She Was a Comanche

White Woman Had Indian Husband and Was Adopted by Tribe.

Captured in a Famous Massacre. She Was Taken to Live With the Red Men—Her Rescue by Whites.

The dispatch from Lawton, Okla., which announced the arrival of Quannah Parker as the messenger of President Roosevelt to Governor Ross, said that Parker, as chief of the Comanches, delivered the president's promise of lib-

ONE OF THEM WAS KILLED.

erty to Geronimo with a dignity which belonged to international affairs. The meeting between Geronimo and Parker occurred fifteen miles west of Lawton, and all its proceedings were governed by conventional dignity and ostentatious ceremony," says the St. Louis Globe-Democrat.

Quannah Parker, who was thus selected as his messenger by President Roosevelt, is celebrated in the south west not merely as a Comanche chief, who is also a civilized capitalist, but as a representative of what is perhaps the most remarkable tragedy romance in the history of the southwest. He descends not only from a line of Comanche warriors on his father's side, but on his mother's from a family which included one of the signers of the Texas declaration of Independence, for whom Parker county, in Texas, is named. The family has connections also in Illinois and Virginia and probably in other states. No doubt the Comanche chief might find cousins among some of the most prominent people in half a dozen western and southwestern cities outside of Texas, whose relatives who acknowledge their connection with him are many and prominent. The story of how a religiously educated Texas girl of such a family as this came to be the mother of a Comanche chief may become in time as celebrated as that of Pocahontas. It explains itself briefly as a result of her capture by Comanches while still a child and her adoption into the tribe, to which she became so strongly attached that she would never have been restored to civilization at all if the late Sir Ross of famous memory in Texas and his lieutenant, Killier, had not been mounted on better mounts than hers. She rode like a man in Texas at a time when the sight of a Comanche was a signal for the most exciting of all hunts—the man hunt. She was with her Comanche husband as one of a small party of their horses under the fire of their pursuers. When one of them, whom Ross overtook, was killed his shield and spear were taken by Ross as trophies and are now in the Texas State museum as a memorial of the chase, which still continued after he fell. Its final object was a Comanche riding a painting pony at full speed across the plain and with no idea of surrendering to Lieutenant Killier, who was pursuing. In the chase Ross' companion, Lieutenant Somerville, being a heavyweight, had exhausted his pony and dropped out, but Killier continued until he had reached neck and neck with the fugitive. He then made the discovery which accounts for the fact that he brought back a prisoner instead of another Comanche trophy for the Austin museum. The fleeing Comanche was a woman handicapped by the burden of a daughter not quite three years old.

As he returned with her to his companions, whom he had separated from in capturing her, he made another surprising discovery, or at least became virtually certain of what afterward proved to be the fact, that she was a "full blood" white American. She could speak no English at all and was in a state of the greatest terror of her captors. Through a Mexican interpreter they learned that she had two sons, small boys, among the raiding band of whom they had been in pursuit. Ross, who remembered the massacre at Parker's fort twenty-four years before, suspected at once that the Comanche squaw he had run down was Cynthia Ann Parker, the little girl who had been carried off with other members of the family after the massacre on May 19, 1836, when she was nine years old.

After recapturing her in December, 1860, Ross sent for her uncle, Isaac Parker, of Tarrant county, and a careful attempt was made to find how much she remembered of her girlhood. She recognized the name "Cynthia" as her own and told through the interpreter incidents which left no doubt she was the lost girl for whom all Texans had searched in every hunt after Comanches during almost a quarter of a century. It was not long before her forgotten English began to come back to her, and one of the most remarkable features of her remarkable

life story is that her recollection of the life connected with it returned as she regained control of the speech of her early childhood. As long as she used the few hundred words of the Comanche dialect she had the Comanche mind and her former life had been completely blotted out of it. During her captivity, after her adoption into the tribe which massacred her family, she was as well treated as any other girl of the tribe, and from the Comanche standpoint she made an advantageous marriage. When her Comanche husband was killed by her rescuers she grieved for him and regarded them as enemies to be hated and dreaded. Even after her uncle had dressed her completely in the clothing of a civilized woman and taken her to Austin she "sought every opportunity to escape."

The Texas state convention was in session at Austin, and when, to amuse her, she was taken into the gallery her idea was that she was brought before it to be tried and sentenced. She illustrated this for a long time the governing Comanche idea that the chief reason for the existence of white people was to hunt Comanches when they were not being hunted by them. She returned slowly to her original state of mind as Cynthia Parker, and, losing all appearance of being a Comanche squaw, she was admired as a comely and intelligent woman. With her daughter, "the Prairie Flower," she lived with her brother in Anderson county, Tex., until 1870, when her daughter died. Thus cut off from her past in the tribe in which she had been adopted, she died not long afterward.

