MONDAY, JUNE 19, 1905.

The Greek workmen, employed by the Southern Pacific Company are becoming a pest to Roseburg. Their filth and meanness has caused the company to construct an extra spur track some distance from the towns where the Greeks' trains are sidetracked, but never-the-less, they come to town in herds Saturday evenings and proceed to fill themselves full of bug juice and then they think they own the earth and that the average American is of small consequence beside them. Numerous reports were heard Saturday and Sunday of their actions in Roseburg. Saturday evening not only were men insulted by them, but women as well were made the object of their insulting remarks and insinuations. Saturday evening as they were congregated at the railroad crossing on Washington street preparatory to leaving town they made more noise than has been accredited to several crowds of young men who have been threatened with arrest if it occurred again, but the Greeks escaped detention. Of course when these motley foreigners come to Roseburg Saturday's they spend their money, but they should be restricted in their actions and language. We cannot have our wives and our daughters insulted because of a few paltry dollars spent with our merchants by a gang of ruffians in the employ of the S. P. Company.

It is gratifying to notice the many cement sidewalks being built in Roseburg. These sidewalks are permanent improvements and add much to the appearance of our city. Once down they remain for years without the necessity of repair. The fact that they are so lasting is a reason that they should be built right. We think we can safely say that those being laid here will compare favorably with cement sidewalks anywhere in the state. It seems to be good conscientious work and we believe will stand the test of time. The citizens who build these sidewalks are to be congratulated for the public spirit actuating them. However, it is also long sightedness, for cement sidewalks are in the long run the cheapest.

Posterity may see that justice is done a man, but he had rather attend the trial in person.

W. W. Cotton is a lawyer of recognized ability and a man of splendid all-round attainments, but from the fact that he is a corporation attorney, his energies and ability having during his entire professional career been bent in the interests of the big railroad companies, does not readily commend him to the common people as an entirely satisfactory successor to the late Judge Bellingier. It is said that for many years he has guarded well the interests of these big railroad corporations in the lobby of the Oregon Legislature and otherwise and in order to accept the high honor just conferred upon him, it is stated, he has given up a \$15,000 position for a \$6,000 office. He has been closely associated with the late Judge Bellingier and was known to have been a warm personal friend and counselor of the late Oregon jurist, which probably was one of the strong considerations in his selection by the President to fill the vacancy.

President Lincoln once remarked that if we gave \$30 a ton for iron rails made in this country we would have both the rails and the money, but if we bought them in England the rails only would be ours while the Britishers would get the cash. Whether the rails under consideration are iron of the days of Lincoln or the steel of today, or that the prices are now said to be \$28 in this country and \$20 in the countries over the Atlantic, the money and the rails stay in this country just the same. The policy of Protection to the industries is to protect, and not to haggle over the prices.

An object lesson as to the value of a high Protective Tariff is furnished by the experience of the Canadian woolen mills. The woolen manufacturers of Ontario and Quebec are facing an acute crisis because of their inability to compete with British imports. It is claimed that unless relief in the way of increased Protection is granted every loom in the province of Ontario will be idle. The present Canadian Tariff on woolen goods is 30 per cent., and the manufacturers are asking for an increase to 40 per cent.

Senator Mitchell was unable to appear in court for arraignment Monday, owing to ill health. The troubles, domestic and public, which have befallen the aged senator of late are said to have broken him in health and spirit to such an extent as to alarm his closest friends.

One of the pathetic and remarkable spectacles of the century is the plea of the great Russian Empire to little Japan through the Russian press for peace, "don't be too hard on us," being the Russian appeal as regards peace terms.

This is certainly a modern age. A moving picture machine on Admiral Togo's flagship secured pictures of a Russian battleship from the time it struck a mine until it disappeared under the water with 700 Russian sailors.

At last the real yellow peril has been discovered. An English doctor has found that the grip germ comes from China.

The king of Spain has given \$5000 to the poor of Paris. The price we paid for the Philippines was not in vain.

An American cruiser is going to the Spanish coast to observe the eclipse—the sun, not of Spain.

The rule still holds good that the most liberal advertiser secures the lion's share of business.

Japan may make its peace terms as considerate that Russia will cease to refer to it as a heathen nation.

It is a big jump, not slump, that has followed the World's Fair at St. Louis.

Admiral Rojestvensky claims that he was surprised. Nobody else was.

We are indebted to Mr. Boswell for two fine pictures of the Douglas county booth at the fair as it appeared June 4, showing the Boswell elegant display of fine paintings, which helped greatly to decorate the booth before the arrival of the major portion of the exhibit.

### Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine." For sale by A. C. Marsters & Co.

### Musings

An idle vacation season is the devil's workshop.

Hitting the Trail is no new experience for the Pioneers.

The Trail is the sideshow of the fair and the only thing that costs.

Will hunters shoot better now that they have to pay a license of \$1 a season.

As it takes two to strike a bargain you must advertise to get the other one interested.

The average married man can't understand how Carnegie managed to save so much money.

Geo. H. Williams has the sand. At 83 years of age he proposes to resume the practice of law.

Some people go bareheaded on the streets and put their hats on in church. Wouldn't that shake up a saint.

If a town man can't get enough trout to suit him any other way, he can always try to raise a vegetable garden.

The Philadelphia Ledger says that fame awaits the man who will give us a national song. What's the matter with Hiawatha?

Commencement day comes at the end of the term, because that is when the graduates commence to think of looking for a job.

It sends cold shivers down a girl's back to remember, after she gets in a hammock, that she hasn't got on her best stockings.

The LeVanon Criterion says that 54 men out of 100 have their left leg shorter than the right. Those are the 54 who have not yet visited the exposition.

A recently invented machine, it is said, will turn out 10,000,000 matches a day; but nobody will ever be able to find a match when he wants it, all the same. Neither will this comfort the old maids.

There is nothing that pleases the men so well in church as the call from the pulpit: "hats off, please." And there is an immense sight of religion in it too. The spirit of usefulness demands that hats come off.

Our envious contemporary, the Albany Democrat says: "When Sullivan fills his engagement here then Albany will have been visited by three of the greatest pugilists who ever fought: Jim Corbett, Jim Jeffries and John L. Sullivan. Suburban towns like Roseburg will have to get another hitch in the belt." The plays put up by the pugilistic fraternity do not appeal to the more refined and cultured class of amusement seekers. Such companies are rarely billed for Roseburg, but they never pass Albany or Eugene.

### INDIGESTION'S RECORD

"The best remedy I can prescribe for your indigestion, malaise, is Green's August Flower. I know of several other physicians who prescribe it regularly."

Indigestion is making an awful record as a cause of sudden deaths. It is beating heart failure in its ghastly harvest. You read in the papers daily of apparently healthy and even robust men being suddenly attacked with acute indigestion after enjoying a hearty meal, and of their dying in many cases before a physician could be called in.

This should be a warning to you who suffer with regular or periodical attacks of indigestion. If these unfortunate victims of acute indigestion had taken a small dose of Green's August Flower before or after their meals they would not have fallen a prey to such sudden seizures.

August Flower prevents indigestion by creating good digestion. It also regulates the liver, purifies the blood and tones up the entire system in a natural way.
