"Help for the Honest Doubter" will be the subject at the M. E. Church next Sabbath morning. At night the subject will be "The Flimsy Excuses of the Average Sinner." The public is cordially invited to these services.

The attendance at the Centennial on every day has been more than the management or the people of Portland expected. All kinds of people have seen the fair, farmers and mechanics, business and professional men, and their wives and children and sweethearts. And the dazzling dancers on the picturesque trail have gladdened the heart and lightened the purse of nearly every visitor.

Congressman Binger Hermann has the thanks of the Plaindealer for two useful and interesting little booklets recently issued from the Government printing office, one the complete index to the 58 congress, 1st and 2nd sessions the other being an encyclopaedia of names of places in the United States and their origin, in which we learn that "Roseburg, Douglas county, Oregon, was named for Aaron Rose, one of its first settlers; Astoria, Clatsop County, Oregon, named for the founder John Jacob Astor, who established a fur trading post station there in early days; Portland, Oregon, named decided by the toss of a copper by two settlers, one from Portland, Maine, the other from Boston, Mass.; Port Orford, town in Curry county, Oregon, named for Earl of Orford; Seattle, Washington, named for the chief of the Duwamish tribe of Indians, See-as-thil, etc."

Small boys, 10 years old, among the Eureka cadets, will have marched 510 miles when the corps reaches Portland on today, averaging about eighteen miles a day. All of the other boys have taken to the wagon part of the time. The majority of all the boys have marched all the way. It is a pretty good record for a 10-year-old.

The Elks of Ashland Lodge, No. 944, were greatly rejoiced to receive the news by wire late Tuesday evening from their representative at the grand lodge in session at Buffalo, Hon. E. V. Carter, that a charter for the local lodge had been granted by the grand lodge. It is understood that the Ashland lodge contemplates celebrating the granting of their charter in a fitting manner in a short time.

Frank Beals, publisher of the Y. M. C. A. paper at Los Angeles, and Foss Funk, also of Los Angeles, passed through Roseburg this morning en route for the Portland Exposition. The boys are representatives of the popular magazine "Success," for which they solicit subscriptions to assist in defraying expense of their trip. They are riding the common bicycle and average about 50 miles per day. They came up the coast via Eureka and report very bad roads in Northern California and Southern Oregon.

Can you possibly realize the fearful heat in all sections of the East? Yesterday's heat extended from the Dakotas to New York, causing death, sickness and prostration. In New York city in five days there were 218 victims of heat. In one day 17 died and 67 were stricken, and these are only the figures reported to the health department. The poor are suffering terribly and several have gone insane. Does any sane man want to leave this glorious climate where crops are sure, where we have no storms, no hot, no cold weather? Oregon is a favored spot.

A HUNG JURY IN WILLIAMSON TRIAL

Just as we go to press a message is received from Portland stating that after being out nearly three days and two nights the Williamson jury was unable to agree on a verdict and was this afternoon discharged. It is said the jury stood 10 to 2 for conviction.

EXPERT MACHINIST AND MOTOR MAN

W. M. Hodson, has won the well deserved reputation of being not only an expert machinist, but also an expert gasoline motor and engine repairer, and his well equipped machine and bicycle repair shop is the busiest place in Roseburg. From all parts of the county demands come for his services in regulating cranking gasoline engines and automobile repairing is also right in his line. His machine work is reliable and permanent, and his charges are very reasonable.

Through Mr. Hodson the Plaindealer received a fine "Yale," two horse-power motor bicycle this week, which is a remarkable piece of mechanism and the festive news item will have to be very fleet if it escapes the Plaindealer columns hereafter. Mr. Hodson has placed many fine Rambler and cheaper wheels in this county this season, including two motor wheels and he will endeavor to introduce some automobiles here next season. He is building up a large machine shop and bicycle business.

He has been spending some time in the Josephine county mining district and lately visited and spent eight hours exploring the Josephine caves which he pronounces a great natural wonder. He says during his several hours travel in the cave he never traveled over the same ground and states there is probably miles of this great cave which has never been explored. He says the grandeur of the chambers, tunnels and caverns therein is not easily described. When the great cave becomes more generally known and explored he predicts that it will rival the great Kentucky cave. Mr. Gordon went to Coos county today to look over the coast country. He is an old newspaper man and favored the Plaindealer with a pleasant call.

Dollar Saved Represents Ten Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by A. C. Marsters & Co.
