THE OREGON STATE CENSUS

The new census law having failed to pass the recent session of the legislature, the state census will be taken this year in accordance with the old law. Secretary of State Dunbar has already placed an order with State Printer Whitney for the necessary blanks to be used by the assessors.

The law provides that the county assessors shall enumerate the population of the state, the number of legal voters, the number of males and females residing in the state, and the following general information as to the general resources of the state to-wit: The number of bushels of wheat, oats, corn, barley, rye, apples and potatoes raised; the number of tons of hay; the pounds of wool, tobacco, cheese and butter; the ounces of gold dust; feet of lumber; barrels of salmon, and number of mules, horses and cattle raised and produced during the preceding year.

The ascertaining of these facts will devolve upon the assessors, who shall turn the rolls over to the clerks, who will in turn make a copy to file in his office and then turn it over to the secretary of state.

The enumeration will probably begin about the first of May, as the law provides that it must be begun before the 10th of that month.

The method of proving up on homesteads has been changed by rules recently adopted by the department at Washington. A special government agent will visit all the principal towns of the land district each month on a specified date for the purpose of taking homestead proofs. The land office will advertise for proof in the local paper nearest the land and those having proofs to make will meet the agent on the date fixed. The new rule is designed to prevent fraudulent proof of resident or claim. Under the old rule proof could be made to a United States Commissioner and a special agent visited a locality only where there was fraud suspected.

Over in Linn County the other day a cow was killed by lightning. After the storm a farmer came along and seeing the dead cow went to the house of the owner and said: "Jim, your black cow's been struck and killed." "Is that so," answered the cow's owner. "That was the best cow I had. She was worth $550 at least. What train struck her?" "She wasn't hit by a train," said the first farmer. "Lightning struck her." "Oh, well" said the owner of the cow, "I thought it was a train. Well, I don't care much. That old cow was not worth over $10 anyhow.

With an appropriation of $500,000 for the Lewis and Clark Fair, another of $156,000 for The Dalles-Celilo portage road, and $100,000 for a right-of-way for The Dalles-Celilo canal, all in the interest of Portland, it is hardly becoming in the Portland newspapers to complain so bitterly against the appropriation of a small amount of money for Normal schools to be expended in other parts of the state.—Statesman.

New Jersey is ready to tackle the mosquito as a state problem and expects to spend a million dollars fighting the pest. The mosquito will be prepared to fight New Jersey and her guests from July to frost this season without any addition to their usual resources. There are thirty varieties in the state and every single one of them can bite.

The glorious climate of California received a great jolt this week when a severe and destructive storm swept over the entire southern and western part of the state. Several lives were lost and much damage resulted. Better come to tranquil, balmy Oregon.

Indiana has passed a sweeping bill prohibiting the manufacture and sale of cigarettes in that state.

The president is wise in placing entire responsibility in the land fraud proceedings upon Hitchcock who by this time begins to feel the weight pressing down upon his shoulders. The burden of proof rests with the government and failure to make out a case will be Hitchcock's undoing. Already the reports from Washington indicate weakness of the case against Congressman Hermann.

Mr. Rockefeller is going to build a million dollar home in Kansas. It looks as though he might feel something like General Sheridan said about Texas that for peace it would be better to rent his home and live in hell.

In that greatest of all subterranean bores the Simplon tunnel the way has been shown to turn the Chargres river out of the Panama canal ditch and to make a lockless sea level water way possible.

Those who think that President Roosevelt's fight with the trusts will be indecisive do not realize what a strenuous man backed by the country may be able to accomplish in four years.

Tom Watson's new magazine is a bigger success than Bryan's Commoner. It is ably edited.

It is presistently rumored that there may be a change in the style of evening clothes. Nightshirts and pajamas are still correct for the latter part of the evening.

The Baltimore professor who thinks it would be well to chloroform all men when they reach the age of 60 says nothing about the woman, probably because he realizes that no woman ever gets that old.

HOMESEEKERS ARE POURING INTO OREGON

It is estimated that more than 2,000 homeseekers have landed in Oregon during the last week on colonial rates over the Oregon Railroad & Navigation company's lines and the Northern Pacific, and as many more have been taken into Washington. Idaho, Montana and Wyoming have also secured a share of the colonists. A large number have brought household effects, farming implements and even livestock, says the Portland Journal.

Reader and Impersonator

Myrtle Katharine Trevitte, the pleasing reader and impersonator who has delighted audiences from one end of the country to another, will give one of her entertaining readings at the M. E. church Saturday evening, March 25.

