Oakland Owl: At the age of 71 years J. B. Goff of Fir Grove has discovered that a baby can be kept quiet for 5 cents per month, or perhaps a trifle less, by giving it a common tumbler and a few toothpicks. Mr. Goff says the child will put the toothpicks in the glass and take them out all day, and remain perfectly satisfied.

At Dillard, Oakland, Yoncalla and a few other places in the county Independence Day will be celebrated appropriately. Of course the bands will play, the small boy will fire bombs, the young men will blow their best whistles, while the elderly ones will wish they had one to blow. Peanuts, soda water, pink lemonade and ice cream will strive for supremacy, and there will be the usual patriotic oratory and sports. 'Tis well, don't miss it. You'll have a life-long regret as a daily inheritance if you do. You may think you can fail to show your broadest smile there on the Fourth but you can't and live happy afterwards, so go and help the eagle scream. 'If he don't get up enthusiasm enough, pull his tail feathers a little for luck and help things along. You're wanted and wanted bad, but don't be bad when you get there.

The Secret of Long Life and How to Overcome Waste.

To "Know thyself" is to take advantage of life's secrets and equip one's self with an armor which will successfully resist the attack of disease in the battle of life.

The old idea of fate or "kismet," and that a person is fated when his time comes, is now exploded. Every mechanism, whether made by God or man, has a definite amount of wear and its life can be lengthened or shortened according to the care that is given it. If accident or carelessness destroys the works of the watch to its usefulness, but it is not actually "worn out." Man's system is entirely free from the wheels of the watch and only needs a little cleaning and oiling to put it in shape for life's battles.

An imitation of nature's method of restoring waste of tissue and impoverishing the blood and nervous force in the use of herbs and roots, without the use of alcohol, like Dr. Pierce's Golden Medical Discovery. This vegetable medicine coaxes the digestive functions and helps in the assimilation of food, or rather enables the organs to take from the food just the nutrient the blood requires.

Prof. J. R. Tugway, of St. Peter Street, Quebec, writes: "I had been ill for some time with Grippe and did not regain my strength. Within a week after using Dr. Pierce's Golden Medical Discovery, I was able to be around again, and I found that my system was entirely free from any of the bad effects of La Grippe now keep a bottle of the Golden Medical Discovery on hand, and when I catch cold, take a few doses, which keeps me in perfect health. As a builder up of lost strength and vitality, I do not believe your 'Discovery' has an equal."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach.

Dr. Pierce's Pleasant Pellets, the best laxative for old people. They cure constipation and biliousness.

A New Fire Company.

The Board of Fire Delegates met in special session at request of Chief Engineer W. H. Carroll, last night, and decided to purchase six new five-gallon Babcock fire extinguishers, to be placed in the cart now used as a tender for the Umpqua Hose company. The chief was also instructed to form or organize a new company to handle this apparatus, to be known as a chemical company.

This move on the part of the firemen, themselves, is timely, as now there is a deficiency in the water supply during the irrigation hours, and although the water company keeps a reserve reservoir for fire purposes, should a fire break out it would take probably fifteen minutes before this reservoir could be tapped, in which time a fire could destroy a building, while the fire fighters would be powerless, but with the chemical apparatus, if the fire can not be entirely choked out, it will be held in check until the water can be used with effect.

Several months ago Chief Carroll asked the city to purchase these fire fighters, but the city fathers refused, and although the department is not very well fixed financially, they decided to spend what little they have on hand, for the city's protection.
