### Anti-Forest Reserve Petitions.

The PLAINDEALER received this morning from Congressman Hermann the following letter which explains itself. It shows that our Congressman has done his duty while the Interior Department seems to be a "little slow".

Department of the Interior.  
Washington, April 20, 1904.

Hon. Binger Hermann  
House of Representatives.

Sir:—

I am in receipt of a letter dated March 14, 1904, to which is attached your signature together with those of others, enclosing petitions signed by the citizens of certain counties in the state of Oregon, protesting against the establishment of a forest reserve within the state, which shall include the greater portion of said counties.

In reply you are advised that said letter, together with its enclosures has this day been referred to the Commissioners of the General Land Office for consideration and appropriate action.

Very respectfully,  
E. A. HITCHCOCK,  
Secretary.

The Portland Journal has learned a trick from the Oregonian and is using it for all that it is worth. It is assailing Binger Hermann and is manufacturing bogus Washington telegrams, opposed to him and editorially reproduces the Oregonian's old editorials. By its present support of Binger Hermann, the Oregonian virtually says that it systematically lied about him a year or more ago and as the Journal is only using the Oregonian's slush the Oregonian lies us that the Journal is keeping up the lying but it lacks moral courage enough to say that lied and knows that the Journal is lying also.

A correspondent from Riddle asks this question: "What is the meaning of the word 'tailmaster'?" A tailmaster is a citizen professing to belong to and supporting a political party and who enters into the con-

ventions and after the nominations are made attempts to defeat one or more of the nominees on the ticket. If there is no hope of defeating what he considers to be objectionable nominees he hopes to run down the majority to such an extent that they will be on the tail end of the ticket when the votes are counted out.

District Attorney Melville Grigsby, of Nome, Alaska, has concluded to resign. If half the things told about him are true he should be made an enforced charge of the nation with the privilege of playing checkers with his nose against the bars.

Every good Republican should remember that a tailmaster is the greatest abomination that the party of progress, civilization and good government has to contend against in Douglas County.

Green! Green! Green! Who is this Green? Is he a "formerly of Kansas" man who was mixed up with the livestock commission business at Kansas City.

The PLAINDEALER is in receipt of a communication from Judge Riddle on the Direct Primary bill. The article will appear in our next issue.

The Portland Journal, Lick Skillet Green et al falsify regarding Binger Hermann and then say, if you are not guilty prove your innocence.

The way to poll a tremendous majority for the Republican party in Douglas County is to register at once.

### The St. Louis Exposition Opened.

The Louisiana Purchase Exposition was formerly opened at 12:15 Saturday. The inaugural exercises were simple and were carried through and without halt or delay of any description.

The weather was without a flaw. The handling of the crowd, the guarding of inclosures and the police work generally could not have been improved upon. This work was in the hands of officers of the regular army who directed the Exposition guards in their duty.

At 12:15 the signal was given to President Roosevelt that all things were ready. In a few seconds came the answering touch over the wire from the White House. This officially opened the Exposition.

The crowd was fully as large as that which fill the grounds one year ago when the Exposition buildings were dedicated.

The following are the means, dimensions and cost of the principal buildings of the exposition:

Art—750x425 feet; \$1,040,000.

Education and Social Economy—750x525; \$475,000.

Liberal Arts—750x525; \$475,000.

Manufactures—525x1200; \$719,000.

Machinery—525x1000; \$496,667.

Electricity—750x525; \$399,940.

Horticulture—400x800; \$240,000.

Mines and Metallurgy—525x650; \$499,000.

Varied Industries—1200x525 feet; \$604,000.

Transportation—525x1300; \$700,000.

Agriculture—500x1600; \$550,000.

Forestry, fish and game—600x300; \$175,000.

Government—850x200; \$400,000.

Festival Hall—250 feet in diameter; \$220,000.

