Get New Reporter.

The Telegram should get a correspondent from Eugene who can be relied upon for truth and veracity. Some irresponsible scribbler writes that paper stating in so many words with reference to Eugene's water supply that:

Charges are made that the supply pumps pump the wells which are supposed to supply the city with pure water, dry, and that river water is turned into these wells to keep up the supply. It is a fact that considerable sickness has been traced to the use of the river water. An examination of the same has been made and hundreds of impurities found.

The correspondent either has it in for the water company or else is disposed to give Eugene a black eye.—Eugene Register.

Brother we are glad that you gave the correspondent a gentle hint, and we feel sure that the citizens of Roseburg would appreciate the article more if you had included this city and embraced the Oregonian and Journal. The finding by them of the naked body of Snyder near Perdue was a wonderful piece of news manufactured out of a pipe dream. The correspondents made no effort to get at the bottom of the case, but went on a wild unconfirmed rumor.

SOMEWHAT THEOLOGICAL.

The Reverend Bennett in the Review at great length has copied Colonel King's article as published in the Oregonian last November on Congressman Williamson's metamorphosis from being a lady's bird to a flower and from a flower transformed into a donkey. Now the Bible only gives an account of two kind of asses: one is a four legged ass and is known by the length of his ears and the other is a two legged ass and is known by the length of his bray. Brother Bennett the PLAINDEALER will not dispute your claim to bray.

European War News.

SOFIA, August 23.—Reports from Monastir say 200 women who have arrived there from the Bulgarian village of Rakovo have presented petitions to the Russian and Austrian consuls and to Himi Pasha, the inspector general, setting forth that their village has been burned and that all the males of the population have been massacred. Fifteen villages in the district of Okrida, three in the district of Lerin and three in the district of Rezen have been destroyed. Further details of the fighting at Krushevo show that the insurgents retired to a point in the vicinity of the town after losing sixty men killed and twelve wounded. The Turkish loss was 250 men killed or wounded. A band of seventy insurgents near Kofje, in the vilayet of Uskub, fought a detachment of Turks all day. The Turkish losses are not known. On the following day a party of Bashi-bazouks entered the village and slaughtered all the inhabitants. Severe fighting is reported to have occurred near Vetarsko. The result is not known.

A dispatch from Salonica of Friday's date says: The Turks entered the town August 14, pillaged all the houses, assaulted many of the women, stripped many persons naked and killed about 300 local Bulgarians and also some 60 innocent Greeks and Vlachs. The people are starving. The material damage amounts to several million francs. The Turks on August 19 massacred 200 Bulgarians who surrendered at a village near Monastir.

Lord Salisbury, who for years was the Premier and actual ruler of England and her colonies, died on Saturday.
