

BALL WAS A SUCCESS
Valentine Dance on Occasion of Much Enjoyment—List of Prizes.

Mozart Dancing Club's grand mask Valentine ball given at the Armory last Friday evening was fully the success that had been predicted. The ball was filled to overflowing with dancers and spectators, and a financial success was as evident as was that those participating were having a good time. Although the costumes were none of them expensive they were all well gotten up. A list of dances was filled before the printed programs were brought into use. At the close of this first part the prizes that had been announced were awarded by the judges which was composed of Misses Gerie East and Annie Wharton and Messrs. Barb Brockway, James Perry and J. W. Landers. The awards were as follows:

Best gentleman waltzer, Warren McWilliams; best lady waltzer, Miss Adie Saary; prizes, boxes of bonbons.

Best emcee, Charles, lady, first prize, "Vegetable Peddler," Miss Agnes Pritchard, silk umbrella. Second best sustained character, "Dat," Miss Gerie Hildebrand; music book.

Best dressed lady, "Japanese Lady," Mrs. S. K. Sykes, pair shoes; second best dressed lady, "America," Miss Dale Harmon, fur stole.

Consolation prize, "Country Girl," Wilbur Ross, lead grille.

Best sustained gentleman character, "Cooon Dale," Fred Olson, framed picture. Second best sustained gentleman character, "Granger," A. Q. Johnson, beer Stein.

Best dressed gentleman, "Indian Chief," Charles Ormer of Engano, sofa cushion. Second best dressed g. "Chinaman," Fred Miller, smoking set.

Best representation of laboring man, Will Severn, pair gloves.

Most awkward man, "Hobo," Howard Robinson, silver cream ladle.

Most comical character, "Two-faced girl," Miss Alice Hamilton, of Oakland; Indian basket.

Miss Lou Gilman was announced as the winner of the prize offer for selling the most tickets for the ball, and was presented with a gold pen.

The Mozart Club is a newly organized institution of which J. N. Ryan is president, B. W. Bates, secretary and treasurer and Elmer Wimberly, manager.

Drain Nonperils.

Dr. C. E. Wade and family returned Saturday from San Francisco where he had been the past month taking a course in the Post Graduate Hospital of the University of California. The doctor reports "Frisco" as dry as a bone, that is, speaking of the weather.

Last Tuesday afternoon the house belonging to J. M. Burnett and occupied by Lloyd Russell in the north part of town was discovered to be on fire and as the family were up town attending a funeral the building and contents were entirely consumed before anyone could get to the house to save anything. Everything was burned except the clothing they were wearing, and there was no insurance. It is not known how the fire originated.

Arthur Whipple, a nephew of L. N. Whipple, of this place died last Sunday morning Feb. 7, 1904, from injuries received Saturday. Young Whipple, who was living on a ranch with his grandfather near Waldo, had gone to the woods for a load of heavy chunk wood. While loading the wood he stumbled and fell, a chunk of wood striking him across the breast. He drove back to the house, thinking he was not seriously hurt, but the next day he was in great pain and medical assistance was summoned. His parents, who have recently moved to Grants Pass, were also notified and went to Waldo Saturday. The young man grew steadily worse and died Sunday morning.

Oak Creek News.

Myrtella Williams, of Fair View, left for the Burg, to attend the teachers' institute and pass the teachers' examination. School will open in March if a suitable teacher can be secured.

One day last week a man by the name of Flanagan was seen on the streets of Oak Creek in a bad condition mentally. He cut a queer figure for a while. The last seen of him he was going toward Glile.

Last Monday Alex Thornton, of Crane hollow, performed an operation on the jaw of one of our young men. We think the patient is better for he hasn't spoken since.

The young people of Oakland recently gave a surprise party to Mr. and Mrs. Henry Barker. A good time was enjoyed by all present.

Rev. W. E. Thornton, of Dillard, preached a very interesting sermon at Oak Creek church Sunday night.

Kit Atterbury and Bob Branch, from the Mt. Alto Ranch, were on the streets recently.

Sidney Schiessmann, of Oak View, is in the employ of L. Lilly, of Glile.

John Kernan and Robert Allison made a trip to Roseburg recently. They say black mud is just fine. Several of our boys make regular trips to Dixon hollow every Sunday.

SALLY

Chamberlain's Stomach and Liver Tablets. Unequaled for Constipation.

