salary of \$1200 a year. There is no such provision in the present law. This discovery was made by Senator McGinn, who quickly called to the attention of the Senate, and moved the reconsideration of the vote by which the bill had been passed.

Pierce quickly seconded this motion, and explained that he had no idea when he presented the bill by request that it contained such a provision as this. The bill had been handed to him, he said, and he had not even read it. After the

RAISE SALARY OF PRESIDENT.

Bill Introduced in the House to Pay Him \$100,000 a Year.

WASHINGTON, Jan. 29.—Representative Bristow, of New York, today introduced a bill increasing the salary of the President of the United States to \$100,000 a year.

When the House met today it was agreed that at tomorrow's session bills from the committee on claims should be considered, and that recognition should be accorded to members alternately on each side of the political aisle to call up bills on the calendar. The House then resumed consideration of the Indian appropriation bill.

Lacey (La.) offered an amendment to authorize 50 children of native Porto Ricans to be admitted to the Carlisle Indian School.

The appropriation of \$10,000 for the warehouse at St. Louis was restored, and without further substantial amendment the bill was passed.

The House then took up the consideration of the postoffice appropriation bill, and Patterson (Tenn.) took the floor under the latitude of general debate to discuss the subject of anti-trust legislation.

To Stop the Lieu Land Grant

The following bill has been introduced by Senator Margery, and of all the bills introduced we regard it as the best for the true interest of the state:

WHEREAS the Congress of the United States has heretofore enacted certain laws whereby certain persons and corporations have been enabled to select and have patented to them by the government of the United States large tracts of the best timber lands of the State of Oregon, selecting them in lieu of lands claimed to have been lost to the persons or corporations so selecting in other states; and whereas under certain laws of congress heretofore passed such persons and corporations so selecting such timber lands were given the right and privilege to select unsurveyed lands; and whereas they were thus enabled to select the best timber lands in the state for lands in lieu of almost worthless lands lost in other states, to the detriment and injury of the State of Oregon; therefore,

Be it resolved by the Legislative Assembly of the State of Oregon: That in justice to the people of said state all laws and parts of laws authorizing any person or association of persons, corporation or corporations, to select lands within the limits of the State of Oregon in lieu of lands lost to such selecting party outside of said state should be repealed.

Be it further resolved, That the Congress of the United States should pass such laws that any lands selected as indemnity for lands lost to the selecting party or corporation, or any other person or persons whomsoever, within the limits of the State of Oregon, must be in lieu of lands lost to such selecting party within the limits of said state and no base allowed or accepted in lieu of land desired to be selected, except such as is furnished from land lost to the selecting party within the State of Oregon, and congress is hereby requested to enact such laws that be the policy of the State of Oregon, will be protected in its lands in this respect.

That this memorial be telegraphed to the Secretary of the Interior and to our senators and representatives in congress, and that duly certified copies thereof be forwarded to the presiding officers of the Senate and House of Representatives of the United States.

SCANDAL IN THE PENITENTIARY

Woman Convict Figures in the Case. Files Charges Against Deputy Warden Dilley.

SALEM, Or., Jan. 30.—On the voluntary testimony of Mrs. Rose Carlisle, one of the two female convicts at the State Penitentiary, and who says she is in a delicate condition, Second Warden A. C. Dilley and Druggist Gordon Hull have been suspended by Governor Chamberlain and Superintendent J. D. Lee, pending a full investigation which is to be made into the facts of the case. Mrs. Carlisle accuses Dilley of being responsible for her condition, and Hull is held because he has been aware of the facts in the case and has failed to report them to the proper authorities.

Rumors of the impending trouble were freely discussed about Salem last night, and at 8 o'clock this morning Governor Chamberlain, who had been informed concerning the matter, went to the penitentiary to make an examination. He was absent four hours, and when he returned to his office in the State House, announced what had been done regarding the suspension of these two men.

Mrs. Rose Carlisle was sentenced from Jackson county to serve nine years for the crime of arson, and she has already served 2 1/2 years of that time. Now that the matter is being investigated she talked freely to the Governor, and told him she had been in a delicate condition for four months. Another man than Dilley had access to the cells of the women, Convict White, a trusty who acted as prison nurse, and who, it will be remembered, made his escape some 10 days ago. There was some disposition to throw the blame on him, but according to Governor Chamberlain, the woman makes her charges against Dilley. The latter is a Salem man, being a widower with one child. Second Warden Dilley received his appointment from Governor Geer. He is well known in this locality, having been Chief of Police in Salem.

Hull, the suspended druggist, is from Sehamah. It is charged that he has been acquainted with the facts in the case, and was acquainted with them before White made his escape, but made no report. Governor Chamberlain declares he will probe the case to the bottom. Dilley, of course, disavows the charge made.

Governor Signs Bills.

SALEM, Or., Jan. 29.—Governor Chamberlain has signed the following local measures: To authorize Linn County to construct and maintain a ferry; to authorize DeWitt County to issue additional water bonds; to amend the charter of Eugene.

TO RIDE ON FREIGHT TRAINS.

Southern Pacific Company Will Issue Permits in Future.

The Southern Pacific lines in Oregon will hereafter issue time permits for passengers to ride on regular freight trains on East Side main line south of Albany, and all branch lines.

By signing a release for the extra hazard of riding on freight trains, a time permit can be secured which, when presented in connection with regular transportation, will authorize conductors of freight trains to allow the holder to ride on same. This action is taken principally to accommodate the commercial travelers, who will now be enabled to get over the territory covered by the Southern Pacific lines in Oregon with less delay.

Applications for these permits can be made to the superintendent direct, or through any agent or traffic representative of the company.

Medford Has a Kick

The Success of Jan 27th says: Medford appears to be in hard lines on the butter and cream propositions. Most of the butter now used in this city comes from Klamath county and California, consumers here paying the price of butter in those markets plus the freight to Medford and two or three intermediate profits. To make this burden more galling there is now being shipped from Medford to the Roseburg creamery the cream from 230 cows, which the dairyman sell at the Roseburg price, minus the freight of the 132 mile haul from Medford to Roseburg. And with all this balance of trade against the community the Roseburg creameryman has the effrontery to tell us that there is no business at Medford for a creamery, and that in the face of the fact that the dairyman say that with the opening of spring and a creamery here in Medford that they can supply cream from over 500 cows, all on farms within easy distance of this city. But will Medford always sell cream and buy butter and pay the freight both ways, together with three or four dealers' profits.
