That tion." Sold by A C Marsters & Co. is one of the fixed facts of the future. and the broader economic doctrine of modern times regards it as a desirable fact. The only thing that war can decide is whether the markets of a modernized China shall be open to the world under Japanese guidance, or the markets of an oppressed China shall be monopolized by Russis.-Ex.

Who Originated Osteopathy?

Dr. Andrew Taylor Still, a medical practitioner of forty years' experience, an old volunteer army surgeon, now seventy-three years of age, and residing at Kirksville, Mo. Not satisfied with the results attainable by the use of drugs, (what physician is?) and having lost three children by cerebro-spinal meningitis in spite of all medical science could do to save them, he set himself the task of discovering a better way of curing disease. This was in Baldwin, Kan., in 1875. He began a careful study of anatomy, using the skeleton and the natural body as his text-books, and the natural body as his text-books, and the natural body as his text-books, and the natural body as his text-books. At such times write to Dr. and soaking out in 29 minutes, they are should be examined in about 10 days, should be examined in about 10 days, should be examined in about 10 days, sour Pacific Railwar, which, on account of its various routes and gateways.

He first found that he could stop bloody-flux by manual treatment of the spine at the origin of the nerves which control the circulation of blood and the motor activities of the bowels. He saw that these cases were caused by obstructions to the activities of the nerves.

All other compounds intended for women only are made with alcohol, or alcohol is a large component—this alcohol injures the nerves. The little red corpuscies of the ment of the Kansas Stale Agricultural He first found that he could stop tions to the activities of the nerves. These obstructions he removed. He exThese obstructions he removed. He exblood are sirrunken by alcohol. All such
compounds, therefore, do harm.

Interest the ment of the Kansas State Agricultural compounds, therefore, do harm.

It also saves from surgery a large percentage of cases. Appendicitis, tumors, hemorrhoids, gallstones, affections of the spinal cord, deformities, and many conditions regarded by medical science as amenable only to surgery, yield to its ministrations. As a final resort surgery should be appealed to in any necessary ase, but the need of cartailing the indiscriminate and fatal use of the knife, so prevalent in modern times, was as There was no clue to the man's identity, erving a one as was the need of escape nor any marks to determine the origin from the thralldom of drnes.

Help That Came Too Late.

"The Carisbrooke Castle, arrived in from the West Indies, reports picking up a raft with the body of an elderly man who had evidently died of starvation.

In those few lines another clueless mystery of old ocean was disposed of. There was nothing to marvel at that a man should die of starvation. Had he lived it would have been a real marvel publishers of Everybody's Magazine indeed. Or had he died of starvation surrounded by abundant food, that would have been both a marvel and a mystery elderly people die of starvation in the midst of plenty. They have food enough,

cannot be digested and converted into nutrition. The body grows weak as every starved body does. And at last the life is destroyed by some common place thrown off by a well nourished body. It is because death in such cases is atcause of disease and death among elderly

people-lack of nutrition. VIGOROUS OLD AGE

depends upon the capacity to digest and assimilate food. Strength in age has the same foundation as strength in youthfood properly digested and assimilated. There is no way to make physical strength except from food. And when the stomach and its allied organs, because of "weakness" or disease, cannot convert the food into nutrition, there is a loss of strength and vitality, which weakens the body and leaves it practically powerless against the inroads of disease. If you want strength you must get it from food, and you can't get strength from food when there is disease of the stomach and other organs of digestion and nutrition. The way to vigorous age then is to strengthen the stomach by curing the diseases which Dr. Pierce's Golden Medical Discovery. "I suffered for six years with con stipation and indigestion, during which time I employed several physicians, but they could not reach my case," writes Mr. G. Popplewell, of Eureka Springs, Golden Medical Discovery and little 'Pellets,' and improved from the start. covery' I was able to do light work, and have been improving ever since. I am now in good health for one of my age—

Dr. Pierce's Golden Medical Discovery is not offered as a "cure-all." It does cure a great many different diseases, but a study of these cures shows that the falo, N. Y.