"There is no republican opposition to Mr. Hermann in his district. He will be elected by 6000 or more. He is an efficient Representative. He is doing excellent work for the people of his district, and they recognize it. He did excellent work for the Lewis and Clark appropriation; all Oregon should recognize that. The experience of a man like Hermann is worth something in Congress, and the people of his district will more than double the majority they gave him on the light vote thrown last year." The above from the Oregonian is remarkable, from the fact that it is about the first time that paper has ever said anything favorable about Mr. Hermann.—Glendale News.

L. M. Christensen, a guard at the government works at Florence, captured single-handed, with gun and knife, four whales that came up beyond the end of the jetty. He got behind them and drove them farther in, and scared them up on the sand, where he dispatched them. This is a feat that probably no other man in the country can truthfully boast of.—Portland Journal.

For a man who has been in public life as long as Binger Hermann has, to be nominated by acclamation without a dissenting vote in the convention means a whole lot. It is a tribute to be proud of.—Hopner Times.

### Cured His Mother of Rheumatism

"My mother has been a sufferer for many years with rheumatism," says W. H. Howard of Husband, Pa. "At times she was unable to move at all, while at all times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried. In fact, she is never without it and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with." For sale by A. C. Marsters & Co.

### Miss Marion George

Is rapidly coming to the front of musical geniuses. Already she commands the highest salary of any lady violin player on the stage, and all the big musical centers, New York, Boston, New Orleans, San Francisco, in fact every where she has played, the press and public have been unanimous in declaring that her power on this beautiful instrument is marvelous. Only a short while ago in Salt Lake City, when the big Mormon convention was on, she played in the famous tabernacle, which held 13,000 people, and time after time she had to respond to the tumultuous applause of the delighted throng. She can take you back to your childhood by her beautiful rendering of simple old time airs, or she can charm the heart of musical enthusiasts by her skillful playing of classical pieces. She is the happy possessor of many beautiful gowns and diamonds, but her chief treasure is her famous violin, which cost over \$300. She will play at the opera house on Monday, May 9 and if you wish to hear the violin played by the only legitimate successor to Madam Norma Narda, you should secure seats early. Lower floor 50 and 75 cents. Gallery 25 and 35 cents.

### "A Rose by Any Other Name Would Smell as Sweet."

The Roseburg PLAINDEALER, in commenting on the Roseburg-Eugene high school roosters' club was scarcely less vociferous for the visitors than for the home team." According to the above statement, the boys must have had something to "crow" over. The PLAINDEALER evidently meant roosters instead of "roosters'" club.—Eugene Register.

### Whoever heard of a hog crowing?

### Trouble With Nadler.

The sporty writer on the Salem Statesman, on Thursday, speaking of his interview with "Pap" Morrow, of the Shamrocks says: "Pap" was in his usual good spirits and jovial mood, but, as usual also, he was burdened with no end of troubles which attend the heavy responsibilities heaped upon him in connection with the management of the team. This time his chief grievance was that he could not keep track of his men on the trip down and this fact was

### Myrtle Creek.

Presiding Elder Fitch, of the M. E. church, South, has been spending the week out on his claim near here.  
Rev. J. C. Cook went to Albany Monday to hear Dr. Carridine, the Evangelist, talk and on other business.  
Dr. Daily, of Lakeview, was a visitor at Mr. and Mrs. John Hall's Saturday last. He was on his way home from attending the Democratic state convention at Portland.

Work at the well where the Umpqua Valley Oil Company is drilling for oil has been hung up this week. The rope cable broke and they are waiting for new machinery.

Will and Walter Newton delivered the 150 cords of wood that they cut for the S. P. R. R. this week. They floated the wood down creek and about 15 cords went on to the Pacific.

Dan Mattson and Charles Shultz are back from the coast country in Coos county, and they say that there are too many looking for the same job over there. Times are good enough at home.

An interesting game of ball was played last Sunday between a nine composed of players from the Myrtle Creek League Association and the South Myrtle boys. The game took place up the creek. This was the first game of the season and resulted in a victory for the visiting team.

