America, Russia, Japan, China.

While other nations, especially Great Britain, have more reason than the United States to fear being involved in case of hostilities in the Far East, none is for trade reasons so directly or so largely interested.

Within the year the United States has passed Great Britain in the amount of its trade with Japan. No other nation has trade interests with the "island kingdom" at all comparable with these two.

United States Consul Heenan, in Oaessa, reports that 1903 has been a very good year for the sale of American farming tools in Russia. Special consignments of these have been sent to Odessa direct.

Setback for Russia.

At all the European capitals with the exception of France and Russia, there is an unbroken chorus of approval of Japanese and American diplomacy in prevailing on China, despite Muscovite threats, to open the door to foreign residence and trade in Manchuria.

It is believed that henceforth Japan, England, America and the rest of the expanding nations will systematically practice in the far East, and other parts of the globe where great markets await development, the Muscovite principle of social and material occupation as the only barrier against discrimination or exclusion.

To Be the Receiver at LaGrande.

WASHINGTON, Jan. 19.—President Roosevelt has sent to the Senate the nomination of Albert A. Roberts, to the Receiver of Public Moneys at LaGrande, Or.

Following the removal of Asa Thomson, as Receiver of the LaGrande office, it was expected, in political circles, that a successor would be chosen from the rank and file of the wing of the party in power. It was predicted some time ago, as soon as it was known that the authorities in Washington would not re-nominate Mr. Thomson, that Al Roberts would be named as his successor.

Congratulations.

Mr. John H. Cullom, Editor of the Garland, Texas, News, has written a letter of congratulations to the manufacturers of Chamberlain's Cough Remedy as follows: "Sixteen years ago when our first child was a baby he was subject to croupy spells and we would be very uneasy about him. We began by using Chamberlain's Cough Remedy in 1887, and finding it such a reliable remedy for colds and croup, we have never been without it in the house since that time. We have five children and have given it to all of them with good results. One good feature of this remedy is that it is not disagreeable to take and our babies really like it. Another is that it is not dangerous, and there is no risk from giving an overdose. I congratulate you upon the success of your remedy." For sale by A. C. Marsters & Co.

Found a Cure for Indigestion.

I use Chamberlain's Tablets for Indigestion and find that they suit my case better than any dyspepsia remedy I have ever tried and I have used many different remedies. I am nearly fifty-one years of age and have suffered a great deal from indigestion. I can eat almost anything I want to know.—Geo W. Emory, Rock Mills Ala. For sale by A. C. Marsters & Co.

PROTECTORATE OVER SANTO DOMINGO

THAT GOVERNMENT WANTS PROTECTION AGAINST REVOLUTIONISTS

UNCLE SAM HAS ENOUGH NIGGERS TO LOOK AFTER WITHOUT TAKING CONTROL OF SAN DOMINGO AND HAYTI.

NEW YORK, Jan. 20.—It is reported here, says a Herald dispatch from St. Thomas, D. W. I., that the Dominican Minister of Foreign Affairs, accompanied by a delegate, has left Santo Domingo for Washington to attempt to make arrangements with the United States to establish a protectorate over the Republic of Santo Domingo.

Vigorous bombardment of the capital continues by the forces of General Jimenez. Many refugees, including several Deputies, have arrived here on the French steamer from Port au Prince, Hayti.

NEW YORK, Jan. 20.—Seven hundred government soldiers are on the march to Santiago, the rebel stronghold, says a Herald dispatch from Puerto Plata, Santo Domingo. It is believed this battle will be the most important of the Jimenez revolution. The rebels are firmly entrenched in their capital, and it is presumed they will make a desperate resistance.

Details of the recapture of Puerto Plata a few days ago by the government forces show, according to the Herald's correspondent, that the commander of an American war vessel in the harbor practically managed the battle, and that a fighting zone demarcated by the commanders of the United States and British warships was accepted by the contending forces.

An American force, composed of eight men, with the Stars and Stripes, went to the firing line and demanded a suspension of hostilities. The commander of the United States warships then landed a force of 100 men and arranged for the surrender of the fort. The Americans disarmed the Jimenez forces, and later turned the fort to General Cespedes, in command of the government troops.

East Umpqua.

East Umpqua has so long been unrepresented, that the people of the county really do not know that in this small bailiwick, bounded on the west by Mount Scott, and extending eastwardly to Grater lake, that people existed, and some, even were living, and that it is a portion of the land of the free, and the forerunner of the timber cruiser.

In the past two years, this has been one of the storm centers of the timber craze. The cruiser has been much in evidence, conveying female ladies and divers male men to homesteads upon the virgin wilds of fir timber and camas meadows, where they can find homes and quietude, and be entertained by the soft purring of the festive wildcat, the joyous howl of the wolf, and the friendly snarl of the innocent cougar, all for the sum of \$100 per lady or gentleman victim.