Mr. A. R. Kane, a prominent druggist of Baxter Springs, Kansas, says: "Chamberlain's Stomach and Liver Tablets are, in my judgment, the most superior preparation of anything in use today for constipation. They are sure in action and with a tendency to nauseate or gripes. For sale by A. C. Marsters & Co."

Filled in Circuit Court.

The following actions have been filed in the Circuit Court for the May term: A. J. Davis & Co., of Collins, Washington, bring suit against W. O. Bridges for judgment in the sum of \$250, said amount alleged to be due on a header. J. C. Fullerton, plaintiff's attorney.

Sam Rask vs J. A. Hein, action for money, asking judgment in the sum of \$108.13, amount claimed to be due for labor. O. P. Coshov, plaintiff's attorney.

Calcium Implement Co., of Welsh, La., asks judgment on personal note from W. R. Lyons, sum of \$308.05. J. A. Buchanan, attorney for plaintiff.

J. J. Cass Threshing Machine Co., of Racine vs W. R. Lyons, Wis., judgment on note for \$900. J. A. Buchanan, attorney for plaintiff.

Plaintiff Publishing Co., vs T. K. Richardson, asking for judgment on account in sum of \$78.70. J. C. Fullerton, attorney for plaintiff.

East Umpqua.

Something like the Phalarope of old, we of this part of the country, are thankful that we are not situated as other people are on the East side of the Cascades, although we have to admit, that just now the weather is not balmy, snow appearing quite plentiful on the hills, with occasional sightings of the "beautiful" in the valleys, and we feel that it is not having weather.

The boys and girls who have left their froes at home to locate homes among these hills for the benefit of capitalists or lumber companies, are experiencing the delights of wading in snow two and three feet in depth. Of course, if Congress does not repeal the commutation clause of the Homestead Act, and the Stone and Timber Act is retained, the capitalists will doubtless appreciate the discomforts of brave homesteaders, on behalf of corporations.

The political gospel according to St. Brooks, a chapter of which appeared last week in the PLAINDEALER, is a centrist and we unlovely republicans hope for salvation, and that the PLAINDEALER did it again. That Roosevelt Club of Roseburg will do a world of good, and we say "good boys are they."

The republicans of this little Ballik will try to send good men to the coming conventions and if any candidates for office announce themselves as residents of East Umpqua, it will be a safe bet that they possess a character that will "wash." If there are any republicans here who are opposed to the nomination of Theodore Roosevelt for President, their names are not known to THE OREGONIAN.

Saloon Sentiment.

It is hard for me and I presume for others to understand or comprehend the real status of the saloon to the mind of the public, or what would be the result of an analysis of the popular mind. And this thought is brought home to me just now in connection with the remarks of Judge Hamilton, as published in a recent issue of your paper. He alludes to the bonds given by all saloons and adds that he never heard of one being enforced. Now why is this anomaly in human affairs, if a bond is given, by a contractor for the execution of any kind of work and he violates his obligation or commission, he is ever so faithful in his efforts, in nine cases out of ten, he would be stripped and his bondsmen too, of everything he had, subject to execution to satisfy this bond and our city councils could see plainly enough that this would only be in their direct path of duty to their constituency.

But how differently do our city fathers feel about a saloon bond. They are simply ignorant and the people are so used to this way of dealing with the matter that they hardly realize that they are losing just that amount of money.

Now why I ask should the saloon engage this immunity, true we get a lot of money out of them, but we all know that it is only the price of blood and it would be infinitely better for the land we live in, and our posterity, (supposing a white man is as good as a nigger was once) to cast lots at every election, and take out of our number, as many able bodied men, as at a thousand dollars a piece, would realize the amount, now gotten from saloons and bind them out to masters, sell them or shoot them whichever would pay best. Such death or bondage would be honorable, whereas the saloons cost us hundreds of lives of infancy, and deaths of despair, besides a legion of many characters which escape the tallest levels. All this we get along with our saloon money, besides what our women get. Now, why should the saloon man enjoy this immunity? Why do our city fathers make him pay his obligations, just as would the street, water works, or any other contractor? Can't you realize that you are responsible to your constituency, to the amount of that forfeited bond? Rouse yourselves to the plain duty of an honest public servant, to a trusting constituency, use the law in your hands, to punish the guilt of the willful violator of his bond, and thus wash your hands so far of circumstances which admit of complicity in the most heinous offense to society the world has ever seen since "man became the worst enemy of man." A. S. L.

