The Carnival Opened.

At 8:10 oclock last evening, Matt Gay ascended the 86 foot tower and prepared to make his sensational leap. F. H. Burch, the promoter of the fair, who has been in this city for the past four weeks, addressed the mass of people who had gathered to witness the first free performance. He said that the Southern Carnival Company were prepared to keep every promise made to the people, they intended to treat the public in a fair and business like manner and that every attraction was exactly as represented. Mr. Burch was greeted with applause at the close of his remarks and immediately afterwards Matt Gay hurled himself from the dizzy height of the electric lighted tower turning a complete somersault and alighting in the tank, containing but five feet of water. The band started playing at the Stadium, the lions roared at the Animal show, the hawkers called the attention of the sight-seers to their different attractions, and the big thing was on.

Piano Buyers.

You will notice that we do not have to be continually striking out for a new make of Pianos. The Needham has been our leader for 14 years and is today a leader among the high grade pianos of the world. Some cheap pianos are made high grade simply by getting a boost in the Oregonian or some other leading paper, through those big dealers who think they can, and do make the majority of people believe it simply because they say so. It doesn't take ink, boost or high commissions to make a good piano, but instead the very best mechanics, and the very best material such as are always used in Needham pianos. 29-tf
