**MEMORIAL DAY AT WASHINGTON**  
Hon. Chas. Emory Smith the Orator of the Day.  
Associated Press Dispatch.

Washington, D. C., May 30, 1903. With solemn and impressive ceremonies Memorial Day was observed in the National Capital on more elaborate scale than ever before. Business was suspended not only in the department of government, but throughout the city. People of all classes united in perpetuating the memory of heroes dead, who in thousands sleep peacefully in eight National cemeteries of the District of Columbia. The 18,000 graves in the cemeteries were strewn with flowers, and each marked with tiny American flags, a touching feature of the ceremony, typifying the country thoroughly reunited was the decoration of the graves in that section of the cemetery where lie the unknown Confederate dead. The Philadelphia Press, delivered the oration of the day, and he spoke not only of the blessings secured through the tribulations of 1861-1865, but of the blessing the United States government would be in all our recent possessions. His oration is declared to be one of the best ever delivered in Washington.

**After Calving.**  
Good care previous to and after calving is the best preventive of milk fever. About three weeks before calving gradually reduce the allowance of corn and give oats and bran in its place. The cow should be fed very lightly for a week before and the same length of time after calving. She should be provided with a rough feed to do any harm, but one must be careful to limit the amount of ground feed. As a laxative there is nothing better than linseed meal fed with the ground feed—one-half pint each time about twice a week. If a cow will eat moist feed with a tablespoonful of lard to it she will not require linseed meal. She should be provided with plenty of clean bedding. If the calf does not take all the milk she should be milked clean. When the udder is swollen and caked with salt and vinegar, rub on thoroughly with the hands, and milk three times a day. It is thought by those who have given the subject study that the dread disease, milk fever results from mild blood poisoning after calving. By keeping the system free and providing clean quarters, one may reduce the danger considerably. A valuable cow is worthy of special care, and if she is not worth a little extra trouble better dispose of her at once.

**Hope for the Philippines.**  
Maj. F. W. Halford, formerly secretary to President Harrison, who has had considerable experience in the regular army in the Philippines, has no patience with the critics of our policy in the islands.  
"The islands," he said, are capable of great development; the process of educating and Christianizing the Filipinos will be slow, and no material prosperity can be hoped for until the people are enlightened." Continuing, Maj. Halford said: "I have no patience with this Kiplingism that we hear so flippantly whiffled about with the smoke of golf cigars by men in luxury in their clubs and drawing rooms here—this assumption that the Filipino won't work and can't be made to work, that the East can't be hustled. The East is being hustled now. He will work now. He will be a much better workman when he has been taught that his work counts for something for himself and his family and his country. The countries that he has been under the domination of Spain, when his work did not count, have left their mark on his character and this must be eradicated by the civilizing influence of good government and of Christianity."  
"One of the great factors in favor of the Christian missionaries in the archipelago is the administration of justice by the courts of this government. The Filipinos are getting the idea that the means of them, the most insignificant of them, can go to the courts and get justice. It used to be that there was no one in his going to them."

**According to dispatches, the situation in Manchuria is unchanged, and all accounts agree that Russia is preparing for contingencies. A well-qualified military officer on the spot reports that Russia is making extensive preparations, including the place of orders for 250,000 tons of coal, which betray a warlike attitude. Steamers, says the correspondent, are constantly unloading coal and breadstuffs at Port Arthur. M. Lassar, the Russian minister, is expected to arrive in Peking, tomorrow.**

**HOLOCAUST AT TOPEKA**  
Terrible Fire in which 100 Lives are Lost.  
Associated Press Dispatch.

Topeka, Kansas, May 30.—It is estimated that 400 houses have been burned in Topeka tonight by fire which broke out about 6:30 p. m. All of North Topeka will probably be burned and it is believed more than one hundred people have been burned to death and drowned. Many houses on fire are floating about in the flooded district, setting fire to other buildings. Financial loss will run into the millions.