NEW USE FOR FOOTBALL
Yale Instructor Applies the Sport to Greek Verse.

GAME WITH HARVARD THE TOPIC.

Dr. H. B. Wright's Theory is That Football Arouses the Same Enthusiasm in Modern Youth That Events Described in the "Iliad" and "Odyssey" Inspired in Men of Other Days—Hearty Response Made to His Plan.

Football and the classics are being combined in the course of Greek at Yale, says a New Haven dispatch to the Philadelphia Press. Nearly a hundred poems recently written in Homeric verse on the subject of the Yale-Harvard football game were presented by members of Dr. H. B. Wright's Greek classes.

The poems are closely modeled on the use of Homeric epithet was required of the students. Instead, however, of references to "swift footed Achilles" and "Ajax, who bore his shield like a tower," it was "Boraback with his black sloped like a mountain" and "long headed, red headed Rockwell."

The poems were the result of a plan of Dr. H. B. Wright, instructor in Greek, to arouse the interest of the students and to familiarize them with the construction of the epic verse. His theory is that the game of football arouses the same feeling of intense enthusiasm in the modern youth that the "Odyssey" inspired in the men of former times. Accordingly he made an offer of extra credit to members of his classes who would present poems along the lines laid down. The general and enthusiastic response, he says, confirms him in his theory.

The offer was made after he had tried vainly to interest his classes in the language and lofty sentiments of Homer had no effect on the majority of the students, who seemed unable to get the spirit of the poetry. In trying to find a contemporaneous example of the feeling which inspired part of the world's greatest literature he thought of the game of football.

"Football is real and vivid to every one of these men," he said in explaining his idea. "It arouses the same intense admiration that is manifest in Homer. Rafferty, Hogan and Stevens occupy positions almost as important as those of the heroes of the Iliad. They are not unadorned subjects for heroic poetry; they have many of the qualifications—strength, courage, daring and brains. The battle is one in which the strong of body, the quick of eye and the swift of foot are called upon. The poetry which I have read is very satisfactory and shows that the men have caught the spirit I desired. Many of the epithets are truly Homeric."

The following is a part of one of the poems handed in:

Thus to the noble army which Rafferty, mightily in battle,
Led to the glorious conflict, under the bonny blue banner:
Pursued, the mighty line hither, low smashing, firm as a mountain,
Guarded the center back field; Meisell, the speedy, stood next him,
Holding the line at his right hand, and Mitchell stood hard by his left hand.
Shevlin, whom heroes they say, had given him wonderful sandals,
Guarded the far right wing, strong in offense or defense;
Rockwell, the crafty, was there, close behind Boraback, center,
Whom Bloomer, the mighty line smasher, and Batchelder, strong as a bullock, added on either side.

The McKay Bequest to Harvard.

Harvard university, already one of the four richest universities in the country, measured by the amount of its productive funds, has lately received what will probably be the largest windfall in the shape of a legacy ever secured by an American institution of learning. Under the terms of the will made by the late Gordon McKay, the millionaire inventor and manufacturer of shoemaking machinery, Harvard will eventually inherit all his immense estate, estimated to be worth at present between \$20,000,000 and \$25,000,000.

The amount presently available under the terms of the bequest will, it is believed, be about \$4,000,000. Briefly stated, the university is to have 80 per cent of the net income of the \$20,000,000 estate left by Mr. McKay after certain annuities amounting to \$47,000 are provided for. This income is to accumulate until it amounts to \$1,000,000, when it is to be paid over and devoted to instruction in all grades of applied science and in extending aid to meritorious students. On the death of the last of the annuitants the executors are to pay over to Harvard the entire estate and all unexpended income to be used in the advancement of scientific education.

The McKay bequest, which ranks among the most notable in the record of educational benefactions and thereby have been many and large private public interest in the endowments and productive funds of other institutions of learning in this country. Among the richest institutions and the amounts of productive funds credited to them during the last college year are the following:

Amour Institute	\$2,000,000
Columbia University	1,250,000
Cornell University	1,250,000
Grand College of Pennsylvania	1,250,000
Harvard University	1,250,000
Johns Hopkins University	1,250,000
Lehigh University	1,250,000
Northwestern University	1,250,000
Pitt Institute	1,250,000
University of California	1,250,000
University of Chicago	1,250,000
University of Cincinnati	1,250,000
University of Pennsylvania	1,250,000
Washington University	1,250,000
Yale University	1,250,000

It will be observed that Harvard ranks very high financially without the addition of the McKay bequest, which again exemplifies the scriptural maxim, "To him that hath shall be given."

