Cattle for the Feed Lot.

The right way to buy cattle for the that the prospective buyer must fully

The first and perhaps the most important point to be settled is what class of cattle to buy. Only cattle of the same general age, class, weight and breeding should go into the same feed lot. Look accuracy upon the three important fac- World's Fair Route." tors of the question, cost price, feed bill and probable gain per day or ratio between feed and gain.

Inoculation for Tuberculosis.

The state of Pennsylvania deserve great credit for its provision to thor- eblo to St. Louis without change, carryto be continued on a large scale. About 100 head of cattle are to be used this winter on a farm provided for this purpose. Thus far the evidence is favoraable to the theory that cattle may be made immune to tuberculosis by inoculation, and if further experiments confirm this the money spent in the investigation will have been one of the best investments of public funds ever made. -Stockman and Farmer.

How to Polish Horns.

A Missouri cattle breeder gives the following method of polishing horns: Make the horns smooth and even with a In marriage only when there is equality eandstone and water and rub the file but the superstructure depends largely marks out; then take a fine whetstone on the womanly health. When the wife (a water stone is best), whet or rub out is tormented with backache, distressed all marks, as the least scratch will show when polished. Then get some tripoli (or, as the railroad men call it, triplye), wet as much of it as you want to use, then with a rag of any kind rub the horn well with it (you can hardly rub to much); then polish with the palm which cause them. It establishes reguof the hand. Don't be afraid to bear on flammation and ulceration and cures and rub quick. Boiling water will rose female weakness.

Miserable Mothers.

CHILDREN ROBBED OF THEIR BIRTHRIGHT.

The most serious thing in life is ma-ternity. The child who inherits weakalone. The scientific idea of marriage written in a thousand experiences of young motherhood. The child, the mother would die for, cries in her arms,

As surely as the most serious thing in

thing for the prospective mother is preparation. For preparation is possible. There is, in general, no need for the weakness and weariness so often associted with maternity. There is no need for the nervous anxiety, the prolonged birth pangs, and after enervation, so commonly experienced by mothers. In this day, even women understand the training necessary for athletic exercise. They know that to successfully sustain the strain of outdoor sports they must prepare themselves by training And yet the average woman will face the great strain of maternity without the alightest preparation for the extraordinary event before her, Nerves, muscles are all to be submitted to an extraordinary strain and yet there is no attempt to fit

them for the ordeal. PROPER PREPARATION.

The fact needs, to be impressed on every woman that she can prepare for nature of this preparation is well set "I take pleasure in informing you of the birth of a boy in perfect health, on
