Quite a curiosity has been brought to this office by Mr. S. W. Haptonstall, in the shape of a two-headed snake. He captured it in the Frawnoy Valley, in the Cascade Range. It is preserved in alcohol and attracts much attention while on exhibition in the Plainedealer's window.

The Roseburg Plainedealer justly kicks at the keeping of the Land Office closed at that place on the ground that it interferes with the rights of legitimate homesteaders and timber claim purchasers. We ourselves have been nearly three years getting a patent for our timber claim and haven't got it yet for that matter, and for no other reason than that it is being delayed by such apparently unfeeling actions of the government as these.—Washington County News.
