

POPULAR NORTH BEACH.

Roseburg People Will Find This an Ideal Recreation Resort.

Many Roseburg people have decided to spend their vacation at Popular North Beach, at the mouth of the Columbia. Leaving Portland (daily except Sunday and Monday) on the O. R. & N. Co.'s palatial Steamer T. J. Potter—queen of river boats—five hours are consumed in making the trip to Astoria, the scenery including all that is beautiful, and through the great salmon fishing waters of the Lower Columbia. After a short stop at Astoria, the steamer is off for Ilwaco, on Baker's Bay, where the passengers board the train waiting and are soon off for North Beach, the popular summer resort of the North Pacific coast. During the trip from Ilwaco the first good view of the Pacific is secured, the train running along the ridge of the beach within two hundred yards of the breakers. The beach is twenty-seven miles long, two hundred yards wide at low tide, and so hard that carriage wheels scarcely leave a mark. It is an ideal place for driving, riding, wheeling, or walking, and the surf bathing is unsurpassed. The excellent hotels and boarding places provide good accommodations at prices ranging from one dollar to three dollars per day. The round trip rate from Portland to Astoria is \$2.50; to Ocean Beach points \$4.00, good until October 15th. On Saturdays, during July and August, round trip tickets are sold to beach points at \$2.50, good for return leaving the beach the following Sunday evening.

Meeting of Prune Association.

At the annual stockholders meeting of the Willamette Valley Prune Association at Salem held on the 11th inst, a suggestion was made by visiting prune growers from Clarke county, Wash., that a meeting of representatives of the various association and all growers interested to be held at Salem at an early date to consider prices for this seasons product. The Association believing the suggestion to be in the interest of the growers and for the good of the industry at large has called such a meeting for Saturday, July 25th, to be held at the office of the Association in Salem at 1:30 p. m.

A large and representative attendance is greatly desired as the occasion is extremely important.

WILLAMETTE VALLEY PRUNE ASSOCIATION.

Cattlemen are Armed.

Reports coming from Cheyenne Wyo., are to the effect that a battle between troops and armed cattlemen is believed to be imminent in Big Horn County. Sheriff Fenton and Deputies left Thermopolis for Basin at 8 o'clock yesterday with his prisoner, Jim McCloud, charged with the murder of B. Myrick, a stockmaster. The party is escorted by the Basin Light Battery of 40 men, under Captain Price. It is reported that a large force of cattlemen have fixed an ambuscade on Cottonwood Creek, 25 miles from Thermopolis, and will endeavor to rescue McCloud and assist him out of the country.

The state troops at Lander, Buffalo, Sheridan and other near-by points have been ordered to hold themselves in readiness to take the field at a moment's notice.

The annual migration of toads from Lake Ewauna to Upper Klamath Lake began last week, according to the Klamath Falls Express. There are millions of them. They cover the walks and streets in the vicinity of the river and it is not easy to avoid stepping on them. Their natural home is Upper Klamath Lake and they are instinctively drawn thither. This is the explanation: The spawn is deposited in the upper lake and floats down the river and lodges among the tules in the lower lake. The moment they are hatched they note the strange surroundings and their little pericardiums flap and flutter for the hallowed precincts of home. Thus, simultaneously inspired, all start for the upper lake as fast as their diminutive legs will carry them. These millions of toads are highly beneficial in destroying atomic impurities and so contribute to the health of the climate.

Song—Good night; by Mr. Adkison and Miss Hattie Harvey.

Miss Hattie Harvey, teacher.

Uncle Sam's children drink considerable stuff of one kind and another that does not "flow from the well," and they are paying a good, round sum for these beverages. The exact amount cannot be stated, since there is no record of the receipts of retail establishments, nor can the first cost, that is the price received annually by manufacturers, be accurately stated, through a writer in a temperance paper claims that in 1902 the first cost of liquor consumed in the United States was in excess of \$300,000,000. In that year the total production of all kinds of distilled liquors was 128,568,200 gallons, and the production of wine was 24,306,000 gallons. The malt liquor produced, according to the Brewers' Journal, in the fiscal year ending June 30, was, approximately, 33,000,000 barrels. The value of imported liquors as furnished by the revenue officers, and for the year 1902, was \$15,249,640.