Pensioning of Life Savers.

Among the early bills introduced in congress is one by Representative Lovering of Massachusetts for pensioning retired members of the marine life saving service which attracts not a little attention. A bill of similar purport was presented last year and was favorably reported by the committee on interstate and foreign commerce and placed on the house calendar, but never came to a vote. Mr. Lovering's new bill, which requires three-quarters pay on retirement for life savers, is now in the hands of the above named committee, of which he is a member. The measure appears to be quite popular, and only opposition that has come to notice being on the ground

that the government should expend its money for pensions only when the work of the pensioners was in the line of patriotic service.

Under present conditions it sometimes happens that when surfmen are killed or disabled in the pursuit of duty private subscriptions are taken up for the benefit of their families. In a recent case in which an entire life saving crew was drowned the fund so raised amounted to \$40,000. Private generosity, however, is more or less uncertain in any event and does not go so far as to provide for the old age of life savers who have escaped actual accident. Wages of \$45 a month for ten months in the year, out of which the surfman must support his mess, clothe himself and maintain his family and himself during the idle months, are certainly not strikingly better than the private soldier's \$13, every cent of which he can save if he chooses.

The work of the life saver, too, is about the most hazardous in which men can engage—scarcely less so, indeed, than that of the soldier in the field. Both the importance and peril of the service rendered by these public servants are abundantly attested by the frequent reports of the heroic rescue of life and property along our ocean and lake coasts.

In giving the details of a murderous assault a Chicago paper lately "one sweep of the knife had slashed her waist almost from shoulder to wrist." Surely the victim is a proper subject for a dime museum.

If mobs are encouraged at smart weddings in New York it may be necessary to supplement the lists of persons and distinguished guests with a list of the killed and injured.

The price of steel billets has fallen so low that no well regulated family need be without a winter supply.

DRESSY GOWNS.

Velvet Costumes Are to Be Very Popular This Winter.

Handsome velvet gowns are among the smartest things this winter. Usually a gown of this sort is quite expensive, and as a result it is often made to do duty both for day and evening wear. A long, well cut skirt accompanies two bodices.

Embroideries are seen a good deal on princess frocks. The shoulders are kept very wide, the effect being attained by the addition of a fluff composed of folds of velvet, fur, lace and taffeta.

Formerly only light shades were used in the evening. Now one sees a great many dark shades as well. Cloth gowns

A Business Proposition.

If you are going east a careful selection of your route is essential to the enjoyment of your trip. It is a business trip time is the main consideration; if a pleasure trip, scenery and the conveniences and comforts of a modern railroad.

Why not combine all by using the ILLINOIS CENTRAL, the Up-to-Date Road, running two trains daily from St. Paul and Minneapolis, and from Omaha to Chicago. Free Reclining Chair Cars, the famous Buffet-Library-Smoking Cars, all trains vestibuled. In short thoroughly modern throughout. All tickets reading via the Illinois Central will be honored on these trains and no extra fare charged. Our rates are the same as those of inferior roads—why not get your money's worth?

Write for full particulars.

Bank Money Orders.

The national banks of the country might add very materially to their popularity and usefulness by establishing a method for the transfer of money which would be less cumbersome and slow than the system now employed by the postal department and express company.

What the business people of the country need is a system by which Jones in Atlanta, Ga., for instance, can go to a bank and deposit \$100, or any other sum, to be paid to Brown in New York or Seattle on the same day by a bank in either of those cities. The bank in the receiving city notifies Smith that it has the sum to its credit, and that, with his identification, enables him to get it at once. The cost of the transfer, including telegram and bank commissions, is held out of the remittance or arranged between Jones, who pays it, and Brown, who is the beneficiary.

A smaller system has long been in vogue in Germany and has resulted in the marked facilitation of money exchanges within the empire, accommodating the public, hastening business and proving profitable to the related banks. Such an arrangement between national banks of this country would soon give them an immense volume of business annually, with profits better than ordinary exchange, and would do a public service that the people would not be slow to appreciate.