Miss Trevitte's appearance upon the platform is very pleasing and she renders a program of superior excellence. Her unassuming, unaffected manner lends a charm to her well selected readings that one seldom sees. tf

Wildwood Mill to Start

The Wildwood lumber company which owns the large steam saw mill near the end of the O. &S. E. track above Wildwood has decided to put the mill in active operation. There is an abundance of logs in close proximity to the mill and a large amount of lumber may be expected to soon be passing over the railroads to other states. Mr. I. L. Smith a well known saw mill man has been placed in charge of the mill. John Hunter of Roseburg is one of the principal stock holders in this mill.

A verdict for the defendant was rendered by a jury Tuesday afternoon in the case of W. R. Vinson vs John Thom wherein the former sought to recover $110 damages for the loss of a boar, alleged to have been killed by a third party at the instance of defendant. The case will be appealed to the circuit court.

BROOM FACTORY RESUMES OPERATIONS

A carload of fine Oklahoma broom corn arrived at this place for the Roseburg broom factory Tuesday and the manufacture of brooms has been resumed by Mr. Barker in the Kinney headquarters building which he purchased for this purpose in North Roseburg after his plant was destroyed by fire during the holidays. Quite a number of orders for local dealers are being filled, they having withheld placing orders elsewhere, rightly preferring to patronize home industry. Their action in this matter is appreciated by Mr. Barker who has been putting forth commendable efforts to re-establish his plant.

Eighth Grade Final Examination.

Supt. Hamlin has received the following circular letter from the State Superintendent which we publish for the benefit of the schools of the county.

"The dates for eighth grade examinations for 1905 have been changed as follows: April 11, 12 and 13; May 18 and 19; June 8 and 9. The new law governing eighth grade final examinations will be in effect May 18; hence the May and June examinations will be held in accordance with its provisions."

Teachers having classes for examination upon either of these dates should notify the Superintendent at least thirty days in advance that the proper arrangements for holding the same may be made.

The "new law" referred to in circular letter as going into effect May 18 provides that the Chairman of the Board of Directors, or some member of the board appointed by him, assisted by the teacher shall conduct the examination in each district having a class that is prepared to take the same. The teacher must first certify to the superintendent that each applicant has completed all the work of the eighth grade and is prepared for the final examination.

The Chairman of the Board of Directors is required to be present during the entire time, and is to be paid for his services at the rate of two dollars per day.

$300 Tax Exemption

Though he has not given a formal opinion upon the subject, Attorney-General Crawford says that he believes the present exemption law places a limit of $300 upon the total value of property to be exempt from taxation.

Unless further investigation of the subject leads to a different conclusion he will advise any county assessors who inquire that they should allow no householder more than $300 exemption.

Profitable Employment

A. O. Rose, of Roseburg, is engaged in appointing Oregon agents to represent a large and reliable Chicago firm to introduce their new automatic spring scissors and latest books. Boys, girls, men or women are appointed either on salary or commission. If interested call on or write A. O. Rose, Roseburg, Oreg.

LETTERS OF MRS. GOEHNER

Addressed to Friends Prior to Her Suiciding Last Saturday.

Following are translated copies of the letters left by Mrs. Geo. Goehner to her husband and Mr. and Mrs. Carl Hoffman, written before her suicide at the home of the latter in this city Saturday night:

Roseburg, Or., March 11, 1905.

Dear George: I do not feel able to come home and take upon myself my duties, and I bear upon you but one burden: to let me end my sorrowful existence. I am sorry I did not come to this conclusion sooner; it would have saved me much pain and yourself and others much money and trouble. Please make everything right with Mr. and Mrs. Hoffman. I only hope I will succeed in my last deed. Do what is right with Michael. * * * Please dress me in my black silk dress from sister Doris.

I wish I had written a few words to Michael, but I cannot. Please do me a favor by not getting downhearted or worrying, but sing the hymn of Martin Luther, "Let us Thank God." I suppose you still remember the air. Be glad that my sufferings have ended. Forget me as soon as possible and be happy.

With heartfelt regards and wishes, from your true but unfortunate

Kate.

P. S. If I did anyone any wrong, I ask their forgiveness.

Roseburg, March 11, 1905.

Mr. and Mrs. Hoffman.

My Beloved Friends: I thank you heartily for your true love and good attendance which you have shown to me, the unfortunate. I cannot look through all this trouble and have therefore come to the conclusion to die. You, my dear friends, will surely grant my last wish by mailing these letters. My husband will make everything all right.

With my last hearty love from your suffering, unfortunate

Mrs. Kate Goehner.

P. S. Please dress me in my black silk dress, it was the wish of my sister Doris. I did not have the opportunity to finish the two sofa cushions which I intended to send to my niece. Please do so—this my last wish on earth.