Another attraction lies in the many rumors that Secretary Hitchcock proposes to increase the Forest Reserves, and that anyone locating within the limits of proposed increase, must take chances of an order to vacate, and a journey on snow shoes to the McCallum House, thence by rail to homes in Washington, Minnesota, and divers other foreign lands, and be safely at their own firesides where they can leisurely "cuss" Granny Hitchcock.

The homestead idea is both alluring and catching, especially when backed by the commutation clause, and the readiness of some capitalist or corporation to accept, at a good price, the commuted increment.

Of the many other attractions, and of the people who inhabit, must be left for a future "editorial."

The Southern Scourge.

In his inaugural address delivered last Tuesday before a joint session of the Mississippi Legislature, Governor James Vardaman declared that the growing tendency of the negro to commit criminal assaults on white women is nothing more or less than the manifestations of the racial desire for social equality. In strong terms he declared that education is the cause of the negro race, and urged an amendment to the state constitution that will place the distribution of the common school funds entirely within the power of the Legislature.

"As a race he is deteriorating morally. Time has demonstrated that he is more criminal as a freeman than as a slave; that he is increasing in criminality with frightful rapidity, being one-third more criminal in 1850 than he was in 1880.

"The startling facts revealed by the census show that those who can read and write are more criminal than the illiterates, which is true of no other element of our population. I am advised that the minimum illiteracy among the negroes is found in New England, where it is 24.4 per cent. The maximum is found in the black belt, Louisiana, Mississippi and South Carolina, where it is 65.7 per cent; and yet the negro in New England is four and one-half times more criminal, hundred for hundred, than he is in the black belt.

"The better class of negroes is not responsible for this terrible condition, nor for the criminal tendency of their race. Nor do I wish to be understood as censuring them for it. I am not censuring anybody, nor am I inspired by ill-will for the negro; but I am simply calling attention to a most unfortunate and undesirable condition of affairs. What shall be done about it?"

"My own idea is that the character of the education for the negro ought to be changed. If, after years of earnest effort and the expenditure of fabulous sums of money to educate his head, we have only succeeded in making a criminal out of him, wisdom could suggest that we make another experiment and see if we cannot improve him by educating his hand and his heart. There must be a moral substratum upon which to build, or you cannot make him a desirable citizen."

The Governor also declared that the people of the Nation should rise up and demand the repeal of the 15th amendment.

Postmaster at Medford.

WASHINGTON, Jan. 19.—President Roosevelt has sent to the Senate the nomination of A. M. Woodford to be Postmaster at Medford, Or.

(The appointment of A. M. Woodford as Postmaster of Medford, has a story back of it, showing that the Postoffice authorities at Washington require active service from postmasters who are named under Presidential suggestion. President McKinley named George Merriman as Postmaster at Medford, Or. Mr. Merriman was a blacksmith, but had taken considerable interest in politics, being a Republican. He was a man peculiarly inclined to the accumulation of flesh unless steadily engaged in active labor. Believing that he would be physically better if he returned to the forge, and took up the hammer again, he installed his son as deputy and for a few hours per day attended to the checking up of accounts, but straight business connected with the office he left to his son or the other clerks in the office.

Such tactics as that did not meet the approval of the citizens of Medford, and a protest was sent to the Department early last Fall. A. M. Woodford's appointment is the result.)

Farm for Sale.

There often comes a time in the struggle with pulmonary disease when the victim loses heart and gives up hope. The ambition to be up and around gives way before growing weakness, and the sufferer keeps to the bed.

No one who suffers from lung disease should lose heart or give up hope while there is a possibility of cure. In many cases Dr. Pierce's Golden Medical Discovery has cured lung "trouble" when the cough was obstinate and deep seated, with hemorrhage, emaciation, night-sweats and general weakness. A great many men and women are living today in the full enjoyment of health and happiness who had been "given up" by doctors, but found a perfect and permanent cure in the use of "Golden Medical Discovery."

"My wife had hemorrhage of the lungs," writes W. A. Sanders, of Heron, Mason Co., W. Va. "She had ten hemorrhages, and the people all around here said she would never be well again. But she began to take Dr. Pierce's Golden Medical Discovery and she soon began to gain strength and feel well. After taking six bottles she was fully cured. Should you think this would do you any good to publish just use it, and if any one doubts the merits of this almost omnipotent medicine they may enclose self-addressed envelope with six-cent stamp, and I will answer, the same as written in 'is letter.'"

ORDER Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.
