 A few years ago Sam Davis planted a few slips of bamboo on what is now Cal Bridge's place near Allegany. G. E. Murphy recently cut a sixteen foot fishing pole from this grove and it is a beauty and an admirable shape for a fishing rod. Very few people know of this grove and it will be news to the people of the state generally that bamboo can be grown in this state.
 Salem Statesman: T. N. Humphreys, formerly of Myrtle Creek, Douglas county, one of the owners of the Star Flouring Mills at Turner, was in Salem Monday. He has begun the work of putting in new machinery and will make it a roller mill of the first class, with a capacity of 35 to 40 barrels per day. It will be strictly a custom mill, and Mr. Humphreys ought to do a good and profitable business.
 J. S. Maxwell, an old veteran of Co. I, first Ind. Cavalry, and also private of Co. C 2nd Reg. U. S. Vet. Vol. Infantry, who served four years in the great civil war, was granted a 30 day furlough last week by the management of the Soldiers' Home and left Sunday for Enterprise, Oregon to enjoy a visit with relatives and friends. Comrade Maxwell has a long and honorable war record of which any one might well feel proud. He is one of the grand "old boys" who wore the blue.
 Last week a couple of small boys at Myrtle Creek armed with a 22 caliber rifle chanced to meet one of Toad Hall's fat and sleek two-year-old steers, in their meanderings and the boys proceeded to shoot holes through its ears and pick flies off its back with their target gun. Finally one bullet went so close that it killed the steer outright. The parents of the boys forthwith put up \$20 for beef and the boys went on their way rejoicing after having received a vigorous application of birch oil.
 County Treasurer Geo. W. Dimmick treated his friends and colleague to a genuine surprise late last week by coming forth attired in a spick and span new suit of made to order clothes with invisible buttons. Just what prompted him to spruce up so much at this time was somewhat of a mystery until someone mentioned the probability of a large attendance of school mams at the forthcoming county institute. With this transformation George takes grave chances in maintaining his old time prestige with his country constituency.
 A watermelon twenty inches long and twenty-seven inches in circumference was presented to the PLAINDEALER Saturday by Z. W. Parker, the melon being the compliments of W. A. Sebring the expert watermelon grower at Dillard, who instructed Mr. Parker to tell us that he had "A thousand more just like this one." The PLAINDEALER office fore was afforded a rare treat and all were unanimous in the wish that Mr. Sebring will live to cultivate many more such large and excellent melon crops. In the language of the small boy this melon was "A puddin, a regular tapoca."
 Wednesday's Portland Telegram said: "Ex-Representative Willis Kramer is one of the belated arrivals at the Mining Congress, having reached here last night. He recently sold his Golden Wedge mine at Galice Creek to Eastern parties, and is getting everything in readiness to build a new five-stamp mill to work the Whiskey Creek property near Mt. Reuben. There is plenty of water in the creek to furnish power to operate the mill, and it is the intention to put in an electric plant to light up the tunnels and shafts in the mines. Mr. Kramer is installing a new system of water works in his home town, Myrtle Creek, having secured a franchise from the city council."

 The matter of building a hospital in this city at a cost of \$5000 is again being agitated, the movement being headed by Rev. D. Taber of the Catholic church. Already two sites have been offered and there is good prospect for the success of the movement, which is a worthy one. Such an institution would be a valuable acquisition to this city.

 Owing to the crowded condition of our paper the program of the teachers institute was unavoidably crowded out last Thursday and today we are compelled to omit an extended article contributed on local option. This last named article if published is likely to bring on a prolonged newspaper discussion between the prohibitionists and the anti-prohibitionists which we have neither the time or space to encourage, and we therefore trust that correspondents will be considerate in these matters, and remember that newspaper space is the newspaper's main stock in trade.
 Beginning Saturday, the 27th inst., there will be a procession of special trains passing through Roseburg, which will keep up at intermittent intervals for a day or two thereafter.  Considerable interest is taken in the run of salmon this fall as it will show what good the fish hatchery on the North Umpqua river is doing, as it has been established just five years, which is about the age of grown salmon. If the work is successful, which early reports indicate, the cannery operated by W. P. Reed at Gardiner will hereafter be run full blast, giving employment to a large number of people at that little port. The hatchery the first year was located 20 miles from here near what is known as the "Bill Tipton" ranch, but the next year was moved up to Steam Boat river 25 miles farther on. Since then the work has progressed splendidly, Superintendent L. C. Hill having only one set back, last fall when the main building was burned down, causing considerable loss to the state.

Accidental Shooting.
 Dr. E. V. Hoover was summoned to Tioga today to attend the 17 year old son of Chas. Wright, who, while hunting Sunday above that place accidentally shot himself through the wrist with a large caliber rifle almost completely severing the hand from his arm. From the description of the injury Dr. Hoover thought there was little probability of saving the hand, believing amputation above the wound to be unavoidable.
Mining in Our Sister County.
 George Hall who recently got eastern capital interested in the Divilbiss group including Big Joe and Little Mary has his quartz mill on Poverty Gulch in fine order ready to operate and a few hours test run has yielded satisfactory results. A large crew of men are now at work on a tramway that leads up to Big Joe and Little Mary, a mile above the mill, and ore from these rich deposits will soon be milled. Mr. Eberg, who has purchased this mill, and group of fourteen claims is on the grounds with Mr. Hall directing the work. They are gentlemen of great energy and push and it is predicted that success will attend their efforts.
 Salmon Mountain shows up better every day as the work progresses. A rich vein of ore has been found on the west end of the famous mountain and a ledge is being uncovered at the upper end of the cut which may turn out to be the feeder that has produced so much gold from the cut below. It is believed that this is the case.—Myrtle Point Enterprise.
