DISTRICT FAIR.

Eugene Again Wants Fair but Roseburg Says They Must Put Up \$1000 For Next Three Years.

It is not yet fully settled that Eugene will not get the district fair again this year.

Pursuant to announcement a number of representative business men and citizens interested met at F. A. Rankin's office Thursday forenoon and discussed the proposition made by the Roseburg people. The Southern Oregon directors ask for a concession if the fair is kept here and the proposition made to allow Eugene to have the enterprise for the next three seasons is considered favorably by many of the members and a committee consisting of F. A. Rankin, H. L. Traver and F. M. Wilkins, will go to Roseburg Wednesday morning to confer with the directors and settle the question one way or another.

The Roseburg people ask for \$1000 if the fair comes to Eugene for the next three years. Their reason for this is, as they allege, that they are behind on payment on their grounds and equipment and are unable to meet the deficiency unless the fair goes to Roseburg and the concession asked for is made—Register

S. F. Call: E. H. Harrison was elected from the New York building at St. Louis Exposition a few nights since by a watchman who didn't know the railroad magnate and who evinced every indication of an emphatic refusal to enlarge his sphere of acquaintances. Mr. Harrison is probably philosophic enough to reflect after all that environment makes the man. In these burly busy days of modern progress we have to label even our men of note.

The Commissioner of the General Land Office has just rendered a decision of importance to persons holding homestead entries. The case was an appeal from the Marysville Land Office. The evidence shows that the homestead claimant, Henry Thompson, lived and voted in a precinct several miles from his claim; that he registered, taking an oath that he was a resident of that precinct, while his homestead was in another precinct; and that he never resided for any length of time on the land claimed. The Commissioner there ordered the entry of Thompson cancelled without further notice.

Hamlin of Roseburg, nominee for school superintendent, all of whom made brief but interesting addresses. The principal speeches, however, were made by Senator Marsters at Attorney General A. M. Crawford of Salem, who delivered masterly addresses in behalf of the republican party and the state and national administration. A large crowd was out to hear these gentlemen at Galesville on Saturday afternoon. —Glendale News.

Remember that the prestige for the state in the National Convention will be made by the ballot cast at the June election. The state for Roosevelt will be judged by the number of republicans found in line at the counting of the June vote; therefore do not vote your prejudices nor your animosities, but look the thing squarely in the face from a business standpoint and vote your brain; your good, common sense and remember that it is the party principle that is at stake and should be held more sacred than all else.

Charley Towne says "it would be unwise to revive the silver issue this year." It would not only be unwise but impossible. The number of voters registered by County Clerk Shemrock up to the time of closing the registry books is 4,105 against 3,924 two years ago. There will probably be at least 500 voters sworn in by blank 'A' at the time of voting and pretty close to that number will not register at all. In round numbers Douglas county should nearly reach the 5000 mark this year provided all exercise the right of franchise.

If such a thing should take place as nomination of Judge Parker, of New York for president, by the democracy, it will be the second time in our history as a nation that the two great parties have gone to the same state for their nominees. In the campaign of 1860 the republicans took Lincoln from Illinois, and one section of the democratic party from that state. Since that time it has been an increasing effort to balance one section against the other.—Yamhill Reporter.

He has been engaged by several persons to look up government lands in that section of the country. He is an experienced cruiser and lumberman, and can be depended on to do his work honestly and well. He will be gone a month or six weeks."

"Brown's in Town." The farcical effusion which comes to the Opera House Thursday, May 28, is described by the manager as a ball for jaded nerves. Its humorous complications are highly effective, the dialogue is sparkling witty and the story is an entirely new one. The farce is free from marital infelicity or innuendo of immorality, and the time worn, bald-headed benedict who flirts with a music hall singer is also eliminated. The conventional old maid and the fussy mother-in-law are dispensed with as well as the hen-eyed German, Irish or French man. "Brown" has a maid but she is a novel one; one you can see every day. Price, lower floor 80-75, top 25-35.

The Santa Fe has commenced the construction work on its road to Eureka in Humboldt County. Men have been put at work boring a tunnel 1000 feet long in Humboldt County near the southern end of the Eureka and Eel River road. The entire route southward from this tunnel has not yet been definitely decided upon, but it will be in the near future. The company is to build its Eureka road under the name of the San Francisco & Northwestern Railway Company. By the ownership of the Eureka and Eel River line, the Santa Fe has valuable franchises in the city of Eureka and a strategic position in the valley of the Eel River. People who are heavy stock and bondholders in the Santa Fe have bought up thousands of acres of redwood forest. From these holdings the Santa Fe road will get a large and permanent amount of traffic in addition to shipments it will get from other parties.