Of her two sons remaining with the tribe one died many years ago. The other is Captain Quannah Parker, the Comanche chief of the present, who lives with his tribe on its reservation in memory of his mother he has given himself a very considerable English education. When Mr. John Henry

THE LITTLE GIRL WAS CARRIED OFF AFTER THE MASSACRE.

Brown, himself connected with much of the pioneer life of Texas, was writing his history he interviewed Quannah Parker, who gave his birthplace as the Wichita Falls in the year 1824. He is noted as a successful ranch manager, and he stands as high with the white people of the southwest as he does with the Comanches. He is one of the few Indians in American history with a strain of Caucasian blood derived from a white mother. After her adoption into the tribe her marriage to his father under its customs was as binding as that of Pocahontas to Rolfe under the ritual of the English church. He adds his mother's family name to that of "Quannah," as under the customs of many Indian tribes he is entitled to do. In some indeed descent is reckoned only on the mother's side, and where a family name is adopted at all it is that of the mother. So, though he is a Parker only through the mother's adoption and marriage into his tribe, he is still as much a Parker as if he had been born under civilized conditions and elected governor of an American state instead of succeeding to all the title of the mother. He, though he is a Parker only through the mother's adoption and marriage into his tribe, he is still as much a Parker as if he had been born under civilized conditions and elected governor of an American state instead of succeeding to all the title of the mother.

MARSTERS DRUG STORE

"Please Smile and Look Pleasant"

When a woman says "I am racked with pain," the word "racked" recalls the days when she stretched the tender bodies of women on the rack with rope and pulley until the very joints cracked. Fancy an attendant saying to the tortured woman, "Please smile and look pleasant."

And yet the woman "racked with pain," is expected to smile through her agony and to make home happy. She can't do it. It is against Nature. Generally speaking, the racking pains of ill-health such as headache, backache and "bearing-down" pains are related to derangement of the organs of the digestive system. When this condition is removed the general health is restored, and with health comes the smile of happiness.

Any woman may regain her health at home without offensive questionings or examinations by the use of Dr. Pierce's Favorite Prescription. Such women may consult Dr. Pierce, by letter, free of charge. Such letters are treated as strictly confidential.

It affords me pleasure to relate the wonderful merits of your great medicine, especially your "Favorite Prescription," writes Mr. J. Wesley Thine, of Woodbury, N. Jersey. "I have been suffering for many years with heavy work or washing but can do all kinds of work now. She is soon to become a mother. I have her in my hands as heretofore, all due to your wonder-worker. Your 'Pleasant Pellets' are also worth many times their price for relief from indigestion and stomach trouble, and have found them to be all that you claim. They are my constant companions—always used, always kept."

Given away. The People's Common Sense Medical Advisor is sent free on receipt of four "Favorite Prescriptions," written in plain, simple, and readable English. The book contains several colored plates. Send 20 cents for the paper-bound book, or 30 cents for the cloth-bound book. Address, Dr. J. C. Pierce, Buffalo, N. Y.

The Chinese Varnish Made to Walk Upon

MADE IN ALL COLORS

Cherry, Mahogany, Oak, Natural, Etc.

For Floors, Bar Tops, Furniture and General Household Use.

Come to our store and get a sample of Chi-Namel applied to wood. Take it home and test it.

First. Strike the wood sample a heavy blow with a hammer, and note that while the wood may be indented a quarter of an inch the varnish has not cracked. This proves that Chi-Namel is very elastic.

Second. Place the wood sample in a tea kettle, and note that boiling water does not turn it white. This proves that Chi-Namel contains no resin.

Third. Apply whiskey. This proves that Chi-Namel will stand upon bar tops.

Fourth. Allow a can of the varnish to stand open over night, and note that there is no evaporation. This proves that Chi-Namel contains no benzine.

Fifth. Spread varnish over fat surface, and brush in every direction, and note "soft leveling" effect. This proves that all brush marks disappear, and the result will be pleasing no matter how inexperienced the applicator may be.

Old floors can be made to look like new hard wood.

No need to buy new furniture.

Chi-Namel will make old furniture look BETTER than new furniture.

Take a sample. Write us to prove to yourself there is NOTHING just as good as Chi-Namel.
