\$1000. He was recently imported rom France and his full pedgree is on exhibition at the bove named Livery Stable.

The microscope shows that in the blood of every person suffering from typhoid the little germs can be found as shown above. little germs can be found as shown above. They are supposed to get into the water or milk we drink. The germs multiply so that one germ is capable of producing about one hundred trillion germs in twenty-four hours. That is why if they ever get into the water supply of a town they multiply so fast that nearly everybody drinking the water comes down with the disease. There are exceptions, however, and they are the persons whose health is perfect, whose blood is pure, and liver active. When the germs get into a healthy body they are thrown off with the other poisons. Recent Chicago statistics show that one-eighth of all the deaths in the past two years in that city have resulted 288 95 172 90 past two years in that city have resulted from pneumonia.

The best advice we can give is to put the body into a perfectly sound, healthy condition. Be assured that you have rich, red blood and an active liver.

Many years ago Dr. R. V. Pierce, who is consulting surgeon to the Invalids' Hotel and Surgical Institute at Buffalo, N. Y., found certain herbs and roots which, when made into an alterative extract (without the use of alcohol), seemed to be the very best means of putting the stomach, blood and vital organs into proper condition.

This seemed to him as close to nature's way of treating disease as it was possible to go. For over a third of a century Dr. Pierce's Golden Medical Discovery has had a wonderful sale and the cures resulting from its use are numbered by thousands. It is a tissue-builder, better than cod liver oil because it does not sicken the stomach, or offend the taste. It strengthens or offend the taste.

Dr. Pierce's Pellets cure biliousness.