**A Long Sleep.**  
New York, May 30, 1903.  
Marguerite Boyval, of Thelles, near San Juan, who had been in a cataleptic condition since May, 1883, has awakened. For some time past she has suffered from phthisis, and it is believed that the effect of this malady on her system caused her to fall into a coma. She moved her hand Monday for the first time and groaned slightly, and subsequently replied to questions by "yes" and "no." She was, however, in a state of great weakness and gradually sank, dying the day after awakening.  
Marguerite Boyval's lethargy was caused by thirst. She had had a child, which died shortly after its birth under circumstances which led to the opening of an investigation. One day in May, 1883, while Marguerite was ironing, a neighbor said to her: "The gasmeter around to arrest you." Marguerite had a stroke of fit, and gradually fell into her long slumber.  
In 1896 the girl was described as being white as a statue and corpse-like as a nun. Her body wasted away all at once, and her bones seemed to be covered with parchment instead of skin. The body was rigid and only the pulse-beats showed that she was alive. She was sustained by washing her body with milk or spirits and injecting milk into the sleeper's mouth through a syringe. Many prominent physicians visited the patient during her 20 year's sleep.

Associated Press Dispatch.

KANSAS CITY, Mo., May 30.—Fourteen lives have been lost and fully 50,000 persons rendered homeless from almost unprecedented floods now raging in Oklahoma, Indian Territory, Kansas, Missouri, Nebraska, and Iowa. Financial loss is immense, and is growing greater. Present estimate is \$20,000,000.

Rain is still falling in the southwest and the weather bureau predicts that the disastrous floods of 1881 will be exceeded and that the worst is to come.

**Presbyterian General Assembly.**  
Last Friday Los Angeles, Cal., the General Assembly passed the following resolution:  
"Whereas, This hierarchy, known as the 'Church of Jesus Christ of the Latter Day Saints,' persists in the active encouragement and practice of the crime of polygamy; in disregard of their own pledges and oath to the contrary; in contempt of the ethical convictions of the American people, and in defiance of the laws and constitutions of the State of Utah and the United States; and  
"Whereas, This hierarchy, recently, January 20, 1903, through the Utah Legislature, has had elected to the United States Senate a high ecclesiastic, one of its chief authorities, the apostle, Reed Smoot, in direct violation of its pledges to the Nation to refrain from interference with the affairs of the State; and  
"Whereas, This apostle, Reed Smoot, is a direct representative of polygamy; born of its system, and in cordial sympathy with it as a divine institution, revealed as a law of primary obligation, and made mandatory by the most solemn sanctions, and encourages its practice by his personal influence as an apostle; and  
"Whereas, in this doing this the apostle Smoot aids and abets criminals menace the American people, is unfaithful to the laws and Constitution of the United States; pays the first allegiance to the first presidency and apostolate, to which he belongs, and is re-proached to the honor and dignity of the American Senate; therefore,  
"Resolved, That this Assembly most respectfully but earnestly calls upon the people of the United States to use their utmost endeavor, employing all honorable means, to secure the expulsion of Apostle Reed Smoot from the halls of the Senate; and urges the Senate itself to each member thereof to exhaust all legal means to secure such an amendment to the Federal Constitution.  
"This Assembly also calls upon the people and Congress of the United States in both Houses, and each member of each House, to employ and exhaust all legal means to secure such an amendment to the Federal Constitution as shall define legal marriage as monogamy, and polygamy, under every guise and practice, a crime against the United States, punishable by adequate penalties, including disfranchisement to vote or hold office in the United States or in any state or territory under the jurisdiction of the United States."

Associated Press Dispatch.

SALISBURY, Ore., May 30.—Mrs. F. G. Tolle, a patient at the insane asylum, in one of the violent wards, at 8 o'clock this morning came into possession of some matches, concealed herself in the linen closet, set fire to her clothing and died almost immediately. The first thing the attendants had of the inmate was when they saw smoke coming from the linen room. They rushed in and saw Mrs. Tolle standing in the corner enveloped in flames. They dragged her out and wrapped blankets around her and extinguished the fire, but it was too late she died in a very few moments. Mrs. Tolle was 34 years old and was committed to the asylum from this county last year.
