An exchange has found a subscriber of a philosophical turn of mind who contends that it is much easier to pay for his paper in advance than at the end of the year. In answer to an inquiry he gave as the reason that when he paid in advance he was getting something new for his money, but to pay at the end of the year was like paying for worn out clothing—there was none of the pleasure of anticipation in the transaction. There is some good sense in this, and the wonder is that the pay-in-advance principle is not more universally followed by the newspaper subscribers.

Tuesday morning two game wardens from Roseburg, E. G. Holson and J. D. Wilson, intercepted William Wilson, a brother-in-law of Game Warden Hutchinson, as he was hauling 12 sacks of ducks in a wagon from Tule lake to the Merrill boat landing for shipment to San Francisco. The ducks were killed on or near Tule lake, in California, presumably by the parties to whom they were consigned, and Wilson was intercepted by the Oregon game wardens on Oregon soil with the ducks in his possession. The sacks contained 325 ducks. The ducks were taken to Klamath Falls and stored in the county jail in care of Game Warden Hutchinson. The Express says as no one swore to a complaint, no warrants for the arrest of the parties mentioned were issued. Wilson was indignant at the loss of the ducks and swore he would make the game wardens pay for them.—Ashland Tidings.

Owing to the breaking of the "exciter," at the "Douglas" works, the Light & Water Co's. customers are having some difficulty to get the desired light. The delicate instrument wore out through wear and tear and has to be repaired before it can be used again. It has been sent to Portland and it is expected that work will start up in about one week. In the meantime the business houses which are on this line have been transferred to the other system, while the repairs are being made.

DAIRYING PAYS IN DOUGLAS COUNTY

The Plaindealer is always pleased to notice any matter which tends to go to show that this is a desirable locality and especially anything which may give encouragement or help its readers.

The fact that this is becoming known as a desirable locality for dairying can no longer be questioned. One of the best evidences of this is the constantly increasing business of the Douglas County Creamery and the way in which the farmers are beginning to take hold of this growing industry.

The attention of the newsgatherer has been called to the success which has been attending the efforts of Mr. J. C. Aiken, of Roseburg, along this particular line. Mr. Aiken, when seen by the reporter, was very willing to express himself regarding this matter and he did not hesitate to say, that in his opinion, he believed the dairying industry is destined to become one of the most productive resources of this growing county. He has what is known as the "Lane Place," located in this locality, and he finds that it makes an ideal dairy ranch. It is the black soil which needs no enrichment to produce all kinds of grains and grasses. In fact so rich is the soil that the wild grass is found in quantities and is a never failing source of supply for the man who wants feed for his cows. The land never has to be fertilized or changed, but will give good crops all the time, and some of them are what some people would likely call "bumper crops." That Mr. Aiken has been getting good returns for the time and effort which he has been putting forth along this line is evident from the fact that during this past year he has realized no less than \$500 clear profit from the cream which 25 cows gave him to sell to the Douglas County Creamery. He has found the work not irksome and on the whole rather pleasant, and he is highly pleased with the results of his efforts.

What has been done by Mr. Aiken is doubtless being done by many other Douglas county farmers and they would agree with him in declaring that dairying in Douglas county is one of the coming industries of this big and productive section.

The Exact thing Required for Constipation.

"As a certain purgative and stomach purifier Chamberlain's Stomach and Liver Tablets seem to be the thing required, strong enough for the most robust, yet mild enough and safe enough for children and without that terrible griping so common to most purgatives," say R. S. Webster & Co., of Doris, Ontario, Canada. For sale by A. C. Marsters & Co. n

No Poison in Chamberlain's Cough Remedy.

From Napier, New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they thought was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this medicine the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little one. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. This remedy is for sale by A. C. Marsters & Co. n

CONSUMPTION'S WARNING

Inside facts soon become evident in outside symptoms.—DR. G. G. GREEN.

The aid of scientific inventions is not needed to determine whether your lungs are affected. The first symptoms can be readily noted by anyone of average intelligence.

There is no disease known that gives so many plain warnings of its approach as consumption, and no serious disease that can be so quickly reached and checked, if the medicine used is Dr. Hockner's German Syrup, which is made to cure consumption.

It is in the early stages that German Syrup should be taken, when warnings are given in the cough that won't quit, the congestion of the bronchial tubes and the gradual weakening of the lungs, accompanied by frequent expectoration. But no matter how deep-seated your cough, even if dread consumption has already attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble.