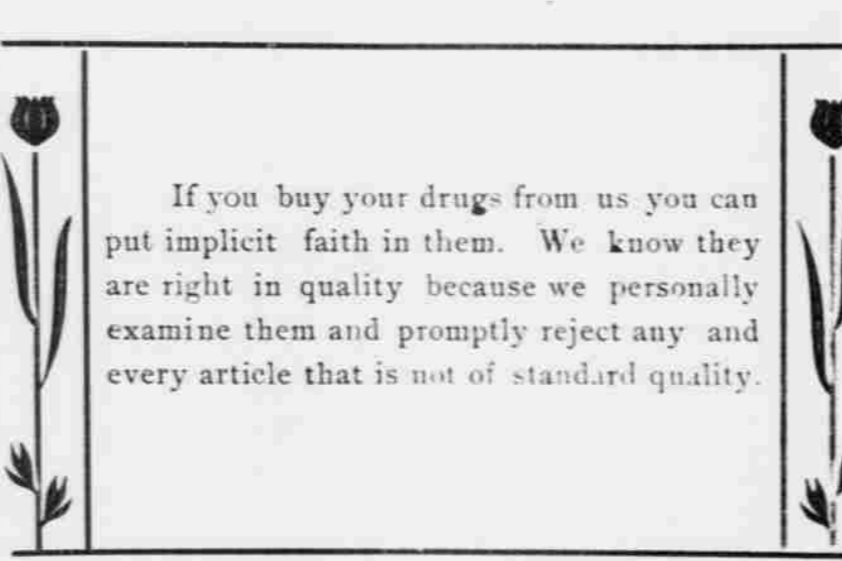

S. G. Jones, of Days Creek, moved on to the Metz place near here last week. He has rented the ranch for three years. Mr. Jones is a G. A. R., having served Uncle Sam nearly four years during the Rebellion. He is an old personal acquaintance and neighbor of Wm. Jennings Bryan near whom he used to live in Nebraska, previous to coming west.

O. P. Smith, a young Colorado miner, arrived here a few days ago, and fitted himself out with a prospector's outfit and started up North Myrtle. His pony did the packing and just as they were at the junction of Myrtle and Lee's creek and passing through some thick brush, Smith who was walking behind the pony threw out his rifle to ward off some lums, and in some way the limb hit the gun and it discharged killing the pony. And thus a prospective trip was cut short.

The principal cause of the train being late into this city. Practically the only man that caused him worry upon this trip, he says, was Nadler, on an account of being from Missouri, where in the habit of riding upon the inside and it was with the greatest difficulty that he could keep him off the "hill".

Again the popularity of Morrow is shown in the following:  
"Old Pap Morrow," well known to Salem baseball fans, arrived in Salem last evening with his squad of braves and his musical voice will be heard on the ball ground in the first game of the season between the Salem Raglans and the Roseburg team.—Statesman.

### Local Option Rally.

Under the auspices of the Oregon Anti-Saloon League non-partisan, non-sectarian, local option, the most practical temperance movement of the age. Speaker, Dr. R. Foster Stone, at Opera House Wednesday evening, May 4th, 8 p. m. Inspiring music, reserved seats for voters.

The "House Beautiful" comes to us this month, full from cover to cover with carefully treated subjects of much interest to the home maker and house-keeper. "An Informal Garden" by H. A. Capron; "A Remodeled Country Home" by Virginia Robie; "All about Rugs"; "Home Economics"; "The Home Garden"; and "The Woman's Forum" are particularly bright spots in the magazine.

The Oregon State League game opened last Friday at Salem and Thursday at Eugene, the first series have resulted rather disastrously, for both Vancouver and Roseburg so far lost all the games that they have played. Vancouver has a good excuse, as the soldiers or a greater portion of them were not allowed to accompany Manager Prebel to Eugene, hence the team was very much disorganized, but Prebel gamely seized new players, and did battle only to be defeated four times in succession.

With Roseburg it was different. Managers Morrow's bunch of Shamrocks were easily plucked it seems by the Raglans. The first game was won

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has found a cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
