RAILROAD Notes

Roseburg railroad circles were shocked Thursday evening by the message which was flashed over the wires from Ashland that the genial, good-hearted Ev. Gray, one of the S. P.'s most popular and efficient engineers had committed suicide. Later word had confirmed the report and it told how he was found dead in his room at the Depot Hotel, in a room just over the dining room, with a bullet hole in his head. Despondency, presumably over the separation from his wife which took place recently was the supposed cause. The remains were brought to this city Friday morning accompanied by Engineer A. G. Livingston, of that city. They were met at the train by many Odd Fellows, of which Gray has long been a member, and many citizens who had known him for years here. The funeral services were conducted at the I. O. O. F. Hall, Saturday afternoon, and was largely attended. Rev. C. H. Lake and Rev. Geo. C. Ritchey, jointly, conducted the impressive services and a large number of friends followed the remains to their last resting place, at the I. O. O. F. cemetery.

Yesterday morning eleven cars of Greeks passed through this city enroute for Myrtle Creek and vicinity, where they are now to be located, for some time to come.

The "Ben Hur" special passed through this city going north, about four o'clock yesterday morning, after having been at San Francisco and other southern large cities.

J. R. Sutherland shipped 800 head of sheep to Portland, Saturday.

"It is a noticeable fact that the railroad men are to the front, whenever there is a fire," remarked an observing citizen. "At the last big fire Agent L. B. Moore and a great many of the men were on hand to lend every assistance possible."

Up to date 61 of the 83 Greeks who were identified with the Glendale uprising have left this part of the state, most of them going to Portland, from whence they will probably be sent out to other jobs of work.

One of the social events in railroad circles this week, was the wedding which took place at Oakland 1, last Wednesday, in which Mr. Scott Lander, one of the popular freight engineers, and Miss Anna Kay Grubbe, were the contracting parties. They have gone to California, on their honeymoon and will be "at home," in Roseburg, after Nov. 31.

Thursday a car of horses were shipped to Grants Pass and another car to Portland.

Every day so the Association Packing House sends out a car or two of produce to eastern markets, the Douglas county produce bringing good figures.

This splendid fruit was raised upon stony ground, over in Edenbower and shows what can be done here.

Saved His Life

J. W. Davenport, Wingo, Ky., writes June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other side badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two 50-cent bottles cured me sound and well.

It is a wonderful medicine and I recommend it to suffering humanity. Sold by A. C. Marsters & Co.

Some Seasonable Advice

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by A. C. Marsters & Co.

Japan's Open Door.

Foreigners now may not only travel in any part of Japan, but may reside and do business anywhere. Their status in Japan is almost identical with that which the westerners have in another country among themselves. The local laws of Japan govern every person who finds himself in the lands of Japan. The liability to arrest, prosecution, punishment and appeal applies to natives and foreigners alike. All foreigners may sue and be sued in Japanese courts. Any company made up of foreigners can own land if they admit even but one Japanese subject into their company. Mining concessions can only be granted to Japanese subjects and to companies formed according to Japanese laws, but any foreigner may be a partner in any company which works mines. In other words, in mining matters foreigners may be partners with Japanese or may own shares in a Japanese mining company.

There are some banking and shipping companies in Japan in which foreigners cannot participate. These are exceptions under supervision of the government and are very few in number. These include subsidized companies. It is not thought wise to subsidize foreign shareholders. The banks which are under the protection of the Japanese government are closed to foreign ownership. Nor as yet can foreigners for military reasons own shares in the Japanese private railways. This point, however, may be considered for the present as a pending question. The sphere of foreigners in Japan is very large.

Porto Rico a Winter Resort.

Whenever the people of the island are well employed and properly fed and their misery thus ceases to afflict the traveler, and when better accommodations are provided for travel, better steamers, railroads and hotels, Porto Rico will become a winter resort for Americans and Europeans for pleasure and health, says the North American Review. Its foreign aspect, its matchless scenery—a combination of the grandeur of the Alps and the beauty of the tropics—its delightful winter climate and the courtesy and hospitality of its people, rich and poor, will attract visitors by thousands.

The location of the island at the gateway of the Caribbean sea and at the crossroads of the two great lines of commerce which will flow between North and South America and between Europe and the Pacific ocean by the Isthmian canal must soon make it one of the world's great centers of commerce and exchange and develop one or more great cities which will rival in population those of the eastern tropics and in healthfulness and other attractions vastly surpass them.

Many new subscribers are being added to the Plaindealer list every day.
